

Searching For an Existing Enforcement Action

Enter SIMS through the [SIMS Inquiry](#) link :

This will bring you to the Inquiry Screen:

Select the [Environmental Interest Tab](#):

This will open up the search criteria screen:

1. For the Environmental Interest Type Class Select [Enforcement Action](#) to narrow your search
2. In the Env Interest Number Field type the [Numeric](#) portion of your order (leave out the Alpha portion of the order) in the example above, the Enforcement Action we are searching is COAR2038- - 09098
3. Change the Env interest Number dropdown box to [Contains](#)
4. Change the display by option to [Environmental Interest](#)

Hit the [Search](#) button and your results will be returned in list form:

Depending on the Numeric value you have entered for your search, your results may vary. Search through all of the returned records and make sure that your Enforcement Action is not listed. The search will return 10 records per page, be sure to click on the [Next >>](#) link if you have more than 10 records, to ensure an accurate search. In the example listed above. The 4th record returned appears to be the Enforcement Action that was searched for. In this case, click on the  next to the record you want and the Enforcement Action will open up in a new window to the details page:

Take a look at the details and make sure the entry is complete:

- ★ 1. Client must be associated, and listed as "Respondent"
2. Site must be associated
3. Required Documents must be associated, you can click on the  icon to view existing documents
4. If a penalty exists, the amount must be listed.

Once you have verified that all required fields have been completed, you can move on to the next Enforcement Action. Repeat the search steps listed above.

Once you have verified that your Enforcement Action is not already in the system, close out of the window and go back to the Enforcement Action Entry screen:
