

My future starts now.

With a career in Insurance and Financial Services, you can protect a company's bottom line.

Or, help an entrepreneur create the next big thing.

Or, find a way for a mom with a great idea to go global.

Or, maybe, you prompted a couple to save for a rainy day. And now that it's raining, they don't have to worry.

Yes, it's all possible.

To do something that matters. To be part of the insurance and financial services industry, a dynamic and growing employment segment. To make more than money. To make a difference.

With an Associate of Science degree in Insurance and Financial Services, the first of its kind.

Created by Connecticut's leading insurance and financial services employers and the Insurance and Financial Services (IFS) Center for Educational Excellence, the workplace initiative that brings Connecticut's employers and prospective employees interested in the IFS sector, together.

Learn from the people who know – leaders in the field who will be your teachers. You can take classes online or on campus. Participate in internships to get real-world training, along with mentor support and career and job placement counseling. Financial aid is also available for students who qualify.

THE ECONOMY

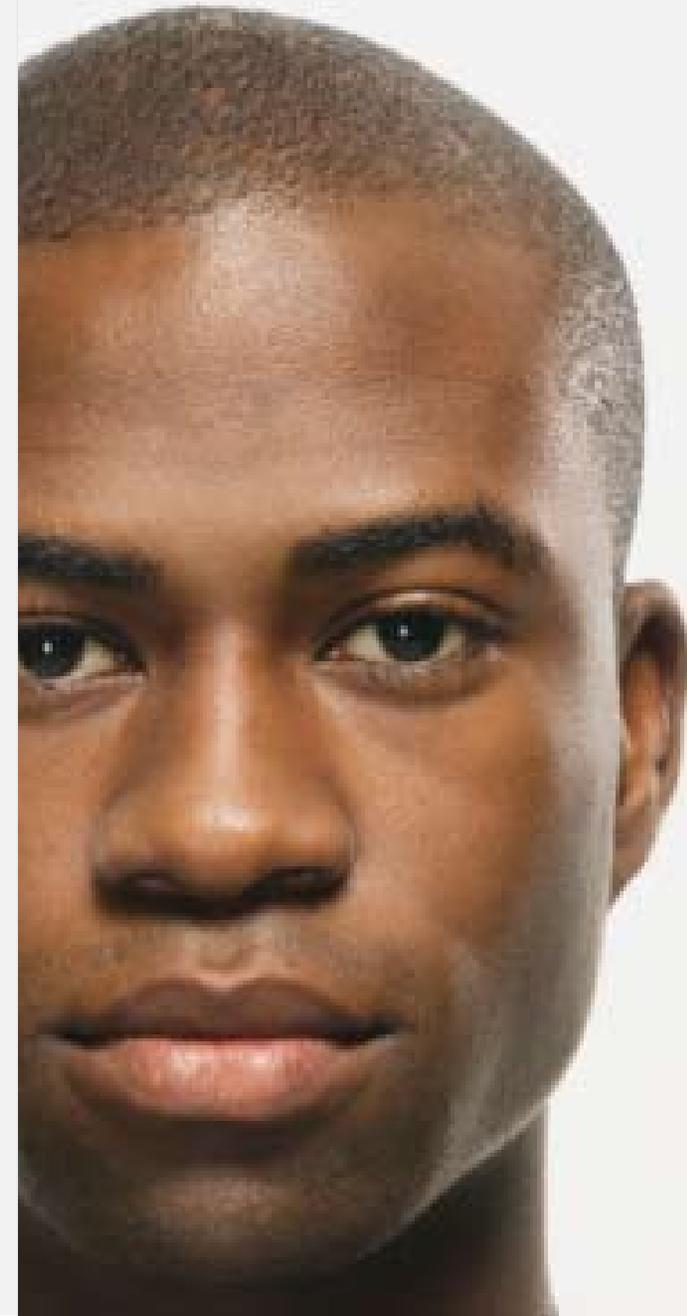

CHANCE
TO MAKE A
DIFFERENCE.

Educational
Excellence

Love Mondays.

Imagine. You love going to work. Even if it's Monday. With the Associate of Science in Insurance and Financial Services, you can work as an Account Manager, Investment Advisor, Financial Analyst, Underwriter, Risk Manager or Banker. You'll not only be prepared to enter the job market, but you'll have what it takes to succeed.

Get smart.

This program requires you to have a variety of skills, including analytical, verbal and written skills. Leadership and sales abilities are also important.

The Coursework:

The Associate Degree in Insurance and Financial Services consists of 20 courses in the following areas:

General Education, which includes English Composition and Literature, Mathematics, Computer and Laboratory Science, Art, Humanities, and Economics.

Business Foundation, which includes Accounting, Finance, Management, Marketing, Business Communications, and Business Law.

Specialized Courses in the areas of Insurance, Investments, and Banking, and a choice of an internship in one of the key industries.

Go places. Guaranteed.

Take your education to the next level. Many options are available for all Norwalk Community College (NCC) and Capital Community College (CCC) students to transfer to various colleges and universities.

For IFS students, special arrangements are in place at UConn Regional Campuses and Central Connecticut State University (CCSU). NCC and CCC students who successfully complete the IFS degree are guaranteed admission into UConn Regional Campuses' Bachelor of Science in Business and Technology degree program. Qualifying Capital IFS students are guaranteed admission into CCSU's Bachelor of Science in Finance degree program.

It's time. Your time.

This economy is in need of talented, passionate people. Especially now. After all, the world, if not the economy is waiting.
