

STATE OF CONNECTICUT
DEPARTMENT OF PUBLIC WORKS

ARCHITECT'S CONTRACT FOR ON-CALL SERVICES

CONTRACT NO. OC-DPW-ARC-0023

This contract is entered into this 20th day of March, 2008, by and between

Tecton Architects, Inc.

One Hartford Square West

Hartford, CT 06106

hereinafter called the "Architect" or "contractor," and the State of Connecticut, hereinafter called the "State," acting herein by its Commissioner of the Department of Public Works (DPW), under the provisions of Sections 4-8 and 4b-1 of the Connecticut General Statutes, as revised.

WITNESSETH

Whereas the State is desirous of having the Architect provide services to temporarily augment State forces in the preparation of design plans, specifications, estimates, and related data and studies for various infrastructure projects throughout the State, and

Whereas the Architect is experienced as to work on all types of infrastructure projects, and

Whereas the Architect is desirous of performing such work;

NOW, THEREFORE, in consideration of the mutual covenants hereinafter set forth, the parties hereto do hereby agree as follows:

- A. For each specific project assigned under this contract, the Architect shall furnish a project manager, engineers, architects, and other personnel to do work when directed as hereinafter provided. For all such projects, the Architect agrees to follow the applicable provisions set forth in the manual entitled "Consultants Procedure Manual" dated March 24, 2005, and prepared by the State of Connecticut, Department of Public Works, given to the Architect prior to this contract being entered into, and which may be modified from time to time.
- B. For each specific project assigned under this contract, the Architect shall perform the following services when directed in writing:
 1. DESIGN SERVICES. The Architect shall perform services during the schematic design phase, the design development phase, the contract documents phase, and the bidding period as hereinafter specified.
 - a. Schematic Design Phase

Pursuant to conferences with the State, designs shall be prepared by the Architect to encompass the general program of the project. These designs shall consist of small scale drawings, elevations, sections and outline specifications. All specifications shall be prepared in accordance with the CSI (Construction Specifications Institute) format. At this time the Architect shall make sufficiently accurate estimates to determine the feasibility of constructing the project within the funds available. At the beginning of the schematic design phase, the Architect shall engage her/his/its consultants as set forth in Section I. The Architect shall submit for review and approval the number of sets of drawings, specifications, and detailed cost estimates specified in the task letter prepared for the project, as hereinafter provided in Section C.

While preparing such drawings, specifications, and detailed cost estimates, the Architect shall investigate any factors that may conflict with the use of the site as proposed, such as neighboring building lines, zoning regulations, sanitary codes, health and fire laws, local ordinances, etc., and shall report her/his/its findings thereon to the State when submitting schematic design phase drawings, outline specifications, and detailed cost estimates.

If the estimate agreed to by the State and Architect exceeds the funds authorized for construction, or if the State and Architect cannot agree upon an estimate of the probable construction cost and the probable cost of construction as determined by the State exceeds both the Architect's estimate and the funds authorized for construction, then the State shall have the right to require the Architect to make such revisions as the State deems necessary at the time to bring the cost within the funds authorized for construction.

b. Design Development Phase

The Architect must receive written notice from the State to proceed with the design development phase before commencing the phase. The design development phase drawings shall show the extent of the site, location of the project on the site and the general disposition of the principal features and equipment embodied in the project, and shall be sufficiently developed so as to fix and illustrate the size and character of the project in all of its essential basic particulars as to kinds of materials, types of structure, and mechanical and electrical systems. All specifications shall be prepared in accordance with the CSI format. The Architect shall submit for review and approval the number of sets of drawings, specifications, and detailed cost estimates specified in the task letter prepared for the project, as hereinafter provided in Section C.

Submitted with the design development phase drawings and specifications shall be an estimate of the cost of construction predicated on the same, and broken down into the major sub-trades for the construction of the building, with separate figures for special items such as equipment, site work, and utility lines. Basic architectural and other drawings and specifications shall also be provided at this time by the engineers and other consultants working under the direction of the Architect.

As the drawings submitted during this phase are to form the basis of the whole concept of the project, they shall be reviewed by the State for conformance to functional and technical requirements of the project and approved by the State before the Architect proceeds to the next phase. It is understood, however, that such review and approval does not relieve the Architect from any responsibility arising out of the State's reliance on the Architect's professional skill and ability to discharge her/his/its services as required by this contract.

c. Contract Documents Phase

The Architect must receive written notice from the State to proceed with the contract documents phase before commencing the phase. The documents to be provided in this phase are a part of the construction contract and as such must explain in substantial detail the full scope of the work to be included in, and performed under, the construction contract.

A final detailed estimate of the cost of construction, including unit prices, quantities, labor and materials, predicated on the contract documents phase drawings and detailed specifications, shall be included as a part of this phase. All specifications shall be prepared in accordance with the CSI format and in accordance with Part II of Chapter 60 of the Connecticut General Statutes, as revised, when applicable. The Architect shall submit for review and approval the number of sets of drawings, specifications, and detailed cost estimates specified in the task letter prepared for the project, as hereinafter provided in Section C. Such review and approval by the State does not relieve the Architect of responsibility arising out of the State's reliance on the Architect's professional skill and ability to discharge her/his/its services as required by this contract.

If the project involves either new construction and/or additions to an existing facility, the Architect will consult with the client agency and develop the first year estimated operating cost for the project's utilities including, but not limited to, heating, cooling, water and sewer.

All original final tracings shall, together with the specifications typed in letter quality print on one side of 8 1/2" x 11" white bond paper, be submitted by the Architect prior to the State's going to bid.

When the Architect has incorporated all comments and the documents are ready for bidding, the Architect will submit the tracings, master specifications, and a CD ROM disk of both to DPW. This submission will conclude the contract documents phase of the contract.

d. Should the Architect develop drawings for the tasks under this contract, then the Architect shall use computer aided drafting software fully compatible with an AutoCAD version as approved in writing by the Department of Public Works. After the documents to be provided are approved by the Department of Public Works, and at a time specified by the Department of Public Works, the Architect shall submit an electronic copy of all drawings in a format approved by DPW. Upon completion of construction of the project, the Architect shall submit a revised electronic copy utilizing the most recently recognized format of the National CAD Standard basic format to reflect as-built conditions. All AutoCAD documentation related to a project shall be of a single media type. All the work called for in this paragraph shall be provided by the Architect at no additional cost to the State.

e. Bidding Process

In the event DPW bids the contract drawings and specifications, the Architect shall, as part of the design services to be rendered for her/his/its established fee, include as much of her/his/its professional services as the State deems necessary for the well-being of the project and the efficient prosecution of the bidding process.

2. CONSTRUCTION ADMINISTRATION SERVICES

The Architect shall perform construction administration services during construction as necessary. Such services shall, as part of the services to be rendered for the Architect's established fee, include as much of the Architect's professional services and the services of the Architect's consultants as the State deems necessary for the well-being of the project and efficient prosecution of the construction work, but shall not include the Architect's undertaking continuous on-site observation of the work. If the Architect fails to perform such duties in a conscientious and reasonable manner, the State may exercise its right to terminate this contract as hereinafter provided in Section S.

Additionally, it is understood and agreed to by the Architect and the State that the duties of the Architect shall include, but not be limited to, the following services:

- a. observe the progress of construction in order to determine whether there appear to be any defects or deficiencies in the construction work or deviations from the drawings and specifications, including variations from the materials specified and the methods of construction authorized. The Architect shall not be required to guarantee the performance of the general contractor or her/his/its subcontractors;
- b. attend job meetings as required, at which the Architect shall, on the basis of the Architect's visitations to the site and observations thereon, report on the progress of the work and make recommendations concerning the same;
- c. submit to DPW on the fifteenth and last days of each month, in such form as directed by the State, observation-based reports regarding the progress of the work;
- d. review submittals and furnish recommendations to the State concerning material and equipment, and review and report on the general contractor's proposals in connection with changes in the construction contract. These services are to be performed within five (5) calendar days of receipt of such proposals so as not to delay the work;
- e. review partial payment requisitions submitted by the general contractor within three (3) working days of the receipt of such submittals;
- f. review and comment on shop drawings submitted to her/him/it for review. This service is to be performed within five (5) working days of the receipt of such submittals unless DPW assents to written notification of why this cannot be accomplished;
- g. within thirty (30) calendar days after receipt, record on the original final tracings and CAD disks returned to her/him/it after the construction contract award all changes made during the period of construction as furnished and recorded by the general contractor, and, at her/his/its expense, provide reproducible mylars and updated CAD disks to the State that reflect such changes. The mylars and CAD disks shall become the property of the State;
- h. fully cooperate with DPW during the progress of the work.

In the event that the time period of the construction contract is exceeded by more than 10% due to no fault of the Architect, the Architect shall be paid for any additional services required beyond the 10% construction contract time overrun a reasonable fee to be determined by the Commissioner of DPW, hereinafter called the "Commissioner." The question of fault or no fault on the part of the Architect shall be determined by the Commissioner.

3. In accordance with State requirements, the Architect shall perform construction administration on construction projects designed by DPW or other consultants employed by the State.
4. The Architect shall review drawings and specifications prepared by other consultants employed by the State. Such reviews shall be conducted in accordance with State requirements.
5. The Architect shall provide the architectural services that might become necessary to supplement the work of DPW personnel.
6. The Architect shall notify DPW in writing of any materials encountered on any assignments that appear to be asbestos or appear to contain asbestos. It is understood that the Architect is not an asbestos specialist and that the Architect's responsibility shall not extend beyond attempting to identify those materials present that may be asbestos or may contain asbestos, and informing DPW when such materials are noted. In those cases where asbestos or asbestos-containing materials are present but are not detected by the Architect, the Architect will not be held liable. All work involving the location, encapsulation, removal, disposal, etc., of asbestos or asbestos-containing material will be performed by asbestos abatement and air and/or bulk sampling specialists hired by the State.

The above notwithstanding, should the project assigned involve roofing systems and should the location, encapsulation, removal, disposal, etc., of asbestos or asbestos-containing materials in such roofing systems be part of the scope of work agreed to by the State and the Architect, then the Architect shall provide such services. The conditions of provision of such services shall be as set forth in the task letter prepared for the project, as hereinafter provided in Section C, and the Architect shall proceed with the asbestos-related work according to guidelines provided by DPW before commencement of the work.

- C. The services specified in Section B shall be performed in accordance with the provisions noted in each task letter prepared by DPW for each project. Each task letter shall detail the scope of the project and shall specify the total fixed-fee compensation, when applicable, for the aforesaid services. The compensation shall be a reasonable amount determined by the Commissioner. Such letters shall be issued during the time period of this contract set forth in Section D and shall specify a time frame for completion of each project. Each task letter shall reference both a DPW project number and a task number specific to the project. No work shall be performed until the Architect receives the approved task letter.
- D. This contract shall commence with the date this contract was entered into and shall expire on **April 1, 2010**. No new projects may be assigned on or after the expiration date, but all projects assigned prior to the expiration date will be allowed to continue to completion with all the terms and conditions of this contract herein set forth remaining in full force and effect. The term of this contract may be extended in writing by the Commissioner.
- E. The maximum total cumulative fee allowed the Architect under this contract shall not exceed **Five Hundred Thousand Dollars (\$500,000.00)**. The Architect shall be entitled to a payment of **Ten Dollars (\$10.00)** at the termination of this contract if at such time the Architect has not received any fee under this contract.
- F. When approximately 75% of the fee set forth in Section E has been expended, the Architect shall notify the DPW A/E Contracts Administrator in writing of the amount of work completed to that date under this contract. Said notification shall include an itemization of all fees that have been paid to the Architect pursuant to the work.
- G. If for reasons of incomplete scope, complexity, etc., a fixed fee cannot be determined by the Commissioner, the State shall compensate the Architect for services rendered under this contract on the basis of pre-approved hourly rates for the personnel assigned to perform the services. The hourly rates shall be determined in accordance with the provisions set forth in the Office of Policy and Management General Letter No. 97-1 dated November 21, 1996, which letter is incorporated herein by reference and made a part hereof as though fully set forth herein. Notwithstanding the preceding sentence, a pre-approved hourly rate shall not exceed a reasonable rate, as determined by the Commissioner, taking into consideration the skills and experience of the person providing the services. When pre-approved hourly rates are applicable, the State shall be responsible for payment for overhead

and profit, as set forth in OPM General Letter 97-1. Hourly rate payments shall be made in accordance with the terms and conditions of each task letter. Monthly requests for payment shall be submitted on properly prepared invoice forms with attachments showing actual hours worked, pre-approved hourly rates applied, and any allowable additional direct costs included in the statement. The Architect shall certify that each amount invoiced is both accurate and commensurate with the work performed for the State under this contract.

The State reserves the right to periodically audit the Architect's financial records. It is specifically understood that these pre-approved hourly rate payments shall only apply for the period of time that the person is actually employed on projects assigned under this contract.

The State agrees to pay the Architect, for the services described in each task letter, the total fee set forth in the letter. It is understood that no changes or adjustments shall be made in said fee unless the scope of the work performed or to be performed by the Architect has substantially changed as determined by the Commissioner. In addition, said fee includes all costs of living, travel and communication, whether within or without the State of Connecticut, connected with the discharge of the Architect's duties under this contract unless express written notification to the contrary is received from the State.

No payment shall be made until the material submitted has been reviewed and approved by the DPW.

- H. The Architect shall not be reimbursed for per diem expenses or travel expenses.
- I. Should the Architect require the services of registered consultants at any time during the duration of this contract, their names and qualifications shall be submitted to the State for approval. Such consultants shall provide evidence of their competence by affixing their seals on any drawings or specifications prepared by them or under their supervision. The Architect shall not receive any additional payment from the State in regard to such consultants unless their services relate to hourly-rate assigned work of the Architect. In such event, the State shall reimburse the Architect for the cost of such services and in addition shall also pay the Architect ten percent (10%) of such cost, or such other percentage deemed reasonable by the Commissioner, for overhead and profit.
- J. Should it be necessary for the Architect to engage the services of a test boring firm for the purposes of this contract, the State shall reimburse the Architect for the cost of such services and in addition shall also pay the Architect ten percent (10%) of such cost, or such other percentage deemed reasonable by the Commissioner, for overhead and profit.
- K. If, in the opinion of the State, any special technical service is required which is not usually furnished in architectural practice and which is not included in this contract, either expressed or implied by the nature of the work, then the State shall, in writing, authorize the service and the related cost. The Architect's selection of the consultant retained in connection therewith is to be submitted for approval. The State shall reimburse the Architect for the cost of any such services and in addition shall also pay the Architect ten percent (10%) of such cost, or such other percentage deemed reasonable by the Commissioner, for overhead and profit.
- L. Should the Architect personally wish to perform special services as described in Sections J and K, the Architect shall submit to the State a written quotation of the cost of so performing such services. The quotation shall not include, nor shall the Architect be paid for, an additional percentage of the cost for overhead and profit. In addition, the Architect shall arrange to have at least three (3) independent outside sources submit written quotations for the work directly to the State in sealed envelopes. The State shall decide whether to allow the Architect to perform the work with the Architect's own forces based on the Architect's quotation, and shall notify the Architect accordingly.
- M. If at any time during the term of any project assigned under this contract the State should require the Architect to make any substantial change in the size or scope of the work or require any substantial change in plan, design or specification which shall necessitate the preparation by the Architect of additional sketches, drawings or other documents, or the making of substantial changes in any other document already approved, or upon which substantial work had been done pursuant to instruction to proceed, then, and in such event, the Architect shall prepare the additional documents and make changes as required and shall be entitled to reasonable compensation therefor. The Commissioner shall determine the amount of such compensation and the manner of payment thereof. If the State should require any such substantial changes and if these should result in a change in the amount of the total construction budget for the project, said amount shall be considered changed to an amount determined by the Commissioner.

The above notwithstanding, should it be necessary for the Architect to prepare any such additional documents or make changes in the same for purposes of meeting the budget requirements of the project, and where an increase in the cost of labor and/or materials is not the governing factor, the Architect shall perform such duties without receiving additional compensation.

In addition, if at any time during the term of this contract the State should request the Architect to reduce the scope of services originally agreed upon for any project assigned under this contract, the Architect shall then reduce said scope of services, as requested, and the Architect's fee for such project shall be reduced by a fair and equitable amount determined by the Commissioner.

- N. It is mutually agreed and understood that all finished and unfinished documentation prepared pursuant to this contract shall become the exclusive property of the State, and that the State shall have the right to immediate possession and use thereof. The State agrees that all such documentation is not to be altered by others and is to be used only in conjunction with the project for which it was prepared unless written consent is obtained from the Architect. Such consent will not be withheld provided the State agrees that upon any alterations of the Architect's documents by others, or upon reuse of the documents for any other project, the Architect will be relieved by the State of any and all responsibility arising out of such alterations or reuse or in connection therewith. The provisions of this section shall survive the termination of this contract and shall thereafter remain in full force and effect.
- O. The Architect covenants and agrees to perform the services called for under this contract in accordance with the standards and practices of the Architect's profession.
- P. The Architect, at its expense, shall indemnify and hold harmless the State of Connecticut, its officers, agents, and employees from and against all claims, causes of action, legal proceedings, suits, losses, damages, and expenses initiated, suffered, or claimed to have been suffered by third parties not involved by contract in the project, but only to the extent that they arise out of, or result from, noncompliance with applicable statutes, codes and regulations, or the negligence, errors, or omissions of the Architect in the performance of this contract; provided, however, that the Architect shall not be liable by reason of indemnification for any loss caused by the fault or negligence of the DPW or others who are not the responsibility of the Architect.

Q. INSURANCE

The Architect for the duration of this contract, including any extension of the original contract term, must carry insurance to protect the interests of the State. The Architect must obtain statutory workers' compensation and employers' liability insurance, comprehensive automobile liability insurance, commercial general liability insurance, and professional services liability insurance to not less than the minimum limits as required in this section, all at no cost to the State.

1. Statutory Workers' Compensation and Employers' Liability:
 - a. Workers' Compensation: Statutory limits
 - b. Employers' Liability:
 - Bodily injury by accident: \$100,000 each accident
 - Bodily injury by illness: \$100,000 each employee
 - \$500,000 policy limit
2. Commercial General Liability:
 - Combined single limit: \$1,000,000 each occurrence
 - \$2,000,000 annual aggregate
3. Comprehensive Automobile Liability (to include owned, non-owned, and hired vehicles):
 - Combined single limit: \$1,000,000 each occurrence
 - \$1,000,000 annual aggregate
4. Professional Services Liability Insurance: The Architect shall furnish evidence by way of a certificate of insurance that it has obtained a professional services liability insurance policy with \$1,000,000.00 minimum coverage for negligence and errors and omissions. If any claims are paid against its professional services liability insurance policy, the Architect agrees to purchase additional insurance in order to maintain the minimum coverage of \$1,000,000.00. The insurance shall remain in effect during the entire duration of this

contract and for five years after substantial completion of the project. For policies written on a "Claims Made" basis, the Architect agrees to maintain a retroactive date prior to or equal to the effective date of the contract. The Architect shall contractually require any structural engineering firm it hires to maintain professional liability insurance in the same amount and with the same provisions indicated above. The Architect's policy shall provide that it shall indemnify and save harmless the State and its officers, agents and employees from claims, suits, actions, damages and costs of every name and description resulting from negligence and errors and omissions in the work performed by the Architect under the terms of this contract.

Each of the policies for such kinds of insurance mentioned above shall be issued by an insurance company or companies satisfactory to the DPW and shall contain a provision that coverages will not be changed, cancelled, or non-renewed until at least sixty (60) calendar days' prior written notice has been given to the DPW. Each insurance policy shall state that the insurance company agrees to investigate and defend the insured against all claims for damages to the extent that all alleged damages might be covered by insurance. Such insurance policies shall name the State as an additional insured, except the State shall not be named as an additional insured with respect to the coverage for the statutory workers' compensation, automobile liability, and employers' liability insurance and to the coverage for professional liability insurance. Certificates of insurance showing such coverages as required in this section shall be filed with the DPW prior to the time this contract is executed on behalf of the State.

R. SUSPENSION OF THE WORK

1. The State, at any time, may suspend all or any part of the services of the Architect. In such event, the Architect shall be given three (3) days' notice of such suspension in writing by registered or certified mail to the Architect's address as given for correspondence purposes. The mailing of such notice shall preclude any claim on the part of the Architect as to failure to receive notice of such suspension.
2. In the event of suspension by the State as noted above, the Architect shall be entitled to such compensation as the Commissioner shall deem reasonable.
3. Should the State reactivate any assigned work covered by this contract, in whole or in part, within one year from the time the work was suspended, any fees paid to the Architect pursuant to this contract shall be applied as payment on the fees for the work as set forth in this contract at the time of reactivation. Should reactivation occur after a period of suspension exceeding one (1) year, the Architect and the State may renegotiate the fees for the work based on current conditions or either may unilaterally elect to terminate the remaining work.
4. In the event the State decides to suspend any work under this contract, the State shall become entitled, after payment of outstanding fees, to all finished and unfinished documents prepared pursuant to this contract.
5. If the Architect should be unwilling or unable to perform the services required by this contract at the time the State desires to reactivate the work after a period of suspension, then all finished or unfinished documents prepared pursuant to this contract shall become the property of the State and the State shall have the right to immediate possession and use thereof.

S. TERMINATION OF CONTRACT

1. Notwithstanding any provisions or language in this contract to the contrary, the Commissioner may terminate the contract whenever he determines in his sole discretion that such termination is in the best interest of the State. Any such termination shall be effected by delivery to the Architect of a written notice of termination. The notice of termination shall be sent by registered or certified mail to the Architect's address as furnished to the State for purposes of correspondence, or by hand delivery. Upon receipt of such notice, the Architect shall both immediately discontinue all services affected (unless the notice directs otherwise) and deliver to the State all data, drawings, specifications, reports, estimates, summaries, and such other information and materials as may have been accumulated by the Architect in performing her/his/its duties under this contract, whether completed or in progress. All such documents, information, and materials shall become the property of the State.
2. If the termination is for the convenience of the State, the Architect shall be entitled to receive reasonable compensation for services already satisfactorily performed and accepted, but no amount shall be allowed for anticipated profit on unperformed services. The Commissioner shall determine the amount of such compensation.

3. If the termination is for reason of failure of the Architect to fulfill her/his/its contract obligations, the State may take over the work and prosecute the same to completion by contract or otherwise. In such event, the Architect shall be liable to the State for any additional costs occasioned to the State thereby.
 4. If after notice of termination for failure of the Architect to fulfill her/his/its contract obligations it is determined that the Architect had not so failed, the termination shall be deemed to have been effected for the convenience of the State. In such event, the Architect shall be entitled to reasonable compensation as provided in Paragraph 2 of this section.
 5. The rights and remedies of the parties provided in this section are in addition to any other rights and remedies provided by law or under this contract.
- T. If the Architect is a sole proprietor and the Architect should die during the term of this contract, this contract shall be considered terminated. In the event of such termination, the Architect's estate shall be entitled to a reasonable payment for any uncompensated work performed to the date of death, and the State shall have title to, and shall have the right to immediate use and possession of, all finished and unfinished documents prepared under this contract. The Commissioner shall determine the amount of such payment.

U. CONFIDENTIALITY OF DOCUMENTS

1. The Architect agrees on behalf of the Architect and the Architect's principals, employees, agents, heirs, successors and assigns that they shall only utilize drawings, specifications, maps, reports, records or other documents to the extent necessary for the performance of the Architect's work and duties under this contract. This limitation on use applies to those items produced by the Architect, as well as to those items received by the Architect from the Department of Public Works or others in connection with the Architect's work and duties under this contract.
2. The Architect further agrees that said drawings, specifications, maps, reports, records and other documents may not be released to any other entity or person except for the sole purpose of the work described in this contract. No other disclosure shall be permitted without the prior written consent of the Department of Public Works.
3. The Architect further agrees that the following provision will be included in its contracts with sub-consultants:

Any and all drawings, specifications, maps, reports, records or other documents associated with the contract work shall only be utilized to the extent necessary for the performance of the work and duties under this contract. Said drawings, specifications, maps, reports, records and other documents may not be released to any other entity or person except for the sole purpose of the work described in this contract. No other disclosure shall be permitted without the prior written consent of the Department of Public Works. When any such drawings, specifications, maps, reports, records or other documents are no longer needed, they shall be destroyed.

- V. This section is inserted in connection with subsection (a) of Section 4a-60 of the Connecticut General Statutes, as revised.

(a) For the purposes of this section, "minority business enterprise" means any small contractor or supplier of materials fifty-one percent or more of the capital stock, if any, or assets of which is owned by a person or persons: (1) who are active in the daily affairs of the enterprise, (2) who have the power to direct the management and policies of the enterprise, and (3) who are members of a minority, as such term is defined in subsection (a) of Conn. Gen. Stat. Section 32-9n; and "good faith" means that degree of diligence which a reasonable person would exercise in the performance of legal duties and obligations. "Good faith efforts" shall include, but not be limited to, those reasonable initial efforts necessary to comply with statutory or regulatory requirements and additional or substituted efforts when it is determined that such initial efforts will not be sufficient to comply with such requirements. For the purposes of this section, "Commission" means the Commission on Human Rights and Opportunities.

For the purposes of this section, "public works contract" means any agreement between any individual, firm, or corporation and the State or any political subdivision of the State other than a municipality for construction,

rehabilitation, conversion, extension, demolition or repair of a public building, highway or other changes or improvements in real property, or which is financed in whole or in part by the State, including, but not limited to, matching expenditures, grants, loans, insurance, or guarantees.

(b) (1) The contractor agrees and warrants that in the performance of the contract such contractor will not discriminate or permit discrimination against any person or group of persons on the grounds of race, color, religious creed, age, marital status, national origin, ancestry, sex, mental retardation, or physical disability, including, but not limited to, blindness, unless it is shown by such contractor that such disability prevents performance of the work involved, in any manner prohibited by the laws of the United States or of the State of Connecticut. The contractor further agrees to take affirmative action to insure that applicants with job related qualifications are employed and that employees are treated when employed without regard to their race, color, religious creed, age, marital status, national origin, ancestry, sex, mental retardation, or physical disability, including, but not limited to, blindness, unless it is shown by such contractor that such disability prevents performance of the work involved; (2) the contractor agrees, in all solicitations or advertisements for employees placed by or on behalf of the contractor, to state that it is an "affirmative action-equal opportunity employer" in accordance with regulations adopted by the Commission; (3) the contractor agrees to provide each labor union or representative of workers with which such contractor has a collective bargaining agreement or other contract or understanding and each vendor with which such contractor has a contract or understanding, a notice to be provided by the Commission advising the labor union or workers' representative of the contractor's commitments under this section, and to post copies of the notice in conspicuous places available to employees and applicants for employment; (4) the contractor agrees to comply with each provision of this section and Conn. Gen. Stat. Sections 46a-68e and 46a-68f and with each regulation or relevant order issued by said commission pursuant to Conn. Gen. Stat. Sections 46a-56, 46a-68e, and 46a-68f; (5) the contractor agrees to provide the Commission on Human Rights and Opportunities with such information requested by the Commission, and permit access to pertinent books, records, and accounts concerning the employment practices and procedures of the contractor as they relate to the provisions of this section and Conn. Gen. Stat. Section 46a-56. If the contract is a public works contract, the contractor agrees and warrants that he will make good faith efforts to employ minority business enterprises as subcontractors and suppliers of materials on such public works project.

(c) Determination of the contractor's good faith efforts shall include, but shall not be limited to, the following factors: The contractor's employment and subcontracting policies, patterns and practices; affirmative advertising, recruitment and training; technical assistance activities and such other reasonable activities or efforts as the Commission may prescribe that are designed to ensure the participation of minority business enterprises in public works projects.

(d) The contractor shall develop and maintain adequate documentation, in a manner prescribed by the Commission, of its good faith efforts.

(e) The contractor shall include the provisions of subsection (b) of this section in every subcontract or purchase order entered into in order to fulfill any obligation of a contract with the State and such provisions shall be binding on a subcontractor, vendor, or manufacturer unless exempted by regulations or orders of the Commission. The contractor shall take such action with respect to any such subcontract or purchase order as the Commission may direct as a means of enforcing such provisions including sanctions for noncompliance in accordance with Conn. Gen. Stat. Section 46a-56; provided, if such contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Commission, the contractor may request the State of Connecticut to enter into any such litigation or negotiation prior thereto to protect the interests of the State and the State may so enter.

(f) The contractor agrees to comply with the regulations referred to in this section as they exist on the date of this contract and as they may be adopted or amended from time to time during the term of this contract and any amendments thereto.

W. This section is inserted in connection with subsection (a) of Section 4a-60a of the Connecticut General Statutes, as revised.

(a) (1) The contractor agrees and warrants that in the performance of the contract such contractor will not discriminate or permit discrimination against any person or group of persons on the grounds of sexual orientation, in any manner prohibited by the laws of the United States or of the State of Connecticut, and that employees are treated when employed without regard to their sexual orientation; (2) the contractor agrees to provide each labor

union or representative of workers with which such contractor has a collective bargaining agreement or other contract or understanding and each vendor with which such contractor has a contract or understanding, a notice to be provided by the Commission on Human Rights and Opportunities advising the labor union or workers' representative of the contractor's commitments under this section, and to post copies of the notice in conspicuous places available to employees and applicants for employment; (3) the contractor agrees to comply with each provision of this section and with each regulation or relevant order issued by said Commission pursuant to Section 46a-56 of the Connecticut General Statutes; (4) the contractor agrees to provide the Commission on Human Rights and Opportunities with such information requested by the Commission, and permit access to pertinent books, records, and accounts concerning the employment practices and procedures of the contractor that relate to the provisions of this section and Section 46a-56 of the Connecticut General Statutes.

(b) The contractor shall include the provisions of subsection (a) of this section in every subcontract or purchase order entered into in order to fulfill any obligation of a contract with the State and such provisions shall be binding on a subcontractor, vendor, or manufacturer unless exempted by regulations or orders of the Commission. The contractor shall take such action with respect to any such subcontract or purchase order as the Commission may direct as a means of enforcing such provisions including sanctions for noncompliance in accordance with Section 46a-56 of the Connecticut General Statutes; provided, if such contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Commission, the contractor may request the State of Connecticut to enter into any such litigation or negotiation prior thereto to protect the interests of the State and the State may so enter.

(c) The contractor agrees to comply with the regulations referred to in this section as they exist on the date of this contract and as they may be adopted or amended from time to time during the term of this contract and any amendments thereto.

X. Executive Orders. The Contract is subject to the provisions of Executive Order No. Three of Governor Thomas J. Meskill, promulgated June 16, 1971, concerning labor employment practices, Executive Order No. Seventeen of Governor Thomas J. Meskill, promulgated February 15, 1973, concerning the listing of employment openings and Executive Order No. Sixteen of Governor John G. Rowland promulgated August 4, 1999, concerning violence in the workplace, all of which are incorporated into and are made a part of the Contract as if they had been fully set forth in it. At the Contractor's request, the Client Agency shall provide a copy of these orders to the Contractor. The Contract may also be subject to Executive Order No. 7C of Governor M. Jodi Rell, promulgated July 13, 2006, concerning contracting reforms and Executive Order No. 14 of Governor M. Jodi Rell, promulgated April 17, 2006, concerning procurement of cleaning products and services, in accordance with their respective terms and conditions.

1. The contractor agrees to abide by such Executive Orders.
2. The State Contracting Standards Board may review this contract and recommend termination of the contract for a violation of the State Ethics Code (Chapter 10 of the general statutes) or section 4a-100 of the general statutes, or wanton or reckless disregard of any state contracting and procurement process by any person substantially involved in such contract or state contracting agency.
3. This contract may be cancelled, terminated or suspended by DPW or the State Labor Commissioner for violation of or noncompliance with Executive Orders No. Three or Seventeen or any State or federal law concerning nondiscrimination, notwithstanding that the State Labor Commissioner is not party to this contract. The State Labor Commissioner shall have continuing jurisdiction regarding contract performance concerning nondiscrimination and listing all employment openings with the Connecticut State Employment Service until the contract is completed or until the contract is terminated prior to completion.
4. The contractor agrees, as part consideration hereof, that this contract is subject to the Guidelines and Rules issued by the State Labor Commissioner to implement Executive Order No. Three, and that the contractor will not discriminate in its employment practices or policies, will file all reports as required, and will fully cooperate with the State of Connecticut and the State Labor Commissioner.
5. This contract may be cancelled, terminated, or suspended by DPW or the State for violation of or noncompliance with Executive Order Sixteen. In addition, the contractor agrees to include a copy of Executive Order Sixteen, and the requirement to comply with said order, in all contracts with its contractors, subcontractors, consultants, subconsultants and vendors.

- Y. This contract is subject to the provisions of the Department of Public Works Sexual Harassment Policy ("Policy") and, as such, the contract may be cancelled, terminated, or suspended by the State in the event that the contractor, its employees, contractors, subcontractors, consultants, subconsultants, or vendors engage in behavior prohibited by the provisions of the Policy (a copy of the Policy is attached to this contract as Exhibit A). The contractor agrees to include a copy of the Policy, and the requirement to prevent behavior as defined in such Policy, in all contracts with its contractors, subcontractors, consultants, subconsultants, and vendors.
- Z. The Summary of State Ethics Laws posted on the DPW home page (<http://www.ct.gov/dpw/site/default.asp>), and as may be revised from time to time, is incorporated herein by reference as if fully set forth herein. This Summary may be found by clicking on "Affidavits."

AA. LARGE STATE GOVERNMENT CONTRACTS

If the Architect is a large state contractor, the Architect shall comply with the provisions of Section 4-61dd of the Connecticut General Statutes, as may be revised.

1. "Large state contract" and "Large state contractor" shall have the same meanings as set forth in Section 4-61dd(g) of the Connecticut General Statutes, as may be revised.
2. Each contract between a state or quasi-public agency and a large state contractor shall provide that, if an officer, employee, or appointing authority of a large state contractor takes or threatens to take any personnel action against any employee of the contractor in retaliation for such employee's disclosure of information to the Auditors of Public Accounts or the Attorney General under the provisions of subsection (a) of Section 4-61dd of the Connecticut General Statutes, the contractor shall be liable for a civil penalty of not more than five thousand dollars for each offense, up to a maximum of twenty per cent of the value of the contract. Each violation shall be a separate and distinct offense and in the case of a continuing violation each calendar day's continuance of the violation shall be deemed to be a separate and distinct offense. The executive head of the state or quasi-public agency may request the Attorney General to bring a civil action in the Superior Court for the judicial district of Hartford to seek imposition and recovery of such civil penalty.
3. Each large state contractor shall post a notice of the provisions of Section 4-61dd relating to large state contractors in a conspicuous place that is readily available for viewing by the employees of the contractor.

BB. ANNUAL CERTIFICATION

If the aggregate value of this contract is \$50,000.00 or more, including all amendments and/or commission letters, then the Architect shall annually submit, on or within two (2) weeks of the anniversary date of the execution of this contract, a completed annual contract certification to Room 437, 165 Capitol Avenue, Hartford, CT 06106, to the attention of the Contracts Secretary. For the purposes of this section, the execution date of the contract shall be the date the Commissioner of DPW signs the contract.

CC. CONNECTICUT LAW

It is agreed that this contract shall be governed by, construed, and enforced in accordance with the laws of the State of Connecticut.

DD. APPROVAL OF THE STATE PROPERTIES REVIEW BOARD

As provided in Connecticut General Statutes Section 4b-23(i), it is essential for the Architect contracting with the Department of Public Works to understand that the approval of the State Properties Review Board must be granted before the Architect's task can begin. By providing service without a properly executed task letter under this contract, the Architect accepts the risk that payment will not be made by the State of Connecticut.

EE. CAMPAIGN CONTRIBUTION RESTRICTION PROVISION

For all State contracts as defined in P.A. 07-1 having a value in a calendar year of \$50,000 or more or a combination or series of such agreements or contracts having a value of \$100,000 or more, the authorized signatory to this Agreement expressly acknowledges receipt of the State Elections Enforcement Commission's notice advising state contractors of state campaign contribution and solicitation prohibitions, and will inform its principals of the contents of the notice. See Attachment {SEEC Form 11}.

FF. APPROVAL OF THE ATTORNEY GENERAL'S OFFICE

This contract shall become effective when it is approved as to form by the Attorney General of the State of Connecticut, the Deputy Attorney General of the State of Connecticut, an Associate Attorney General of the State of Connecticut, or an Assistant Attorney General of the State of Connecticut.

IN WITNESS WHEREOF, the State, acting herein by its Commissioner of the DPW, and the Architect have executed this contract.
