

# Summer Camps at the new Connecticut Science Center

Unleash your imagination! The Science Center's Summer Exploration Camps offer students in grades 4 through 8 skills in critical thinking, problem solving and leadership, not to mention some cool science know-how.

Our week-long camps run 8 AM to 4 PM. Each week offers a different theme for a different grade; all end with a culminating project. Participants must be registered no later than Monday, June 8.

Sign up by calling (860) 520-2177  
or log on to [www.CTScienceCenter.org](http://www.CTScienceCenter.org)  
to register today!
