

Cato T. Laurencin, M.D., Ph.D. is the Vice President for Health Affairs at the UConn Health Center and the seventh dean of the UConn School of Medicine. A nationally prominent orthopaedic surgeon, biomedical engineer, and administrator, Dr. Laurencin is the Van Dusen Endowed Chair in Academic Medicine and Distinguished Professor of Orthopaedic Surgery. Before coming to UConn, Dr. Laurencin was the Lillian T. Pratt Distinguished Professor and Chairman of Orthopaedic Surgery at the University of Virginia and was designated a University Professor by the President of UVa.

Dr. Laurencin earned his undergraduate degree in chemical engineering from Princeton University and his medical degree from Harvard Medical School, where he was a Magna Cum Laude graduate. During medical school, he also earned his Ph.D. in biochemical engineering/biotechnology from the Massachusetts Institute of Technology.

Dr. Laurencin has been named to America's Top Doctors and America's Top Surgeons, and is a Fellow of the American Surgical Association, the American College of Surgeons, and the American Academy of Orthopaedic surgeons. Most recently he was honored by Black Enterprise Magazine in its America's Leading Doctor's edition.

Dr. Laurencin's research involves tissue engineering, biomaterials science, and nanotechnology and he is an International Fellow in Biomaterials Science and Engineering and a Fellow of the American Institute for Medical and Biological Engineering. His work was recently honored by Scientific American Magazine as one of the 50 greatest achievements in science this past year.

Dr. Laurencin sits on the National Science Foundation's Advisory Committee for Engineering (ADCOM), and has served both on the National Science Board of the FDA, and the National Advisory Council for Arthritis, Musculoskeletal and Skin Diseases at N.I.H.

Dr. Laurencin is an elected member of the Institute of Medicine of the National Academy of Sciences.
