DOCUMENTATION OF NEED TO SOLE SOURCE CONTRACT

Freedman HealthCare LLC

In 2012 the Connecticut General Assembly enacted Public Act No. 12-166 providing for the establishment of an All Payers Claims Database (hereinafter "APCD") and charged the Office of Health Reform and Innovation ("OHRI") with overseeing, planning, implementing and administering an APCD program in Connecticut for the purpose of collecting and assessing and reporting health care information relating to safety, quality, cost effectiveness, access and efficiency for all levels of health care. On April 4, 2013, OHRI, in cooperation with the Office of the Lieutenant Governor, entered into an agreement with the Connecticut Health Insurance Exchange, dba Access Health CT ("Exchange") for the administration of the APCD for a period of six months or until the effective date of legislation which transfers responsibility for the APCD to the Exchange, whichever is earlier.

The Exchange requires the services of an experienced consultant to aid in the administration of the APCD given the issues involved in operating an APCD, and the short timeline projected for bringing the APCD on line. Freedman HealthCare LLC ("FHC") is a national leader in providing planning and implementation support to state APCD initiatives. To date, FHC has worked with six states seeking to develop or improve an APCD. FHC is unaffiliated with any technology or software vendor and therefore provides unbiased advice to clients about vendors and tools. FHC's team brings a broad array of skills and experience to the Exchange initiative including a former APCD director; an APCD privacy and security legal expert; a state human services data warehouse manager; and a former health insurance plan medical quality director. FHC Healthcare assisted OHRI with the development of the project plan; budget request materials the 2012 draft of the APCD regulations.

It is in the best interests of the Exchange to award this contract on this basis, because of the specialty expertise of the vendor, the quoted price for services and the capability of the vendor to meet the Exchange's timelines in starting and completing this project.
