**2.2.3. Describe how the Lead Agency provides consumer education to parents applying for CCDF assistance to promote informed choices about the quality of care provided by various providers in their communities.**

Lead Agencies must certify that the State/Territory will collect and disseminate to parents of eligible children and the general public, consumer education information that will promote informed child care choices (658E (c)(2)(G), §98.33).

For example, memorandums of understanding with resource and referral agencies to provide consumer education to families applying for CCDF assistance, providing parents with provider lists showing licensing history and/or Quality Rating and Improvement System (QRIS) ratings, or informational brochures that address importance of quality and different care options available.

The Lead Agency contracts with United Way of Connecticut, which is also the statewide resource and referral agency, to inform and counsel parents about choosing child care and provide community forums to parents and providers; development and distribution of educational brochures, videos, public service announcements; collaboration with other agencies identified in Section 2.1 and organizations that have similar target populations; coordination with statewide and local media; distribution of child care informational packets at the Lead Agency regional offices and the Connecticut Department of Labor, which is coordinating the state's welfare to work project. 211-Child Care maintains a statewide data base, which contains information on, fees, capacity, hours of operations, etc. of child care centers, group home child care and family day care home providers.

**2.2.4. Describe how the Lead Agency will support child care programs to increase the likelihood that CCDF-served children receive higher quality care as defined in your State/Territory.**

For example, methods used to promote upward movement in quality rating and improvement system, methods used to encourage high quality programs to participate in the subsidy program such as tiered reimbursement, or incentives used to support high quality programs in rural, suburban, urban, and low-income communities.

Support for high quality programs is through the following means:

a. comprehensive consumer education:

Includes a variety of strategies such as: funding the United Way of Connecticut 211-Child Care project which is the statewide resource and referral agency to counsel parents about choosing child care and provide community forums to parents and providers; development and distribution of educational brochures, videos, public service announcements; collaboration with other agencies identified in Section 2.1 and organizations that have similar target populations; coordination with statewide and local media; distribution of child care informational packets at the Lead Agency regional offices and the Connecticut Department of Labor, which is coordinating the state's welfare-to-work project. Annual reports are submitted that document activities negotiated to assess of service is utilized. Annual monitoring is also completed.

b. monitoring of compliance with licensing and regulatory requirements:

Child care licensing and enforcement personnel are supported by the state Department of Public Health (DPH) to conduct inspections to insure basic health and safety standards are met. Staff are supervised by state managers.

c. professional development, training and technical assistance:

The Lead Agency supports a variety of activities such as: the Connecticut Community-Technical Colleges Systems' Connecticut Charts a Course project, a comprehensive early caregiver career development system which includes a scholarship program for income eligible providers; a program targeted to kith and kin providers; a statewide Accreditation Facilitation Project supporting programs through consultation and support to achieve NAEYC accreditation; the Provider Registry System collecting data and demographics, education and qualifications of early care and education providers; technical assistance to child care advocacy and member organizations. Annual reports are collected to measure compliance with negotiated activities and annual monitoring is completed. A Director's credential program provides skills training in Child Care Development, Personnel, Family and Community Involvement, Leadership on Programs for Young children, and Finance. Career Ladders of Teaching Staff in publicly funded centers to track and support accomplishment of CDA and 12 ECE credits.

Technical Assistance for after-school programs may be supported by federal technical assistance contracts to hire a national after school technical assistance staff person to support states needs relating to school age child development activities and settings. National Standards and Quality Improvement standards for school Age children are used in Connecticut. After School advisors from Charter Oak College support school - age providers. Credentials and courses available through on-line forums.

d. inclusive child care:

Curriculum was developed and integrated into of the Connecticut Charts a Course professional development system and is offered via the Training Program in Child Development. The CT certificate/voucher program provides special reimbursements for children with special needs.

e. Maternal and Child Health activities:

The Lead Agency has participated in the federal Maternal and Child Health's Early Childhood Comprehensive Systems Plan in partnership with the CT Department of Public Health.

f. other quality activities that increase parental choice, and improve the quality and availability of child care:

The Lead Agency contracts with the United Way of Connecticut 211-Child Care project to conduct a recruitment program to expand the number of licensed family child care providers. The Lead Agency is a partner with the State Department of Education to implement the state's School Readiness initiative that expands opportunities for three and four year olds in selected communities throughout Connecticut. The school readiness project also assists child care providers to enhance program services such as nutrition, health care, parent education, literacy, etc. The Lead Agency is piloting a program to analyze and address the issues of providing child care services to children between six weeks and 12 years of age, who reside in shelters for the homeless. Some sheltered children may have additional mental health needs resulting from being

homeless and family situations, including family violence that they may have witnessed. The establishment of a mental health support system for both the child/family and child care staff is an integral part of the design discussion. The intent of the pilot program and its associated research is to demonstrate best practices for providing care to sheltered children. Program components will permit sufficient flexibility in funding and programmatic requirements to allow for attendance fluctuations, transportation needs and substitution of housing search and other shelter-related activities that assist families in establishing themselves in the community, for job search and work requirements. All activities if funded require annual activity reports based on negotiations to certain tasks/activities.

The first day of the processing period shall begin on the day following the date the application form was received. The parent shall be notified of the eligibility decision in accordance with the requirements of section 17b-749-07 of the Regulations of Connecticut State Agencies. The provider shall also be notified if a completed child care agreement form was submitted with the application.
2. Eligibility shall be determined when sufficient information exists to determine if the family is eligible or ineligible. If the application is incomplete, the CCAP administrator shall issue a notice to the parent requesting the information that is missing. The parent shall be given a minimum of fifteen days from the date the notice is issued to return the information to the CCAP administrator. The first day of the fifteen-day period begins on the day the notice was issued.

If the parent has not selected a provider by the time eligibility is determined, the CCAP administrator shall determine if the family is eligible for the program without regard to eligibility for payments. The parent shall be notified of the decision and informed that eligibility will be terminated if a provider is not selected and the information needed to enroll the provider is not submitted within thirty days. The CCAP administrator shall determine if a child is eligible for payment within ten days of the date the provider information is submitted. The family shall become ineligible if the information needed to determine payment eligibility for at least one child is not submitted within thirty days of the date assistance was granted.
4. Incomplete applications shall be denied only if the parent has been given at least fifteen days to comply with an initial request for missing information.

  2. if the parent or provider was not given at least fifteen days to respond to an initial request for information;
  3. if the parent responds timely to a request for missing information and the information submitted is either incomplete or requires additional verification before the application can be processed; or
  4. if the CCAP administrator has assumed responsibility for obtaining missing information and has not been able to obtain the information.
7. The application shall continue to be processed if a good cause extension is granted or while the CCAP administrator is waiting to obtain additional verification. The extension shall continue for as long as necessary provided that the parent continues to cooperate and responds to written requests for verification in a timely manner. ## **2.5. Prioritizing Services for Eligible Children and Families**

At a minimum, CCDF requires Lead Agencies to give priority for child care assistance to children with special needs, or in families with very low incomes. Prioritization of CCDF assistance services is not limited to eligibility determination (i.e., establishment of a waiting list or ranking of eligible families in priority order to be served). Lead Agencies may fulfill priority requirements in other ways such as higher payment rates for providers caring for children with special needs or waiving co-payments for families with very low incomes (at or below the federal poverty level). (658E(c)(3)(B), §98.44)

**2.5.1. How will the Lead Agency prioritize child care services to children with special needs or in families with very low incomes?** (658E(c)(3)(B), §98.44) Lead Agencies have the discretion to define *children with special needs* and *children in families with very low incomes*. Lead Agencies are not limited in defining *children with special needs* to only those children with physical or mental disabilities (e.g., with a formal Individual Education Plan (IEP) required under the Individuals with Disabilities Education Act (IDEA)). Lead Agencies could consider children in the child welfare system, children of teen parents, or homeless children as examples of *children with special needs*.

Children with special needs

**Provide the Lead Agency definition of *Children with Special Needs*:**

***Special Needs child*** - *A child with special need means a child under the age of nineteen who meets the requirements of subsection (b) of section 17b-749-11 of the Regulations of Connecticut State Agencies -*

*- A child shall be considered to have special needs if the child independence, self-sufficiency and safety is dependent on others and the child requires extra supervision, care, or assistance in the child care setting due to the following physical, mental, behavioral or emotional conditions, including but not limited to:*

- (a) a physical handicap or health impairment that causes chronic or acute health problems, such as a heart condition, orthopedic impairment, tuberculosis, asthma, epilepsy, cerebral palsy, leukemia or congenital abnormality that has been diagnosed by a*

physician;

- (b) mental retardation or autism spectrum disorder as diagnosed by a physician, pediatrician or psychologist;
- (c) a behavioral or emotional disturbance, maladjustment or developmental delay that causes the child to exhibit marked and inappropriate behaviors or characteristics over extended periods that has been diagnosed by a psychologist, psychiatrist or other clinically trained and state-certified mental health professional acting within his or her scope of practice;
- (d) a speech, language, vision or hearing impairment that has been diagnosed by a physician or state certified health care professional acting within his or her scope of practice; or
- (e) multiple handicaps that cause problems or interfere with the child's ability to function in the child care setting without extra care or supervision.

## **Sec. 17b-749-08. Prioritization for Child Care Funding**

Each family shall be assigned to an applicable priority group. Within available funding, the department shall accept applications and authorize payments based on the following order of priorities:

1. parents receiving TFA cash assistance who are employed or participating in an approved employment services activity and working parents who are completing an approved employment services activity that started before the family's TFA cash assistance was discontinued pursuant to subdivision (e)(3) of section 17b-749-04 of the Regulations of Connecticut State Agencies;
2. working parents whose cash assistance benefits were discontinued within six calendar months prior to the date of application for CCAP;
3. parents under the age of twenty not receiving cash assistance who attend high school;
4. working parents with gross countable family income below fifty percent of the state median income;
5. working parents with gross countable family income between fifty and seventy-five percent of the state median income who request assistance for a child who was adopted from the Department of Children and Families; and
6. all other working parents with gross countable family income between fifty and seventy-five percent of the state median income.
  - a) A family's priority status shall not be affected if the parent is removed from cash assistance due to the application of a TFA program sanction.
  - b) The commissioner may establish additional priority groups from time to time based on exceptional public need that results from unforeseen circumstances. When establishing additional priority groups, the commissioner shall designate a target expenditure level for each additional priority group created if such level is not otherwise specified by legislative action. Additional priority groups may be added or deleted based on available funding.
  - c) The CCAP administrator shall maintain a list of any additional priority groups established. The list shall include the expenditure level specifically allocated to each additional priority group. A copy of the listing of additional priority groups shall be made available to the public upon written request.

## **2.6. Parental Choice In Relation to Certificates, Grants or Contracts**

---

The parent(s) of each eligible child who receives or is offered financial assistance for child care services has the option of either enrolling such child with a provider that has a grant or contract for the provision of service or receiving a child care certificate. (658E(c)(2)(A), §98.15(a))

### 2.6.1. Child Care Certificates

a) When is the child care certificate (also referred to as voucher or authorization) issued to parents? (658E(c)(2)(A)(iii), 658P(2), §98.2, §98.30(c)(4) & (e)(1) & (2))

- Before parent has selected a provider
- After parent has selected a provider
- Other. Describe:

b) How does the Lead Agency inform parents that the child care certificate permits them to choose from a variety of child care categories, including child care centers, child care group homes, family child care homes, and in-home providers? (§98.30(e)(2))

- Certificate form provides information about choice of providers
- Certificate is not linked to a specific provider so parents can choose provider of choice
- Consumer education materials (flyers, forms, brochures)
- Referral to child care resource and referral agencies
- Verbal communication at the time of application
- Public Services Announcement
- Agency Website: [www.ctcare4kids.com](http://www.ctcare4kids.com) [www.ct.gov/dss](http://www.ct.gov/dss)

### 2.6.2. Child Care Services Available through Grants or Contracts

a) In addition to offering certificates, does the Lead Agency provide child care services through grants or contracts for child care slots? (658A(b)(1), 658P(4), §§98.16(g)(1), 98.30(a)(1) & (b)). **Note:** Do not check "yes" if every provider is simply required to sign an agreement in order to be paid in the certificate program.

- Yes.

If yes, **describe** the type(s) of child care services available through grants or contracts, the process for

accessing grants or contracts, and the range of providers that will be available through grants or contracts:

No.

b) Will the Lead Agency use grants or contracts for child care services to achieve any of the following? Check the strategies, if any, that your State/Territory chooses to implement.

- Increase the supply of specific types of care
- Programs to serve children with special needs
- Wrap-around or integrated child care in Head Start, Early Head Start, pre-k, summer or other programs
- Programs to serve infant/toddler

Not Applicable.

d) How are payment rates for child care services provided through grants/contracts determined?

Not Applicable.

Payment rates are in accordance with state regulations, policies and standards based on child care se CCDF Funding is not used for payment for contracts/slots but quality enhancement services support state funded child care centers.

DRAFT

e) What is the estimated proportion of direct services that will be available for child care services through grants/contracts?

Zero.

**2.6.3. How will the Lead Agency inform parents and providers of policies and procedures for affording parents unlimited access to their children whenever their children are in the care of a provider who receives CCDF funds? (658E(c)(2)(B), §98.31))** Check the strategies that will be implemented by your State/Territory.

- Signed declaration
- Parent Application
- Parent Orientation
- Provider Agreement
- Provider Orientation

Other.  
Describe:

Connecticut state laws guarantee unlimited access for parents at all licensed child care settings, including those parents eligible for CCDF financial assistance. Child care settings that are exempt from licensing requirements are also informed that they must allow parents unlimited access to their children.

**2.6.4. The Lead Agency must allow for in-home care (i.e., care provided in the child's own home) but may limit its use. (§§98.16(g)(2), 98.30(e)(1)(iv))** Will the Lead Agency limit the use of in-home care in any way?

- No
- Yes. If checked, what limits will the Lead Agency set on the use of in-home care?

Check all limits the Lead Agency will establish.

- Restricted based on minimum number of children in the care of the provider to meet minimum wage law or Fair Labor Standards Act
- Restricted based on provider meeting a minimum age requirement
- Restricted based on hours of care (certain number of hours, non-traditional work hours)
- Restricted to care by relatives
- Restricted to care for children with special needs or medical condition
- Restricted to in-home providers that meet some basic health and safety requirements
-

Other.  
Describe:

Restricted to providers over age 18.  
Restricted to maximum number of children in care.  
Restricted to providers that pass criminal and abuse/neglect background checks.

**2.6.5. Describe how the Lead Agency maintains a record of substantiated parental complaints about providers and makes substantiated parental complaints available to the public on request. (658E(c)(2)(C), §98.32)**

The Lead Agency's Office of Legal Counsel, Regulations and Administrative Hearings handles parental complaints concerning due process in the Child Care Assistance Program. The Lead Agency's contractor for the voucher/certificate program has designed a grievance/mediation process for parents and child care providers as a first step before a formal administrative hearing by the Lead Agency.

Complaints concerning other components of the CCDF program are filed directly with the Lead Agency. The Lead Agency requires all contracted program components to maintain a file of complaints and report as necessary.

Complaints concerning licensed child care providers are reported to either the state Department of Public Health (licensing issues such as staff ratios or illegal operation) or the state Department of Children and Families (abuse and neglect issues). Parents and providers are advised to contact those agencies for appropriate information.

**2.7. Payment Rates for Child Care Services**

The statute at 658E(c)(4) and the regulations at §98.43(b)(1) require the Lead Agency to establish adequate payment rates for child care services that ensure eligible children equal access to comparable care.

**2.7.1 Attach a copy of your payment rates as Attachment 2.7.1.** Will the attached payment rates be used in all parts of the State/Territory?

The attached payment rates were or will be effective as of: **January 1, 2002**

Yes. Effective Date: \_\_\_\_\_

No. If no, attach other payment rates and their effective date(s) as **Attachment 2.7.1a, 2.7.1b, etc.**

**2.7.2. Which strategies, if any, will the Lead Agency use to ensure the timeliness of payments?**

- Policy on length of time for making payments. Describe length of time:

Payment must be issued within 15 days of the date the child care provider submits the completed invoice. The timeliness standard is codified in regulation and is one of the critical contract performance measures for the operations vendor.

- Track and monitor the payment process

- Other. Describe:

The Lead Agency uses management reports to monitor compliance. The reports measure volume, production and processing time. The average processing time for payments is between seven and eight days.

- None

~~**b) Attach a copy of the MRS instrument and a summary of the results of the survey as Attachment 2.7.4. For Lead Agencies that use an administrative provider database, provide a copy of the intake form as the instrument. The summary should include a description of the sample population, data source, the type of methodology used, response rate, description of analyses, and key findings.**~~

~~**2.7.5. Will the Lead Agency use the local Market Rate Survey identified in 2.7.4a (i.e., the most recent MRS) to set its payment rates?**~~

Yes

No. If no, list the MRS year that the payment rate ceiling is based upon: ~~2001~~

### 2.7.3. Market Rate Survey

Lead Agencies must complete a local Market Rate Survey (MRS) no earlier than two years prior to the effective date of the Plan (no earlier than October 1, 2011). The MRS must be completed prior to the submission of the CCDF Plan (see Program Instruction CCDF-ACF-PI-2009-02 <http://www.acf.hhs.gov/programs/occ/resource/pi-2009-02> for more information on the MRS deadline).

a) Provide the month and year when the local Market Rate Survey(s) was completed (§98.43(b)(2)): \_\_\_\_\_ . 04/2013

b) Provide a **summary of the results** of the survey. \_\_\_\_\_ The summary should include a description of the sample population, data source, the type of methodology used, response rate, description of analyses, and key findings.

DRAFT

**2.7.4. Describe the payment rate ceilings in relation to the current MRS using the tables below.**

Because of the flexibility that Lead Agencies have in setting payment rate ceilings, the following tables have been developed to simplify Lead Agency reporting on how their payment rate ceilings compare to their most recent MRS. These tables are not meant to collect comprehensive payment rate ceilings within a State/Territory and ACF recognizes that Lead Agencies are not required to set their payment rate ceilings at the 75<sup>th</sup> percentile. These tables allow Lead Agencies to use a common metric – the 75<sup>th</sup> percentile – as a reference point against which the Lead Agency can report their percentiles for three selected age groups in two geographic areas for licensed child care centers and licensed family child care homes.

In table 2.7.4a and 2.7.4b, *highest rate area* refers to the State or Territory’s area or geographic region with the highest maximum payment rate ceiling for child care centers (2.7.4a) and family child care homes (2.7.4b). Identify the highest rate area in the box provided. In column (a), provide the full-time monthly rate at the 75<sup>th</sup> percentile from the most recent MRS, even if the most recent MRS is not used to set rates. In column (b), provide the maximum monthly payment rate ceiling from your CCDF payment rate table. Complete column (c) ONLY IF the percentile for the monthly maximum payment rate ceiling is lower than the 75<sup>th</sup> percentile of the most recent MRS.

**Note** - Report the “base” maximum reimbursement rate ceiling, not including any rate add-ons or tiered reimbursements. For example, if maximum reimbursement rate ceilings are tiered based on level of quality (e.g., accreditation, or rating within a quality rating system such as gold, silver and bronze), report the rates for the lowest level in the tables below (e.g., bronze), **only** if there is no lower “base” rate paid for child care services by providers **not** participating in the quality rating system.

If your State/Territory has hourly, daily and/or weekly maximum payment rate ceiling, Lead Agencies can use the following assumptions to calculate monthly maximum payment rate ceiling for column (b) – 9 hours a day, 5 days per week, 4.33 weeks per month.

OCC recognizes that States and Territories use a wide variety of age ranges and categories in setting payment rate ceilings. In these charts, report rates for the following ages only – 11 months, 59 months, and 84 months of age – regardless of what that age category may be called in your State/Territory.

<b>2.7.4a – Highest Rate Area (Centers)</b>	<b>(a) Monthly Payment Rate at the 75<sup>th</sup> percentile from the most recent MRS</b>	<b>(b) Monthly Maximum Payment Rate Ceiling</b>	<b>(c) Percentile if lower than 75<sup>th</sup> percentile of most recent survey</b>

Full-Time Licensed Center Infants (11 months)			
Full-Time Licensed Center Preschool (59 months)

In table 2.7.4c and 2.7.4d, *lowest rate area* refers to the State or Territory’s area or geographic region with the lowest maximum payment rate ceiling for child care centers and family child care homes. Identify the lowest rate area in the box provided. In column (a), provide the full-time monthly rate at the 75<sup>th</sup> percentile from the most recent MRS, even if the most recent MRS is not used to set rates. In column (b), provide the maximum monthly payment rate ceiling from your CCDF payment rate table. Complete column (c) ONLY IF the percentile for the monthly maximum payment rate ceiling is lower than the 75<sup>th</sup> percentile of the most recent MRS.

**Note** - Report the “base” maximum reimbursement rate ceilings, not including any rate additions or tiered reimbursement. For example, if maximum reimbursement rate ceilings are tiered based on level of quality (e.g., accreditation, or rating within a quality rating system such as gold, silver and bronze), report the rates for the lowest level in the tables below (e.g., bronze),

**only** if there is no lower “base” rate paid for child care services by providers **not** participating in the quality rating system.

If your State/Territory has hourly, daily and/or weekly maximum payment rate ceiling, **Lead Agencies** can use the following assumptions to calculate monthly maximum payment rate ceiling for column (b) – 9 hours a day, 5 days per week, 4.33 weeks per month.

OCC recognizes that States and Territories use a wide variety of age ranges and categories in setting payment rate ceilings. In the description of any tiered rates or add-ons, indicate the process and basis used for determining the tiered rates and amount and also indicate if the rates were set based on the MRS or another process.

**Reminder** - CCDF regulations require the Lead Agency to certify that the payment rates for the provision of child care services are sufficient to ensure equal access for eligible families to child care services comparable to those provided to families not eligible to receive CCDF assistance. In the next three questions, Lead Agencies are asked to describe how their payment policies reflect the affordable copayments for families' provision of equal access (i.e., minimizing additional fees to parents), how payment practices are implemented consistent with the general child care market to be fair to providers (see Information Memorandum on Continuity of Care for examples <http://www.acf.hhs.gov/programs/occ/resource/im2011-06> ), and the summary of facts describing how payment rates are adequate to ensure equal access to the full range of providers.

**2.7.7. What policies does the Lead Agency have regarding any additional fees that providers may charge CCDF parents? The Lead Agency...**

**2.7.8 What specific policies and practices does the Lead Agency have regarding the following:**

- a) Number of absent days allowed. Describe \_\_\_\_\_
- b) Paying based on enrollment. Describe \_\_\_\_\_
- c) Paying on the same schedule that providers charge private pay families (e.g., hourly, weekly,

monthly) \_\_\_\_\_

d) Using electronic tools (automated billing, direct deposit, EBT cards, etc.) to make provider payments. Describe \_\_\_\_\_

**2.7.9. Describe how payment rates are adequate to ensure equal access to the full range of providers based on the Market Rate Survey.**

CCDF regulations require the Lead Agency to certify that the payment rates for the provision of child care services are sufficient to ensure equal access for eligible families to child care services comparable to those provided to families not eligible to receive CCDF assistance. To demonstrate equal access, the Lead Agency shall provide at a minimum a summary of facts describing: (§98.43(a))

a) How a choice of the full range of providers, e.g., child care centers, family child care homes, group child care homes and in-home care, is made available (§98.43(a)(1)) \_\_\_\_\_

The Lead Agency does not restrict parental choice. Parents may choose any licensed or unlicensed child care provider that is operating legally in Connecticut or is licensed and in good standing in an adjacent state. Providers must meet health and safety standards established. The Lead Agency also contracts with 2-1-1 Child Care to provide resource and referral services to parents. 2-1-1 Child Care assists parents with locating quality and affordable care that meets the specific need of the child and family.

b) How payment rates are adequate based on the most recent local MRS (§98.43(a)(2)) \_\_\_\_\_

The Lead Agency determines if payment rates are adequate by evaluating the proportion of children enrolled that are enrolled in licensed child care programs. From 2009 to 2011, the number of licensed child care enrollments increased from 64% to 70% of the total caseload. Attachment 2.7.4 contains a detailed explanation of the analysis.

c) How family co-payments based on a sliding fee scale are affordable (§98.43(a)(3)) \_\_\_\_\_

The co-payment is a monthly, per family fee that ranges from 2% to 10% of the countable income. The fee scale is designed to ensure that families in the lower income brackets only pay a nominal fee. Unemployed families in education and training activities do not have a co-payment. In addition, TANF benefits and child support paid or received are excluded from the income calculation. The average fee for an employed TANF recipient is less than \$12 per week. Post TANF recipients and families with income below 50% of the state median income average approximately \$26 per week. The co-payment for families with income between 50% and 75% of the state median income average \$92 per week.

d) Any additional facts the Lead Agency considered to determine that its payment rates ensure equal access, including how the quality of child care providers is taken into account when setting rates and whether any other methodologies (e.g., cost estimation models) are used in setting payment rates \_\_\_\_\_

Utilization by setting.

**2.8 Goals for the next Biennium** – In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium and are encouraged to identify no more than five priority goals total. ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). Lead Agencies will report progress and updates on these goals in the annual Quality Performance Report (Appendix 1), including any barriers encountered.

What are the Lead Agency’s goals for the administration of the CCDF subsidy program in the coming Biennium? For example, what progress does the State/Territory expect to make on continuing improved services to parents and providers, continuity of care for children, improving outreach to parents and providers, building or expanding information technology systems, or revising rate setting policies or practices).

**Note** – When identifying your goals below, Lead Agencies are encouraged to begin with an action verb reflecting the desired result over the two year period (e.g., Increase, Improve, Build, Align, Implement, Review, Revise, Streamline, Expand, etc.)

Goal 1 - Implement direct deposit for child care providers.
Goal 2 - Streamline application process.
Goal 3 - Review current payment rates and implications for parents and providers.
Goal 4 -
Goal 5

**PART 3**  
**Health and Safety and Quality Improvement**  
**Activities**

**3.1. Activities to Ensure the Health and Safety of Children in Child Care**  
**(Component #1)**

In this section, Lead Agencies are asked to describe their goals and plans for implementation of child care quality improvement activities. Under the Child Care and Development Block Grant Act, Lead Agencies have significant responsibility for ensuring the health and safety of children in child care through the State/Territory's child care licensing system and establishing health and safety standards for children who receive CCDF funds. Health and safety is the foundation of quality, but is not adequate to ensure that programs and staff are competent in supporting all areas of child development and promoting school success.

Quality investments and support systems to promote continuous quality improvement of both programs and the staff who work in them are a core element of CCDF. Lead Agencies have been reporting on their efforts to support program quality improvement and professional development since their initial Plans in 1999. This section allows Lead Agencies to continue to describe the steps that they are taking toward continuous quality improvement with a goal of having high quality child care options across settings for all families. While one of the key goals for CCDF is helping more low-income children access higher quality care, the Lead Agency has the flexibility to consider its goals and strategic plans for a child care quality improvement system for all families, not just those receiving assistance under CCDF.

*2012-2013 Language*

*This section is intended to collect information on how Lead Agencies meet the statutory and regulatory provisions related to licensing and health and safety requirements. The CCDBG statute and the CCDF regulations address health and safety primarily in two ways.*

*First, Lead Agencies shall certify that they have in effect licensing requirements applicable to child care services provided within the area served by the Lead Agency (§98.40(a)(1)). These licensing requirements need not be applied to specific types of providers of child care services (658(E)(c)(2)(E)(i). Lead Agencies must describe those licensing requirements and how they are effectively enforced. Second, Each Lead Agency shall certify that there are in effect, within the State or local law, requirements designed to protect the health and safety of children that are applicable to child care providers of services for which assistance is provided under CCDF.*

*The relationship between licensing requirements and health and safety requirements varies by State/Territory depending on how comprehensive the licensing system is. In some States and Territories, licensing may apply to the majority of CCDF eligible providers and the licensing standards cover the three CCDF health and safety requirements so the State/Territory has few, if any, providers for whom they need to establish additional CCDF health and safety requirements. In other cases, States and Territories have elected to exempt large numbers of providers from licensing which means that those exempted providers who care for children receiving assistance from CCDF will have to meet to the CCDF health and safety requirements through an alternative process outside of licensing. The State/Territory may also elect to impose more stringent standards and licensing or regulatory requirements on child care providers of services for which assistance is provided under the CCDF than the standards or requirements imposed on other child care providers. (§98.40(b)(1)) Section 3.1 asks the State/Territory to identify and describe the components of both the licensing and CCDF health and safety requirements, indicate which providers are subject to the requirements, and describe compliance and enforcement activities. (658E(c)(2)(F), §98.41)*

Part 3 is organized around a template of four key components of quality which encompass most of the quality investments and initiatives undertaken by Lead Agencies over the past decade:

1. Ensuring health and safety of children through **licensing and health and safety standards**
2. Establishing **early learning guidelines**
3. Creating pathways to excellence for child care programs through **program quality improvement activities**
4. Creating pathways to an effective, well-supported child care workforce through **professional development systems and workforce initiatives.**

For each component, Lead Agencies are asked to conduct a three-step process. First, in this section, Lead Agencies will conduct a self-assessment of their programs by responding to the questions in Part 3 that describe the current status of their efforts, using common practices and best practices to list characteristics that build off those that have been reported in previous plans. Second, Lead Agencies then are asked to identify goals for making progress during the FY 2014-2015 biennium and describe their data, performance measure and evaluation capacity for each component. Third, Lead Agencies will report progress on their goals using the Quality Performance Report which is included and described in Appendix 1. The QPR will not be submitted until December 31, 2014.

Based on information reported in past plans, it is expected that the Lead Agency will describe in these first two steps how they will continue to make systematic investments towards child care quality improvement across its early childhood and school-age spectrum – including all settings, geographic coverage and age range – that will help show progress toward these outcomes and goals. Ultimately, these child care quality improvement elements should be fully implemented and integrated. Each State/Territory is expected to fall on a continuum of progress as a result of these first two steps. Lead Agency's individual progress will be reported using the Quality Performance Report.

### **3.1. Activities to Ensure the Health and Safety of Children in Child Care (Component #1)**

This section is intended to collect information on how Lead Agencies meet the statutory and regulatory provisions related to licensing and health and safety requirements. The CCDBG statute and the CCDF regulations address health and safety primarily in two ways.

First, Lead Agencies shall certify that they have in effect licensing requirements applicable to child care services provided within the area served by the Lead Agency (§98.40(a)(1)). These licensing requirements need not be applied to specific types of providers of child care services (658(E)(c)(2)(E)(i)). Lead Agencies must describe those licensing requirements and how they are effectively enforced. [Questions related to licensing requirements are in sections 3.1.1 and 3.1.2.](#) Second, Each Lead Agency shall certify that there are in effect, within the State or local law, requirements designed to protect the health and safety of children that are applicable to child care providers of services for which assistance is provided under CCDF. [Questions related to CCDF Health and Safety requirements are in sections 3.1.3 and 3.1.4.](#)

#### **3.1.1. Compliance with Applicable State/Territory and Local Regulatory Requirements on Licensing**

Lead Agencies shall certify that they have in effect licensing requirements applicable to child care services provided within the area served by the Lead Agency (§98.40(a)(1)). These licensing requirements need not be applied to specific types of providers of child care services (658(E)(c)(2)(E)(i)). Lead Agencies must describe those licensing requirements and how they are effectively enforced.

**Definition:** Licensing requirements are defined as regulatory requirements, including registration or

certification requirements established under State, local, or tribal law, necessary for a provider to legally operate and provide child care services in a State or locality (§98.2). This does not include registration or certification requirements solely for child care providers to be eligible to participate in the CCDF program. Those requirements will be addressed in 3.1.2.

The relationship between licensing requirements and health and safety requirements varies by State/Territory depending on how comprehensive the licensing system is. In some States and Territories, licensing may apply to the majority of CCDF-eligible providers and the licensing standards cover the three CCDF health and safety requirements so the State/Territory has few, if any, providers for whom they need to establish additional CCDF health and safety requirements. In other cases, States and Territories have elected to exempt large numbers of providers from licensing which means that those exempted providers who care for children receiving assistance from CCDF will have to meet to the CCDF health and safety requirements through an alternative process outside of licensing **as defined by the State/Territory**. The State/Territory may also elect to impose more stringent standards and licensing or regulatory requirements on child care providers of services for which assistance is provided under the CCDF than the standards or requirements imposed on other child care providers. (§98.40(b)(1)) (658E(c)(2)(F), §98.41).

a) Is the Lead Agency responsible for child care licensing? (§98.11(a))

e) Do you expect the licensing requirements for child care providers to change in FY2014-2015?

Yes. Describe

The regulations governing child day care centers and group day care homes are currently under review to reduce certain requirements that are not applicable to programs that serve exclusively school age children.

Currently, the State Department of Education have regulations for School-Age and Before and After school Health and Safety.

No

### 3.1.2 Enforcement of Licensing Requirements

Each Lead Agency is required to provide a detailed description of the State/Territory's licensing requirements and how its licensing requirements are effectively enforced. (658E(c)(2)(E), §98.40(a)(2)) The Lead Agency is also required to certify that that procedures are in effect to ensure that child care providers caring for children receiving CCDF services comply with the applicable health and safety requirements. (658E(c)(2)(G), §98.41(d))

**Describe the State/Territory's policies for effective enforcement of the licensing requirements using questions 3.1.2a through 3.1.2e below.** This description includes whether and how the State/Territory uses visits (announced and unannounced), background checks, and any other enforcement policies and practices for the licensing requirements.

a) Does your State/Territory include **announced** and/or **unannounced** visits in its policies as a way to effectively enforce the licensing requirements?

### 3.1.3. Compliance with Applicable State/Territory and Local Regulatory Requirements on Health and Safety

Each Lead Agency shall certify that there are in effect, within the State or local law, requirements designed to protect the health and safety of children that are applicable to child care providers of services for which assistance is provided under CCDF. Such requirements shall include the prevention and control of infectious diseases (including immunization), building and physical premises safety, and minimum health and safety training appropriate to the provider setting. These health and safety requirements apply to all providers caring for children receiving CCDF services and which also may be covered by the licensing requirements. (658E(c)(2)(F), §98.41)

**3.1.4 Effective enforcement of the CCDF health and safety requirements.** For providers who care for children receiving CCDF assistance and who are NOT subject to the enforcement procedures described in 3.1.2 for licensed providers, please describe how the **Lead Agency** enforces the CCDF health and safety enforcement requirements. \_\_\_\_\_

The State DPH conducts announced and unannounced visits. It requires providers to attend or participate in training relating to opening a child care facility prior to issuing a license. Providers are required to submit plans to correct violations cited during inspections. Licensing staff approve the plans of correction submitted by providers. Licensing staff verify correction of violation. Licensing staff provide technical assistance regarding how to comply with a regulation.

a) Describe whether and how the **Lead Agency** uses on-site visits (announced and unannounced) \_\_\_\_\_

DPH conducts announced prior to initial licensure and technical assistance visits upon request and unannounced visits once every two years for centers, group homes and once every three years for family day care homes.

b) Describe whether the **Lead Agency** uses background checks \_\_\_\_\_

The state performs state and FBI background checks and child abuse registry checks for all providers at initial entrance and annually for in-home care providers.

**Background Check Violations:**

Check if the **Lead Agency** certifies that procedures are in effect to ensure that child care providers of services for which assistance is provided under the Child Care and Development Fund comply with all applicable State or local health and safety requirements. (658E(c)(2)(G))

**3.1.5. Does the State/Territory encourage or require child care programs to conduct developmental screening and referral for children participating in child care programs?**

**3.1.6 Data & Performance Measures on Licensing and Health and Safety Compliance** – What data elements, if any, does the State/Territory currently have access to related to licensing compliance? What, if any, performance measures does the Lead Agency use for ensuring health and safety? The purpose of these questions is for Lead Agencies to provide a description of their capacity to provide information, not to require Lead Agencies to collect or report this information. For any data elements checked in (a) below, Lead Agencies may provide an optional description about the data they have access to (e.g., the Lead Agency may have data for only licensed programs, only programs caring for children receiving CCDF subsidies, only providers participating in quality improvement systems, or only for certain age groups (e.g., infants and toddlers or school-age children).

**a) Data on licensing and health and safety.** Indicate if the Lead Agency or another agency has access to data on:

Number of licensed programs. Describe (optional)

Numbers of programs operating that are legally exempt from licensing. Describe (optional)

Number of programs whose licenses were suspended or revoked due to non-compliance. Describe (optional)

Number of injuries in child care as defined by the State/Territory. Describe (optional)

Number of fatalities in child care as defined by the State/Territory. Describe (optional)

Number of monitoring visits received by programs. Describe (optional)

Caseload of licensing staff. Describe (optional)

Number of programs revoked from CCDF due to non-compliance with health and safety requirements. Describe (optional)

Other. Describe

None

**b) Performance measurement.** What, if any, performance measures does the State/Territory

use in its licensing system to monitor compliance with CCDF health and safety requirements?

c) **Evaluation.** What, if any, are the State/Territory’s plans for evaluation related to licensing and health and safety? Evaluation can include efforts related to monitoring implementation of an initiative, validation of standards or assessment tools, or looking at outcomes in programs or the system and may be ongoing or conducted periodically.

**3.1.7 Goals for the next Biennium** - In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium and are encouraged to identify no more than five priority goals total. ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). Lead Agencies are not required to establish a goal for each sub-section of 3.1. Lead Agencies will report progress and updates on these goals in the annual Quality Performance Report (Appendix 1), including any barriers encountered.

What are the Lead Agency’s goals for the licensing and health and safety system in the coming biennium? What progress does the State/Territory expect to make on core areas (e.g. licensing standards, monitoring visits or other effective enforcement, improved technical assistance, or fewer serious non-compliances?)

**Note** – When identifying your goals below, Lead Agencies are encouraged to begin with an action verb reflecting the desired result over the two year period (e.g., Increase, Improve, Build, Align, Implement, Review, Revise, Streamline, Expand, etc.)

Goal 1 - Expected to transition to new licensing system which will enable web-based access to information on providers, improve reporting capabilities, increase monitoring options and improve automation of current processes.

Goal 2 - Coordination and planning work on performance benchmarks, in cooperation with the Connecticut Statewide Advisory Council (SAC), RESCs, Head Start, Early Head Start, Birth to Three interagency Coordinating Council, Family Providers, and After School Providers Network.

Goal 3 -

Goal 4 -

Goal 5 -

**New!** CCDF has a number of performance measures that are used to track progress for key aspects of the program at the national level. These performance measures are included in budget materials submitted to Congress and other documents. Please follow this link

<http://www.acf.hhs.gov/programs/occ/resource/government-performance-and-results-act-gpra-measures> to see the CCDF performance measures. A number of these performance measures rely on

information reported in the State and Territorial Plans as a data source. We have added a ruler icon in Section 3.2 through 3.4 in order to identify the specific questions used in the performance measures. When answering these questions, Lead Agencies should ensure that their answers are accurate and complete in order to promote the usefulness and integrity of the performance measures.

**3.1.2. Compliance with Applicable State/Territory and Local Regulatory Requirements on Health and Safety**

### ~~3.1.6 Data & Performance Measures on Licensing and Health and Safety Compliance~~

~~What data elements, if any, does the State/Territory currently have access to related to licensing compliance? What, if any, performance measures does the Lead Agency use for ensuring health and safety? The purpose of these questions is for Lead Agencies to provide a description of their capacity to provide information, not to require Lead Agencies to collect or report this information. For any data elements checked in (a) below, Lead Agencies may provide an optional description about the data they have access to (e.g., the Lead Agency may have data for only licensed programs, only programs caring for children receiving CCDF subsidies, only providers participating in quality improvement systems, or only for certain age groups (e.g., infants and toddlers or school-age children).~~

~~a) **Data on licensing and health and safety.** Indicate if the Lead Agency or another agency has access to data on:~~

~~Number of licensed programs.~~

~~Describe (optional):~~

~~Child Care licensing information is available on the State of Connecticut Department of Public Health website at <http://www.ct.gov/dph>~~

~~Numbers of programs operating that are legally exempt from licensing. Describe (optional):~~

~~State licensing monitoring in compliance with state regulations and policies.~~

e) **Evaluation.** What, if any, are the State/Territory's plans for evaluation related to licensing and health and safety? Evaluation can include efforts related to monitoring implementation of an initiative, validation of standards or assessment tools, or looking at outcomes in programs or the system and may be ongoing or conducted periodically.

~~State Child Care licensing and monitoring is tracked by the State Department of Public Health.~~

~~Further analysis of this action will be reviewed by the Connecticut Statewide Advisory Council~~

~~(SAC).~~

### ~~3.1.7 Goals for the next Biennium~~

~~In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium. Lead Agencies are encouraged to include measurable and achievable goals. Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). Lead Agencies are not required to establish a goal for each sub-section of 3.1. What are the Lead Agency's goals for the licensing and health and safety system in the coming biennium? What progress does the State/Territory expect to make on core areas (e.g. licensing standards, monitoring visits or other effective enforcement, improved technical assistance, or fewer serious non-compliances?)~~

~~Expected to transition to new licensing system which will enable web-based access to information on providers, improve reporting capabilities, increase monitoring options and improve automation of current processes.~~

*Coordination and planning work on performance benchmarks, in cooperation with—the Connecticut Statewide Advisory Council (SAC), RESCs, Head Start, Early Head Start, Birth to Three interagency Coordinating Council, Family Providers, and After School Providers Network.*

CCDF has a number of performance measures that are used to track progress for key aspects of the program at the national level. These performance measures are included in budget materials submitted to Congress and other documents. Please follow this link

<http://www.acf.hhs.gov/programs/occ/resource/government-performance-and-results-act-gpra-measures> to see the CCDF performance measures. A number of these performance measures rely on information reported in the State and Territorial Plans as a data source. We have added a ruler icon

 in Section 3.2 through 3.4 in order to identify the specific questions used in the performance measures. When answering these questions, Lead Agencies should ensure that their answers are accurate and complete in order to promote the usefulness and integrity of the performance measures.

### **3.2 Establishing Voluntary Early Learning Guidelines (Component #2)**

---

For purposes of this section, voluntary early learning guidelines (also referred to as early learning and development standards) include the expectations for what children should know (content) and be able to do (skills) at different levels of development. These standards provide guidelines, articulate developmental milestones, and set expectations for the healthy growth and development of young children. The term *early learning guidelines* (ELGs) refers to age-appropriate developmental learning guidelines for infants and toddlers and school-age children. These early learning guidelines are voluntary because States/Territories are not required to develop such guidelines or implement them in a specified manner.

 **3.2.1 Has the State/Territory developed voluntary early learning guidelines for children? Check any early learning guidelines the State/Territory has developed.**

- Birth-to-three
- Three-to-five
- Five years and older

If yes, insert web addresses, where possible:

c) Is school readiness information linked to the statewide longitudinal data system (SLDS, program of the Department of Education)?

- Yes. Describe:

Since October 2020, the Connecticut State Department of Education has been collecting student-level data for all students enrolled in a public school, Pre-Kindergarten (PK) through Grade 12.

In 2005, a unique identifier was added to the student-level data in order to facilitate the tracking of students through their public school experience, grades PK-12. In this same student-level data collection, the Connecticut State Department of Education can determine which PK students are funded by School Readiness. Starting October 2007, the Connecticut State Department of Education began collecting student-level data from all non-Local Education Authority (LEA) based preschool programs that receive state and/or federal dollars. This includes any preschool programs that have school readiness slots. These children are also assigned a unique identifier that will follow them out of their community-based preschool program and into the regular public school system.

Connecticut has been able to link students who were in "school readiness" slots since October 2005 for those served in a LEA-run program, and since October 2007 for those served in a community-based program.

There are additional publicly funded early care and education programs that are not identified as "school readiness" in the above paragraphs, that may have prepared children ages 3-5 to be ready for school. The data on children in these programs is not necessarily collected in SLDS until the child reaches the public school or "school readiness" setting.

- No
- Not applicable. State does not have an SLDS.

**3.2.7 Data & Performance Measures on Voluntary Early Learning Guidelines** What data elements, if any, does the State/Territory have access to on the dissemination of, implementation of, or children's attainment of the early learning guidelines? What, if any, performance measures does the State/Territory use for dissemination and implementation of the early learning guidelines? The purpose of these questions is for Lead Agencies to provide a description of their capacity to provide information, not to require Lead Agencies to collect or report this information. For any data elements checked in (a) below, Lead Agencies may provide an optional description about the data they have access to (e.g., the Lead Agency may have data for only licensed programs, only programs caring for children receiving CCDF subsidies, only providers participating in quality improvement systems, or only for certain age groups (e.g., infants and toddlers or school-age children).

a) **Data on voluntary early learning guidelines.** Indicate if the Lead Agency or another agency has access to data on:

- Number/percentage of child care providers trained on ELG's for preschool aged children. Describe (optional):

- Number of programs using ELG's in planning for their work. Describe (optional):
- Number of parents trained on or served in family support programs that use ELG's. Describe (optional):

During the past three years, after school programs have used the National Institute on Out-of-School Time, Afterschool Program Practices Tool (APT) for assessment, quality program design, and as best practices. Connecticut's Before and After School program self-assess in accordance with best practices and program standards.

- c) **Evaluation.** What are the State/Territory's plans, if any, for evaluation related to early learning guidelines and the progress of children in child care? Evaluation can include efforts related to monitoring implementation of an initiative validation of standards or program assessment tools, or looking at outcomes in programs or the system and may be ongoing or conducted periodically. [REDACTED]

Evaluate plans need to be developed by the Early Learning Standards workgroup of the State Advisory Council.

During the past three years, after school programs have used the National Institute on Out-of-School Time, Afterschool Program Practices Tool (APT) for assessment, quality program design, and as best practices. Connecticut's Before and After School program self-assess in accordance with best practices and program standards.

The State Department of Education with the University of Connecticut plan to evaluate state and federally funded programs.

**3.2.8 Goals for the next Biennium** - In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium. Lead Agencies are encouraged to include measurable and achievable goals. Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). What are the Lead Agency's goals for using voluntary early learning guidelines in the coming biennium? What progress does the Lead Agency expect to make related to early learning guidelines?

Work with State Advisory Council Early Learning Standards Committee to develop evaluation methodology for performance measurement and,

Work with State Advisory Council Early Learning Standards Committee to review, update and align

Birth- to-Three, Head Start and Early Learning Guidelines (ELGs) to reflect current research and practice: periodic evaluation of ELG trainers' performance; make the Early Learning Guidelines part of the state's professional development system (both Connecticut Charts-A-Course and college based programs); integrate Early Learning Guidelines and Infant and Toddler Modules into Early Care and Education courses at 2- and 4- year colleges.

Work with State Advisory Council Early Learning Standards Committee to crosswalk Connecticut's Early Learning Guidelines (ELG) with the Connecticut Pre-School Assessment Framework (PAF) and the Connecticut Preschool Curriculum Framework (PCF), the community college infant-toddler curriculum, and the Early Head Start performance standards. Crosswalk with NAEYC Accreditation standards.

### **3.3 Creating Pathways to Excellence for Child Care Programs through Program Quality Improvement Activities (Component #3)** (Click for additional instructions)

Many States have chosen to use targeted quality funds and other resources to develop a systematic framework for evaluating, improving, and communicating the level of quality in early childhood programs (i.e. QRIS). States and Territories will provide a self-assessment on current program quality improvement activities by responding to questions in this section and then describe their goals for the upcoming Biennium.

For purposes of this section, States and Territories will respond according to a Quality Rating and Improvement System (QRIS) framework. QRIS refers to a systematic framework for evaluating, improving and communicating the level of quality in early childhood programs and contains five key elements:

1. Program standards
2. Supports to programs to improve quality
3. Financial incentives and supports
4. Quality assurance and monitoring
5. Outreach and consumer education

While not all States and Territories have developed or implemented a formal QRIS, all are pursuing quality improvement strategies that can be described within this framework (based upon previous CCDF Plans). Using this framework to organize this section allows States/Territories to report on their quality improvement activities systematically whether they have a QRIS or not. Over time, States and Territories are encouraged to work on linking their quality improvement initiatives and strategies across all of these elements, culminating in a comprehensive Quality Rating and Improvement System with adequate support for providers to attain higher levels of quality and transparency for parents and the community regarding the quality of child care.

a) Describe which entities are involved in planning and administering the program quality improvement activities in 3.3, including State/Territory entities and local or community level entities.

Connecticut Departments of Social Services (DSS), Public Health (DPH), State Department of Education (SDE), Connecticut Charts-A-Course, Accreditation Facilitation Project, (CCAC/AFP). NAEYC Accreditation is the quality standard used by CCAC/AFP, DSS and SDE.

#### **3.3.1 Element 1 - Program Standards**

**Definition** - For purposes of this section, program standards refers to the expectations for quality, or quality indicators, which identify different levels of and pathways to improved quality. - Children who are dual language learners
- None

c) How do your State/Territory's quality standards link to State/Territory licensing requirements? Check any links between your State/Territory's quality standards and licensing requirements.

- Licensing is a pre-requisite for participation
- Licensing is the first tier of the quality levels
- State/Territory license is a "rated" license.
- Other. Describe:

[Most programs are licensed: there is an exception clause for public schools.](#)

[State quality standards \(NAEYC Program Standards and Accreditation Criteria for early childhood programs\) require that a program that is eligible for licensure must hold that license at the time of application to NAEYC and throughout the term of accreditation. Additionally, programs that are exempt from licensure must be regulated by the appropriate agency.](#)

- Not linked.

d) Do your State/Territory's quality improvement standards align with or have reciprocity with any of the following standards? Check any alignment, if any, between your State/Territory's quality standards and other standards.

- Programs that meet State/Territory pre-k standards are able to meet all or part of the quality improvement standards (e.g., content of the standards is the same, or there is a reciprocal agreement between pre-k and the quality improvement system)

- Programs that meet Federal Head Start Performance Standards are able to meet all or part of the quality improvement standards (e.g., content of the standards is the same, or there is a reciprocal agreement between Head Start and the quality improvement system)

Not defined, however we will work with State Advisory Council to determine.

**3.3.9 Goals for the next Biennium** - In this section, Lead Agencies are asked to identify at least one goal for the upcoming biennium. Lead Agencies are encouraged to include measurable and achievable goals. Lead Agencies may include existing goals (e.g., already identified in a State strategic plan or established by the Governor for a Lead Agency). ACF will target technical assistance efforts to help Lead Agencies achieve their goal(s). Lead Agencies are not required to establish a goal for each sub-section in 3.3. What are the State/Territory's goals for the program quality improvement system in the coming biennium? What progress does the State/Territory expect to make across the five key elements for quality improvement systems? \_\_\_\_\_

Connecticut will revisit the plan established by the Early Care and Education State Advisory Council, drafted in 2008 and tabled due to budgetary constraints, to continue review of Quality Improvement opportunities, standards, process, and incentives.

### 1. Program Standards:

Work with State Advisory Council on development of goals, performance measures and evaluation methodologies for program standards to align Birth to Five standards and to maintain a continuum with child development and curriculum standards for school age children Kindergarten to Grade 12.

## **2. Supports to programs to improve quality:**

Support quality improvement efforts through the training and technical assistance provided by the Accreditation Facilitation Project. We will continue to recruit licensed programs into the NAEYC Accreditation process, with a goal to recruit 15 new non-accredited programs to the pursuit of NAEYC Accreditation in the coming year.

A workgroup of the State Advisory Council has drafted recommendations for a Quality Rating and Improvement System for Connecticut. The plan was developed with technical assistance from the federal Office of Child Care. There are five standards in the plan: 1. Learning Environment, 2. Workforce Qualifications and Professional Development, 3. Health and Safety, 4. Leadership and Management, 5. Family Engagement and Support.

## **3. Financial incentives and supports:**

Explore opportunities to give a bonus to programs that achieve accreditation for the first time. And, explore opportunity to give a bonus to sites that maintain accreditation through re-accreditation.

Continue to fund tired subsidies based on setting and/or accreditation of child care providers.

The recommendations for a CT QRIS includes financial incentives for programs that demonstrate higher levels of quality.

## **4. Quality Assurance and Monitoring:**

Develop and publish an action planning form for use with any of these tools to help programs plan improvements based on the assessment data gathered from a tool. A form could be finalized, posted on the web, and used with all of our AFP sites. Same document could be used to plan improvements driven by the NAEYC Accreditation Decision Report. Review potential funding to train on PAS or to expand CLASS training done by Head Start.

The recommended plan for CT QRIS includes mechanisms to monitor ongoing program quality. The plan builds on the successful Accreditation Facilitation Project and provides a “tool box” that includes valid and reliable environmental rating scales to increase program quality.

## **5. Outreach and Consumer Education:**

Continue outreach and consumer education efforts statewide and through 2-1-1- Child Care. Align activities with State Advisory Council family involvement and implementation of fatherhood audit.

Consideration for NAEYC provides accredited programs with a window decal of the accreditation logo. Encourage accredited programs to get these up at their programs and provide some kind of document for posting that explains to parents what it is, why it's important .

Work with 2-1-1 Child Care to add the NAEYC logo/hyperlink to the program page where it shows that a program is NAEYC Accredited.

Work with the Connecticut State Advisory Council (SAC) Committee on Family Involvement and connect with the Connecticut Department of Public Health (DPH) Home Visitation workgroup to determine appropriate strategies.

The recommended plan for the CT QRIS includes a public awareness campaign to educate the public about the standards, criteria and indicators of the system.

Pathways to excellence for the workforce builds on the significant investments States and Territories have made in the area of professional development systems to ensure a well-qualified workforce with opportunities for growth from entry level through master teacher, with an increasing emphasis on the many additional roles in the child care system (e.g. adult educators such as consultants, technical assistance providers, trainers, and higher education faculty). In this section, States and Territories provide a self-assessment on current professional development and workforce activities and describe their goals for the upcoming Biennium.

For purposes of this section, States and Territories will respond according to five key elements for workforce systems:

DRAFT

**2012**  
**CONNECTICUT CHILD CARE MARKET RATE**  
**METHODOLOGY AND ANALYSIS**

**Overview**

The Lead Agency utilized a telephone survey conducted by 2-1-1 Child Care in December 2012. 2-1-1 is Connecticut's statewide child care resource and referral agency operated by the United Way of Connecticut. 2-1-1 maintains a database of day care providers licensed by the Department of Public Health. The database is used for resource and referral purposes and is separate from the database of day care providers participating in the subsidy program.

**Questionnaire**

2-1-1 obtained information on provider charges through a standardized telephone survey. The survey questions captured information on weekly charges by type of setting and age group.

**Age Groups**

<b>Age Groups</b>	<b>Centers</b>	<b>Family Homes</b>
Infant	0 -17 months	0 - 23 months
Toddlers	18-35 months	0 - 23 months
Preschool	3-4 years	2-5 years
School Age	5-12 years	5-12 years

**SURVEY QUESTIONS**

**Infants**

1. Do you accept Infants < 24 months? (Centers = Infants < 36 months)
2. What do you currently charge for full time care for an infant in your program attending 35 hours or more?

(For programs that begin care for children 18 months+, use the word Toddler in place of Infant)

**Preschool**

3. Do you accept children ages 2-5 years old? (Centers = Children 3-5 years old)

4. *What do you currently charge for full time care for a preschool aged child in your program attending 35 hours or more?*

School Age

5. Do you accept before/after school aged children? (5-12 years attending school full day)
6. What do you currently charge for before and/or after school care for a part time school aged child?

### Sample Design

A primary objective of the sampling methodology was to maximize participation. The universe included all child day care programs licensed in Connecticut with the exception of child care centers that receive federal and state grants to purchase child slots. The grant programs, including Head Start, School Readiness and Child Development Centers charge fixed rates established by the contract. The sample omitted these facilities to avoid skewing the results of the survey.

Participation was voluntary. The following chart lists the number of providers that chose to participate in the survey. Because group homes represent only a small fraction of the number of licensed facilities in Connecticut, the Lead Agency does not distinguish between day care centers and group homes. Group homes are reimbursed at the center care rates.

### Sample Size

Provider Type	Total Licensed Statewide	Total Participating	Percent Participating
Centers/Group Homes	1,512	585	39%
Family Homes	2,522	1,593	63%

*Please note: The above "Total Participating" is from the December, 2012 Survey and the "Total Licensed Statewide" is from the CT.gov DPH license look-up as of April 22, 2013.*

Provider charges were measured separately for infants/toddlers, preschool and school age children. Only facilities that provide care to children in the appropriate age category were included in the analysis. Following chart breaks down the number of facilities that participated by age group.

### Sample Size by Age Group

Age Groups	Center/Group Homes	Family Homes
Infant/Toddler	404	1,542
Preschool	483	1,556
School Age	275	674

### Provider Charges

Rate estimates were based on the full-time rate charges reported by each facility. The licensed capacity of the facility was used to establish the frequency of the charges within the data set and percentile values. Estimates for school-age children were measured at the part-time, before and after school rate during the school year. The survey produced the following results:

#### 2012 Weekly Market Rates at the 60<sup>th</sup> and 75<sup>th</sup> Percentiles

Age Group	Center		Family Homes	
	60 <sup>th</sup>	75 <sup>th</sup>	60 <sup>th</sup>	75 <sup>th</sup>
Infant/Toddler	265	300	190	200
Preschool	217	246	180	200
School Age	120	148	80	100

### Percentile Rankings

Child care providers participating in the Care 4 Kids program are reimbursed at payment levels established through a market rate survey conducted in 2001. The state market rates were set at the 60th percentile of the 2001 survey estimates. They have remained in effect since January 1, 2002. To satisfy CCDF regulatory and State Plan requirements, DSS utilized a market rate survey conducted by the United Way of Connecticut 2-1-1 Child Care in December 2012. The survey provides the means to assess the percentile ranking of the current market rates to provider fees reported in 2012. The comparison does not account for sibling reductions generally given to families with multiple children enrolled in the same facility. Connecticut reimburses providers at the full rate and does not consider the sibling reduction.

## Comparison of C4K 2001 Weekly Market Rates to 2012 Survey Estimates

		Infants/Toddlers		Preschool		School Age Part-Time	
		Weekly Rate	Percentile in 2012	Weekly Rate	Percentile in 2012	Weekly Rate	Percentile in 2012

	<b>2001 Special Needs Rate</b>	173	33 <sup>rd</sup>	173	44 <sup>th</sup>	115	89 <sup>th</sup>

### Analysis

The survey results were inconsistent between age groups and relative to the 2011 market rate estimates. For example, the 75<sup>th</sup> percentile day care center rate for school age increased by 48% from 2011 to 2012 from a rate of \$100 per week to \$148 per week. By comparison, Infant/Toddler and Preschool age groups rates for centers based care changed only slightly by 2% increase for the Infant/Toddler and 1% decrease for the Preschool age groups.

Family Day Care Homes remained stable at \$200 per week from 2011 to 2012 for the Infant/Toddler age group. Preschool and school age family day care home rates each showed a modest 5% increase from 2011 to 2012. We attribute the inconsistencies to sampling error and differences in how providers choose to advertise their rates.

The following table lists the 75<sup>th</sup> percentile rates estimates from the 2011 and 2012 market surveys.

### 2011 and 2012 75<sup>th</sup> Percentile Rate Estimates by Age Group

	Centers			Family Homes		
	2011	2012	Change	2011	2012	Change
<b>Infant/Toddler</b>	<b>295</b>	<b>300</b>	<b>2%</b>	<b>200</b>	<b>200</b>	<b>0%</b>
<b>Preschool</b>	<b>249</b>	<b>246</b>	<b>-1%</b>	<b>190</b>	<b>200</b>	<b>5%</b>
<b>School Age</b>	<b>100</b>	<b>148</b>	<b>48%</b>	<b>95</b>	<b>100</b>	<b>5%</b>

As mentioned above, current state reimbursement rates are set at the 60<sup>th</sup> percentile of the 2001 market survey. The following table compares the 60<sup>th</sup> percentile state rates to the 60<sup>th</sup> percentile 2012 rate estimates.

### 2001 and 2012 60<sup>th</sup> Percentile Rate Comparison

Utilization is the most reliable measure of the ability of parents to access a wide range of day care settings. The cost of licensed care far exceeds amounts paid to relatives and in-home child care providers. The table below tracks child enrollments by setting from 2002 to present. The table lists the actual number of children enrolled in licensed and unlicensed care.

### Utilization by Setting

#### Active Child Care Enrollments as of December, 2012

Children Enrolled	January 2002	January 2004	June 2007	June 2011	March 2012	December 2012
<b>Licensed</b>	<b>11,577</b>	<b>6,697</b>	<b>12,603</b>	<b>14,088</b>	<b>14,213</b>	<b>13,728</b>
<b>Unlicensed</b>	<b>25,365</b>	<b>8,621</b>	<b>7,621</b>	<b>7,114</b>	<b>6,034</b>	<b>6,721</b>
<b>Total</b>	<b>36,942</b>	<b>15,318</b>	<b>20,224</b>	<b>21,202</b>	<b>20,247</b>	<b>20,449</b>
<b>Percent Licensed</b>	<b>31%</b>	<b>44%</b>	<b>62%</b>	<b>64%</b>	<b>70%</b>	<b>67%</b>

Note: Child Care providers exempt for licensure by DPH are not included in the December 2012 counts shown above but were equal to 1,073.

The Lead Agency implemented the current state rates in January 2002. The 2002 market rates represented a significant increase in reimbursements to licensed child care providers. Since January 2002, the number of children enrolled in licensed care increased by 36% percent. Over the past State Plan cycle, licensed enrollments decreased by 3% from 2011 to present.

It is important to recognize that parents often work second and third shift jobs and on weekends. Only a small number of licensed family day care home providers offer care during non-traditional hours. The Lead Agency is not aware of any child care centers that currently operate multiple shifts in Connecticut. As a result, parental choice is limited by the work schedule. In addition, national studies indicate that families in all income brackets tend to rely on relatives for infant and toddler care.

The Lead Agency also found the state rates to be competitive with reimbursement rates in adjacent states. Connecticut has one of the lowest co-payments in the region and nationally, averaging approximately four percent of the family's countable income. Subsidy program regulations exclude TANF benefits, Child Support, earnings of minors and other types of unearned income from the eligibility and co-payment calculations, thus reducing the amount of countable income. Child care subsidy recipients that are unemployed do not have a family copayment.

Based on this information, the Lead Agency has concluded that the current state rates are sufficient to provide equal access to the low and moderate income families.

## AMENDMENTS LOG

CHILD CARE AND DEVELOPMENT FUND PLAN FOR: \_\_\_\_\_

FOR THE PERIOD: 10/1/13 – 9/30/15

Lead Agencies are required to request approval from Administration for Children and Families (ACF) whenever a “substantial” change in the Lead Agency’s approved CCDF plan occurs. Please refer to the ACF Program Instruction regarding CCDF Plan amendments for more information

<http://www.acf.hhs.gov/programs/occ/resource/pi-2009-01>

Plan amendments must be submitted to ACF within 60 days of the effective date of the change. Under the regulation, the plan amendment must be approved no later than the 90th day following the date on which the amendment is received by ACF unless the Lead Agency and ACF mutually agree in writing to extend the period. (§98.18 (b)).

ACF encourages Lead Agencies to contact the Child Care program staff in the appropriate ACF Regional Office to discuss any proposed amendment as early as possible.

### **Instructions for Submitting Amendments:**

Complete the first 3 columns of the Amendment Log and send a copy of the Log (showing the latest amendment sent to ACF) and the amended section(s) to the ACF Regional Office contact. Lead Agency also should indicate the Effective Date of the amended section in the footer at the bottom of the amended page(s). A copy of the Log, showing the latest amendment pending in ACF, is retained as part of the Lead Agency's Plan.

ACF will complete column 4 and returns a photocopy of the Log to the grantee following its review and approval of the amendment. The Lead Agency replaces this page in the Plan with the copy of the Log received from ACF showing the approval date.

**Note:** This process depends on repeated subsequent use of the same Log page over the life of the Plan. At any time the Log should reflect all amendments, both approved and pending in ACF. The Lead Agency is advised to retain "old" plan pages that are superseded by amendments in a separate appendix to its Plan. This is especially important as auditors will review CCDF Plans and examine effective date of changes.

## Appendix 1

### Quality Performance Report

This annual report will be submitted to ACF no later than **December 31, 2014** and will reflect the period **October 1, 2013 through September 30, 2014**. Lead Agencies will leave this report blank when the Plan is initially submitted.

In this report, Lead Agencies are asked about the State/Territory's progress in meeting its goals as reported in the FY 2014-2015 CCDF Plan, and provide available data on the results of those activities. At a minimum, Lead Agencies are expected to respond to the first question in each section of the Quality Performance Report (QPR) which asks for their progress toward meeting their goal(s) articulated in **Part 2 and Part 3** of the CCDF Plan for this Biennium.

Because of the flexibility in administering the CCDF program, it is expected that Lead Agencies may not have information and data available to respond to all questions. **A Describe box is provided for each question for Lead Agencies to provide descriptive context for data reported** and narrative updates in each data section, including any plans for reporting data in the future, if actual data is not currently available **or if specific questions are not applicable**. **Lead Agencies may use data collected by other agencies and entities (e.g., CCR&R agencies or other contractors) as appropriate. The term Lead Agency is used in questions when the data relate to a CCDF-specific activity, otherwise the term State/Territory is used when another entity may be responsible or involved with an activity (e.g., licensing).**

The purpose of this annual report is to capture State/Territory progress on improving the quality of child care. Specifically, this report will:

- Provide a national assessment of State's and Territory's progress toward improving the quality of child care, including a focus on program quality and child care workforce quality;
- Track State's and Territory's annual progress toward meeting high quality indicators and benchmarks, including those that they set for themselves in their CCDF Plans and those that are of interest to the U.S. Department of Health and Human Services in measuring CCDF program performance;
- Assist national and State/Territory technical assistance efforts to help States/Territories make strategic use of quality funds; and

Assist with program accountability

This report collects progress on the five goals identified in Part 2 and Part 3 of the Child Care and Development Fund (CCDF) Plan for FY2014-2015 along with key data in relation to the four components of child care quality used as a quality framework in Part 3 of the Child Care and Development Fund Plan for FY 2014-2015:

1. Ensuring health and safety of children through licensing and health and safety standards
2. Establishing early learning guidelines
3. Creating pathways to excellence for child care programs through program quality improvement activities
4. Creating pathways to an effective, well-supported child care workforce through professional development systems and workforce initiatives.

### **Ensuring the Health and Safety of Children (Component #1)**

In this section, Lead Agencies provide information on the minimum health and safety standards and activities in effect over the past year as of September 30, 2014.

#### **A1.1 Progress on Overall Goals**

**Based on the goals described in the Lead Agency's CCDF Plan at Section 3.1.7, please report your progress using the chart below.** You may include any significant areas of progress that were not anticipated in the Plan, as well. For each goal listed, briefly describe the improvement with specific examples or numeric targets where possible ( e.g., revised licensing regulation to include elements related to SIDS prevention, lowered caseload of licensing staff to 1:50, or increased monitoring visits to twice annually for child care centers). If applicable, describe any barriers to implementing your planned goals.

<b>Goals Described in FY 2014-2015 CCDF Plan</b>	<b>Describe Progress – Include Examples and Numeric Targets where Possible</b>

**Note: If your licensing standards changed during this period, please provide a brief summary of the major changes and submit the updated regulations to the National Resource Center for Health and Safety in Child Care ([www.nrckids.org](http://www.nrckids.org)) \_\_\_\_\_**

**A1.2 Key Data**

OCC is collecting this information as one part of our overall effort to better understand States/Territories’ activities to improve the quality of child care. OCC recognizes that the data requested in this report will only provide part of that picture because there are many factors which affect the data being collected here **and that some data requested may be collected by another agency or entity other than the Lead Agency**. Each State/Territory’s policy context and priorities and standards will play a role in the way that quality improvement activities are developed and implemented. For example, the number of programs with licensing violations will be affected by how stringent the licensing standards are. States with more stringent standards may be more likely to report more violations than those with less stringent licensing standards. OCC intends to work with the States/Territories to gather any additional contextual information necessary in order to fully understand the context of these data for any reporting activities involving this information.

This may include initial licensing determination visits, licensing renewal visits, periodic announced or unannounced visits, and visits made after a complaint is lodged. For legally exempt providers, a monitoring visit is an onsite visit to a child care program with the goal of ensuring compliance with health and safety standards as defined by CCDF and required for receipt of CCDF funds. Use the Describe box to provide your State/Territory monitoring visit requirement.
