RE: Connecticut 13-037

Dear Mr. Bremby:

We have reviewed the proposed amendment to Attachments 4.19-A, of your Medicaid State plan submitted under transmittal number (TN) 13-037. This amendment revises the state's disproportionate share hospital (DSH) program. Specifically, it establishes a DSH pool of \$100,000 for general acute care hospitals with defined criteria and payment methodology.

We conducted our review of your submittal according to the statutory requirements at sections 1902(a)(2), 1902(a)(13), 1902(a)(30), 1903(a) and 1923 of the Social Security Act and the implementing Federal regulations at 42 CFR 447. We are pleased to inform you that Medicaid State plan amendment 13-037 is approved effective October 1, 2013. We are enclosing the CMS-179 and the amended plan pages.

If you have any questions, please call Novena James-Hailey at (617) 565-1291.

Sincerely,

A handwritten signature in black ink that reads "Cindy Mann". The signature is written in a cursive, flowing style.

Cindy Mann
Director

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT
State Connecticut

- (13) Additional Disproportionate Share Payments for Acute Care Hospitals (short-term General Hospitals) which provide Uncompensated Care under Section 1923 of the Social Security Act.

In addition to the disproportionate share payments (DSH) set forth in previous sections, disproportionate share payments are made to any qualifying short-term General Hospital lawfully operating within the state which provides uncompensated care. Short-term Children's General Hospitals as defined in Section 19-13D(1)(b)(A) of the Public Health Code of the State of Connecticut are specifically excluded under this Section.

CRITERIA – In order to qualify as a disproportionate share hospital under this section, a hospital must meet the following conditions:

1. Be a lawfully operating acute care hospital within the State providing uncompensated care services.
2. Meet the obstetrician requirements defined in Section 1923 (d) of the Social Security Act.
3. Have a Medicaid inpatient utilization rate at least one standard deviation over the mean Medicaid utilization rate for hospitals receiving Medicaid payments in the State as defined in Section 1923 (b) of the Social Security Act.

PAYMENT ADJUSTMENT – Commencing October 1, 2013, annual disproportionate share payments will be made to qualifying hospitals based on data for the federal fiscal year two years prior to the payment year. Annual payments will total \$100,000 and be allocated as follows:

1. For each qualifying hospital, calculate the difference between its Medicaid inpatient utilization rate and the mean Medicaid utilization rate.
2. Calculate the sum of the result of (1) for all hospitals.
3. Divide the result of (1) by the result of (2).
4. The disproportionate share payment shall be the result of multiplying the amount available of \$100,000 by the result of (3).

The DSS will test the calculated disproportionate share payments allocated to each hospital in each year to ensure that payments do not exceed federal limits established under the Omnibus Budget Reconciliation Act of 1993 or Section 1923 of the Social Security Act using protocols established in the DSH Audit procedures developed by CMS.

Following the completion of the DSH Audit pursuant to Section 1923(j)(2) of the Act, the DSH settlement will be limited to reductions for those hospitals over the hospital specific DSH limit with a reallocation to the other hospitals.
