

Hello, my name is Mark Polzella, and I was recently selected to serve as Chair of the Management Advisory Council (MAC). I feel honored to serve and lead the council in this capacity. With Joe Amend our past Chair, along with other members of the Executive Committee, the Council has striven vigorously to serve as an advocate for issues affecting managers in state government. Over the past year, the council has formulated and led initiatives to address such issues as: salary compression, professional training, and strengthening communication access with senior management in state government. The council plans to continue its endeavors in these areas and feels that an important step was taken with the successful launch of the Discussion Center now available at our website (www.ct.gov/mac <<http://www.ct.gov/mac>>).

The success of the council depends upon you - our other managers. Therefore, we invite your participation by communicating your thoughts and concerns to us. Your feedback is essential in assuring that the council continues to fulfill its mission of being a strong advocate on behalf of state managers. We look forward to hearing from you.

Sincerely,

Mark Polzella
MAC Chair
