PART i - INTRODUCTION

GENERAL INFORMATION

The Compliance Supplement is effective for audits of fiscal years beginning on or after July 1, 2017, and supersedes all previous compliance supplements including previous updates issued by the Connecticut Office of Policy and Management (OPM). Every effort has been made to provide the most current information related to programs and program contacts.

The programs contained in this Compliance Supplement are identified by the Core-CT coding. If you encounter a program that is not in the Compliance Supplement for which the Core-CT coding is not available from the grantee, please contact the respective State agency for the Core-CT number. The Core-CT number is usually an 18 digit code representing the fund, state department and special id for the program (for example: 12009-OPM20600-17005). The Core-CT number should be used to identify programs listed on the Schedule of Expenditures of State Financial Assistance and on the Schedule of Findings and Questioned Costs. Some agencies have expanded the CORE-CT used to identify programs. You will notice an additional 3 or 5 digits in the number assigned to some programs. Be sure to match the name of the program as well as the CORE-CT number to the entity’s program before identifying the proper compliance supplement to use. For unique situations where additional guidance is necessary to identify a grantor agency’s program, that guidance will be provided in Part 2 of the Supplement in the section that pertains to the programs of the particular agency.

The Supplement is based on the latest revisions to the Connecticut State Single Audit Act (hereafter referred to as the “Act”). The Act and the Regulations for implementing the Act are included in Parts 7 and 8, respectively, of the Supplement.

The concept of a State Single Audit is based upon the Federal Government’s Single Audit. For this reason, many of the provisions and guidelines provided in the Act, the Regulations to the Act and this Supplement are similar to the Federal Government’s requirements and guidelines. Auditors should be aware however, that there are distinct and significant differences between the Federal Single Audit Act and the Connecticut State Single Audit Act. For this reason, it is important that the auditor be aware of the requirements and guidelines necessary to perform a Connecticut State Single Audit or a program audit in accordance with the Act and its Regulations.
KEY ASPECTS FOR CONDUCTING A STATE SINGLE AUDIT

- A State Single Audit is required when expenditures of state financial assistance equal or exceed $300,000 in the auditee’s fiscal year.

- In conducting a State Single Audit, the auditor should be familiar with the State Single Audit Act and its regulations and the State Single Audit Compliance Supplement.

- The Compliance Supplement contain: details of the risk based approach, program identification numbers, suggested audit requirements and other guidance for auditors.

- Similar to the federal process, state programs are separated into Type A and Type B and evaluated based on a risk assessment rather than on a numerical calculation. This method allows for a rotation of programs being tested each year. Major programs must be tested and must represent at a minimum 50% of non-exempt expenditures. There is no provision for being a “low risk auditee.” Refer to Part 5 of the Supplement for details.

- Exempt programs are determined based on ongoing evaluations and are identified in Part 4 of the Compliance Supplement. Such programs cannot be considered major state programs.

- Details regarding the reporting of audit findings and questioned costs by the independent auditor and the preparation of corrective action plans by the entity under audit can be found in Section 4-236-25 of the Regulations to the State Single Audit Act and Part iii of the Compliance Supplement.

- State Single Audit reports are due six months after the auditee’s fiscal year-end. Procedures for approving extensions allow OPM to request data and conduct meetings prior to approving a request for an extension of time for submittal of the State Single Audit report. The extension request must be made jointly by the organization’s chief executive officer and the organization’s independent auditor. Extensions granted for submittal of the audit report cannot exceed six-months in total from when the report was first due.

- The responsibility for payment of audit fees rests with the auditee when OPM assigns an auditor.

- The filing process, allows for a single filing of audit reports with the cognizant agency rather than each state agency.
UPDATE OF REQUIREMENTS

This Supplement identifies existing compliance requirements that the State of Connecticut expects to be considered as part of an audit required by the Act. For the programs contained herein, this Supplement provides a source of information for auditors to understand the State programs objectives, procedures, and compliance requirements relevant to the audit as well as audit objectives and suggested audit procedures for determining compliance with these requirements.

The Regulations to the Act state that state agencies are responsible to annually inform the Secretary of OPM of any updates needed to this Supplement. However, auditors should recognize that laws and regulations change periodically and that delays may occur between such changes and revisions to this Supplement. Moreover, auditors should recognize that there may be provisions of contract and grant agreements that are not specified in law or regulation and, therefore, the specifics of such are not included in this Supplement. The grant agreement may specify a certain matching percentage or set a priority for how funds should be spent (e.g., a requirement to not fund certain size projects). A State agency may also impose additional requirements on a recipient as part of the resolution of prior audit findings.

Accordingly, the auditor should: (1) perform reasonable procedures to ensure that compliance requirements are current and to determine whether there are any additional provisions of contract and grant agreements that should be covered by an audit under the Act and (2) update or augment the requirements contained in this Supplement where appropriate.

Reasonable procedures may include inquiry with nonstate entity management and review of the contract and grant agreements for programs selected for testing (i.e., major programs).

RESPONSIBILITY FOR OTHER REQUIREMENTS

Although the focus of this Supplement is on compliance requirements that could have a direct and material effect on a major program, auditors also have responsibility under Generally Accepted Government Auditing Standards (GAGAS) for other requirements when specific information comes to the auditor’s attention that provides evidence concerning the existence of possible noncompliance that could have a material indirect effect on a major program.

OPM has initiated a system requiring the electronic submission of reports, eliminating the need to file with each state agency, and creating a central filing with OPM. This will improve access by state agencies and reduce the number of paper reports produced. The independent auditor must still submit a hardcopy of the report to OPM (the cognizant state agency). The official filing date of the Report is the date that the hardcopy is received by OPM.

Part 1 Section 1.3
OVERVIEW OF THIS SUPPLEMENT

Common Reporting Problems (Part ii)

This part of the Supplement identifies the most common reporting problems observed by OPM when conducting desk reviews of State Single Audit reports for the 2016-17 reporting period.

Audit Report Submission (Part iii)

This part of the Supplement provides information on the filing requirements under the State Single Audit Act, including information on filing audit reports electronically.

Compliance Requirements (Part 1)

Part 1 lists and describes the 6 types of compliance requirements and, (except for Special Tests and Provisions), the related audit objectives that the auditor shall consider in every audit conducted under the Act and its Regulations. An exception is program-specific audits performed in accordance with a State awarding agency’s program-specific audit guide (if available). Suggested audit procedures are also provided to assist the auditor in planning and performing tests of the nonstate entity’s compliance with the requirements of State programs. Auditor judgment will be necessary to determine whether the suggested audit procedures are sufficient to achieve the stated audit objectives and whether additional or alternative audit procedures are needed. It is the auditor’s responsibility to determine the nature, timing, and extent of the audit procedures necessary to meet the audit objectives.

The compliance requirements for Special Tests and Provisions are unique to each State program; therefore, compliance requirements and suggested audit procedures for Special Tests and Provisions are not included in Part 1.

The common elements of an internal control system for the six types of compliance requirements are provided in Part 1. Part 1 does not include suggested audit procedures to test internal control because of the diversity of systems in place among nonstate entities. The auditor must determine appropriate procedures to test internal control on a case by case basis considering factors such as the nonstate entity’s internal control, the compliance requirements, the audit objectives for compliance, the auditor’s assessment of control risk, and the audit requirement to test internal control as prescribed in the Regulations to the Act.
Agency Program Requirements (Part 2)

For each State program included, Part 2 lists and describes program objectives, program procedures, and compliance requirements that are specific to the program. With the exception of Special Tests and Provisions, the auditor shall refer to Part 1 for the audit objectives and suggested audit procedures that pertain to the compliance requirements associated with the programs. Special Tests and Provisions are unique to each program; therefore the audit objectives and suggested audit procedures for each program are included in Part 2.

In conducting an audit of a major state program for a particular entity, the auditor should determine whether state financial assistance received under the major program was passed through to a subrecipient. If this occurred, Subrecipient Monitoring would be a compliance requirement that should be evaluated by the auditor for compliance requirement testing even though it may not be identified in Part 2 of the Supplement as a compliance requirement of the program (unless the supplement for the program specifically states that Subrecipient Monitoring is not applicable for the program).

The description of program procedures is general in nature. Some programs may operate somewhat differently than described due to: (1) The complexity of governing laws and regulations; (2) the administrative flexibility afforded nonstate entities; and, (3) the nature, size, and volume of transactions involved. Accordingly, the auditor should obtain an understanding of the applicable compliance requirements and program procedures in operation at the nonstate entity to properly plan and perform the audit.

Guidance for Auditing Programs Not Included in this Compliance Supplement (Part 3)

Part 3 provides guidance to auditors in identifying the compliance requirements and designing tests of compliance with such requirements of programs not included in this Supplement.

Exempt Programs (Part 4)

Major Program Determination (Part 5)

OPM Cost Principles (Part 6)

State Single Audit Act (Part 7)

State Single Audit Regulations (Part 8)

Sample State Single Audit Reports (Part 9)

Sample Schedule of Prior Audit Findings (Part 10)
Sample Corrective Action Plan (Part 11)
State Agency Contact List (Part 12)
Cognizant Agency Appointments (Part 13)
Notification of Appointment of Auditor (Part 14)
State Single Audit Extension Request Form (Part 15)
State Single Audit Filing Exemption Notification (Part 16)
State Agency Department Listing (Part 17)
Subrecipients and Contractors/Vendors (Part 18)
The following items were required to be implemented for audits with a fiscal year ending on or after June 30, 2017 and are again being presented in this Compliance Supplement to emphasize the required reporting.

- **Submission of a separate Corrective Action Plan:** The auditee is required to prepare in a document separate from the auditor’s findings (including the Schedule of Findings and Questioned Costs) a corrective action plan to address each audit finding (financial statement findings and state award program findings) in the current-year audit report. The corrective action plan is to provide the name(s) of the contact person(s) responsible for the corrective action, the corrective action planned, and the anticipated completion date. If the entity under audit doesn’t agree with the audit findings or believes that corrective action is not required, the entity shall explain this in the corrective action plan. The corrective action plan is to be filed on OPM’s Electronic Audit Reporting System (EARS). This filing should occur at the same time as the audit reporting package is filed.

- **Summary Schedule of Prior Audit Findings:** The state grant recipient under audit is required to report on the status of its prior year audit findings in regard to both its state award programs and its financial statements. The Summary Schedule shall identify any prior year findings that are repeated in the current year and the reasons for the recurrence, along with adequate reference numbers to identify the prior year findings. If a prior year finding has been corrected, the Summary Schedule should make such a disclosure.

- **State grant recipients are required to report the amounts that they have passed through to subrecipients by program on the face of the Schedule of Expenditures of State Financial Assistance. See the sample Schedule in part 9 of the Compliance Supplement.**

PART ii - COMMON REPORTING PROBLEMS

The most common issue identified by state agencies continues to be that the amounts reported on the Schedule of Expenditures of State Financial Assistance for certain grant program expenditures were incorrect.

The auditee is responsible for the preparation of the Schedule of Expenditures of State Financial Assistance and the independent auditor is responsible for issuing an opinion on whether the Schedule is presented fairly in all material respects in relation to the auditee’s financial statements taken as a whole. The independent auditor also has the responsibility under the State Single Audit (SSA) Act to determine the major state programs (an important aspect of conducting a State Single Audit); the Schedule of Expenditures of State Financial Assistance serves as the primary basis for the auditor making that determination. Therefore, appropriate major program determination by the auditor is highly dependent on the accuracy and completeness of the information that makes up the Schedule of Expenditures of State Financial Assistance. See chapter 7 of the AICPA audit guide, Government Auditing Standards and Single Audits for further information.

An issue that has emerged on a more frequent basis are cases where a pass-through entity has provided over $300,000 in state financial assistance to one of its subrecipients and where the subrecipient expended such financial assistance in its fiscal year triggering the need for a State Single Audit to be conducted of the subrecipient. OPM is working with state grantor agencies to gain an understanding as to the reason why subrecipients meeting the State Single Audit requirement expenditure threshold are not having State Single Audits conducted until being notified that a State Single Audit is required, which is well after the statutory due dates of the audit reports. In addition, the State Single Audit Report of the pass-through entity that provided the state financial assistance, frequently does not reflect an audit finding related to subrecipient monitoring.

A high amount of reporting problems continue to be observed in State Single Audit reports for the 2016-17 reporting period. Outdated reporting can be minimized by following the sample reports provided in the most current editions of the State Single Audit Compliance Supplement and the AICPA Audit Guide, “Government Auditing Standards and Single Audits”. Auditors can ensure correct auditing and reporting under the State Single Audit Act by keeping up-to-date with the latest changes to the State Single Audit Act, the information provided in the State Single Audit Compliance Supplement and Statement on Auditing Standards issued by the AICPA that affect State Single Audits. The following are the most common problems found during the desk reviews of the 2016-17 reports:
Schedule of Expenditures of State Financial Assistance

- Incorrect, incomplete or no Core-CT numbers used to identify state programs listed on the Schedule.
- Federal programs listed on the Schedule.
- The Notes to the Schedule were missing or were incomplete.
- Incorrect state financial assistance expenditure amounts reported for certain state programs listed on the Schedule.
- Exempt programs are not identified as exempt on the Schedule.
- Programs that are not exempt are identified as exempt on the Schedule.
- State financial assistance programs were left off the Schedule.
- There are several state agencies that provide grant funds under the program name Small Town Economic Assistance Program (STEAP). On several occasions it was observed that the incorrect grantor agency for expenditures under STEAP was identified on the Schedule.
- Amounts passed-through to subrecipients from each grant program reported on the Schedule were not disclosed.

Schedule Of Findings And Questioned Costs

- The dollar threshold amount used to distinguish between Type A and Type B programs is incorrect.
- The dollar threshold amount used to distinguish between Type A and Type B programs is missing.
- A Type A program that was not audited in any of the two prior years was not identified as a major program on the Schedule.
- A state program with two components listed under the same supplement is identified on the Schedule of Expenditures of State Financial Assistance under two line items (identical Core-CT numbers). Only one of the two line items is identified on the Schedule of Findings and Questioned Costs as a major program. (The line-item expenditure amounts of both components of the program should have been aggregated in determining a major program and both components of the program identified on the Schedule as a major program).
- The programs identified as major, do not meet the 50% coverage requirement of the State Single Audit Act.
- Amounts reported for major programs in the Schedule of Expenditures of State Financial Assistance and the Schedule of Findings and Questioned Costs do not agree.
- The Schedule refers to the Independent Auditor’s Opinion on the financial statements and/or the Independent Auditor’s Opinion on compliance over major state programs as an unqualified opinion rather than as an unmodified opinion.
- The Independent Auditor’s Opinion on the financial statements was modified but the Schedule indicates that the opinion was unmodified.
• The Independent Auditor’s Opinion on compliance over major state programs was modified for one major program and unmodified for the remaining major programs but the Schedule indicates that the opinion on compliance was unmodified for all major programs.

• Inconsistencies between findings reported in the Schedule of Findings and Questioned Costs and in the internal control and compliance reports.

• Part II (financial statement findings) and/or III (state program findings) of the schedule indicate that there were findings but does not describe the findings or reference where the findings can be found in the Report.

• There is no indication that a finding that is being repeated from the prior year’s report is a repeated finding.

Summary Schedule of Prior Audit Findings

• The prior year’s State Single Audit Report disclosed several significant deficiencies and reportable instances of noncompliance affecting major state programs and several significant deficiencies and reportable instances of noncompliance affecting the entity’s financial statements. The current year’s State Single Audit Reporting Package included a Summary Schedule of Prior Audit Findings describing the status of the audit findings from the prior year that affected the entity’s state financial assistance programs but the status of the audit findings from the prior year that affected the entity’s financial statements is not described. The Summary Schedule in the current year’s State Single Audit Reporting Package should have described the status of both the audit findings from the prior year that affected the entity’s major state programs and the audit findings from the prior year that affected the entity’s financial statements.

Corrective Action Plan

• The State Single Audit Report disclosed audit findings for which a corrective action plan was required to have been filed as part of the audit reporting package submitted but such a corrective action plan was not filed with the audit reporting package. In several cases, when contacted by OPM, the auditee appeared to incorrectly believe that the brief statement provided on the Schedule of Findings and Questioned Costs under the subheading “Management’s Response” or “Management’s Corrective Action Plan” met the requirements for a corrective action plan under the provisions of the State Single Audit Act. Corrective action plans are required when audit findings are identified on the Schedule of Findings and Questioned Costs that affect the nonstate entity’s state grant programs or the nonstate entity’s financial statements. It is not acceptable for the corrective action plan to be included as part of the Schedule of Findings and Questioned Costs.

Although the auditee is required to prepare the corrective action plan for it to be included in the audit reporting package, failure to include the corrective action plan with the audit reporting package can lead to additional work for independent auditors. If a corrective action plan was required but was not
filed with the audit reporting package uploaded to EARS, auditors will have to upload the corrective action plan on behalf of their clients at a later date on EARS and the audit report package will not be considered complete until the corrective action plan is filed. Auditors should therefore remind their clients of the need to prepare a fully developed corrective action plan for submission as part of the audit reporting package to be filed when audit findings requiring a corrective action plan are identified in the audit.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

- The Independent Auditor's report on the Financial Statements includes a modified opinion. Therefore, the report should reference a modified opinion in the introductory paragraph.
- The language provided in the internal control section of the Report is not in conformance with the latest AICPA reporting guidance, including the clarity standards.
- The language provided in the compliance section of the Report is not in conformance with the latest AICPA reporting guidance, including the clarity standards.
- The Report includes a “restricted use” alert instead of a “purpose” alert.

Report On Compliance With Requirements That Could Have a Direct and Material Effect on Each Major Program and On Internal Control Over Compliance in Accordance with the State Single Audit Act

- The compliance section of the Report does not conform with the latest guidance provided in the State Single Audit Compliance Supplement.
- The internal control section of the Report does not conform with the latest guidance provided in the State Single Audit Compliance Supplement.

Independent Auditor’s Report on the Financial Statements

- The Independent Auditor’s Report is not signed.
- The Independent Auditor’s Report is not dated or does not identify the city and state where the auditor practices.
- The Auditor’s Responsibility section of the Independent Auditor’s Report does not indicate that the audit was conducted in accordance with the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.
- The Independent Auditor’s Report does not include a section that contains a statement that the auditor has issued a report on the consideration of the entity’s internal control over financial reporting and on the tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters.
Miscellaneous

- The State Single Audit package (e.g. Municipal Audit Questionnaire, transmittal letter) indicates that a separate management letter was issued, but the management letter is not included in the reporting package submitted.
- A paper copy of the State Single Audit report was submitted to OPM as the cognizant state agency but an electronic version was not uploaded to OPM's electronic audit reporting system (EARS).
- An electronic version of the State Single Audit report package was uploaded to OPM's EARS but a paper copy of the report package was not submitted to OPM, as the cognizant state agency.
- The State Single Audit report that was previously submitted to OPM was revised by the independent auditor, but a revised report was not submitted to OPM and filed on OPM's electronic audit reporting system (EARS).
- OPM identified and communicated to the independent auditor a problem noted in its review of the State Single Audit report and indicated that the problem should be corrected by the independent auditor in the subsequent year's report. A review of the subsequent year's report continued to indicate incorrect reporting.
- Reference numbers are not used when referencing audit findings.
STATE SINGLE AUDIT

Pursuant to Sections 4-230 through 4-236 of the Connecticut General Statutes as amended by P.A. 09-7, each municipality, audited agency, tourism district and not-for-profit organization with a fiscal year beginning on or after July 1, 2009, that expends state financial assistance equal to or in excess of three hundred thousand dollars in any such fiscal year of the entity, shall have a single audit made for such fiscal year in accordance with the provisions of the above-referenced General Statutes. If total state financial assistance expended for the fiscal year is for a single state program, a program-specific audit may be conducted in lieu of a single audit provided such audit is allowed under the provisions of C.G.S. 4-231. Cognizant agencies must be notified of the Independent Auditor appointed to conduct the audit. Such notification must be made by the entity to be audited not later than thirty days before the end of the fiscal year of the entity. The Office of Policy and Management is the cognizant agency for municipalities, tourism districts, other governmental entities and nonprofit organizations under the State Single Audit Act. Refer to Part 13 of this Compliance Supplement for a listing of other cognizant agencies.

STATE SINGLE AUDIT - REPORTING PACKAGE

The State Single Audit report package must be filed by the auditee’s independent auditor within 30 days of completion of the audit report, if possible, but no later than six months after the end of the audit period unless an extension of time has been granted by the cognizant agency to file the State Single Audit report. As delineated in Section 4-236-25 of the Regulations to the State Single Audit Act, the State Single Audit reporting package to be submitted to the cognizant agency shall include the audited financial statements of the auditee, the State Single Audit reports and schedules, including reports prepared in accordance with applicable government auditing standards, the separately issued management letter, the corrective action plan prepared by the auditee to address the audit findings identified in the State Single Audit report, and the Summary Schedule of Prior Audit Findings prepared by the auditee, if applicable.
CORRECTIVE ACTION PLAN

Grant recipients are responsible for preparing a corrective action regarding audit findings reported in their State Single Audit Reports. The corrective action plan should include the name of the person responsible for corrective action, a detailed description of the planned corrective action, and the anticipated completion date for implementing the corrective action and resolving the audit finding. Although some elements of the corrective action plan is frequently summarized within the State Single Audit report and reported as “management’s response” to an audit finding, a fully detailed corrective action plan is required to be reported separately from the audit findings reported in the State Single Audit report. Therefore the corrective action plan should not be included in the Schedule of Findings and Questioned Cost but must be included in the audit reporting package submitted to the cognizant agency. Audit findings for which a corrective action plan is required include the following:

- Findings related to the financial statements required to reported in accordance with Government Auditing Standards (including significant deficiencies, material weaknesses, reportable/material instances of noncompliance and material abuse);
- Findings related to major state financial assistance programs required to be reported in accordance with the State Single Audit Act (including significant deficiencies, material weaknesses, and reportable/material instances of noncompliance);
- Known questioned costs exceeding one-thousand dollars regarding a type of compliance requirement of a major state program or known questioned costs exceeding one-thousand dollars for a state program not audited as a major program;
- Significant instances of abuse material to a major state program or abuse that is less than material to a major state program, but for which, in the auditor’s judgment, is of sufficient importance to communicate to management and those charged with governance;
- The circumstances why the independent auditor’s report on compliance over major state programs is other than an unmodified opinion (unless already reported as an audit finding); and
- Instances where the results of audit follow-up procedures reveals that the summary of prior audit findings prepared by the auditee materially misrepresents the status of any prior audit finding.

Each recipient should prepare its corrective action plan in a timely manner and present the corrective action plan to its independent auditor for inclusion in the State Single Audit reporting package submitted to the cognizant state agency. As a best practice, OPM recommends that the corrective action plan and the summary schedule of prior audit findings be presented on the auditee’s letter head. See Parts 10 and 11 of this Compliance Supplement for a sample format of the summary schedule of prior audit findings and corrective action plan, respectively.
OTHER AUDITING REQUIREMENTS

Municipalities and certain other municipal entities are required to file a financial audit report with OPM on an annual basis. The filing requirements for these entities are delineated in the Municipal Auditing Act as codified in Connecticut General Statutes, Section 7-391 through 7-397.

The federal government requires that certain governmental and nonprofit entities undergo a federal single audit of their federal awards expended on an annual basis. Federal awards can be provided directly by the federal government or as pass through funds from the State of Connecticut or other recipients. Federal expenditure thresholds for requiring a federal single audit are provided in OMB Uniform Guidance - Audit Requirements for Federal Awards dated December 26, 2013.

ELECTRONIC AUDIT REPORT SYSTEM (EARS)

EARS is a web site made available by the Municipal Finance Services Section of the Office of Policy and Management (OPM) to provide independent auditors an electronic process for uploading audit reports of their clients on-line. State grantor agencies and the public will be able to access and view the reports that have been filed on EARS.

The filing on EARS for all parts of the audit reporting package to be submitted to OPM is mandatory. On occasion, management letters and corrective action plans may not be available by the time the financial and State Single Audit reports are issued. In such circumstances, when these items are unavailable to be filed with the remaining portions of the State Single Audit Report package, they may be filed separately at a later date with OPM by the auditee’s independent auditor by uploading such items on EARS using the “Upload a Management Letter” or “Upload a Corrective Action Plan” feature.

Although EARS was first developed for the filing of State Single Audit reports, it has been reconfigured to allow for the filing of financial audit reports and federal single audit reports that would normally be filed with OPM or other state agencies whether or not a State Single Audit report is being filed. Further information is available on the EARS website.

In regard to the filing of State Single Audit reports, OPM as the cognizant state agency for most entities that are required to file a State Single Audit report does still require that a hardcopy of the audit report package be submitted to its Office by the required filing date in state law. State grantor agencies have agreed to use the State Single Audit Report package filed on-line on EARS in lieu of receiving a hardcopy of the reporting package from their grantees. State Single Audit reports should be filed on-line no later than the required filing date under state law (6-months subsequent to the entity’s fiscal year end or the extension date granted by the cognizant state agency).

The Electronic Audit Reporting System (EARS) can be accessed by going to the EARS website at: https://www.appsvcs.opm.ct.gov/Auditing/Home.aspx. Please contact the Municipal Finance Services Section of the Office of Policy and Management at 860-418-6400 if you should encounter any problems or have any questions.
PART 1

STATE OF CONNECTICUT
OFFICE OF POLICY AND MANAGEMENT
STATE SINGLE AUDIT ACT
COMPLIANCE CRITERIA

The following are the elements of compliance under the State Single Audit Act:

◊ Activities and costs allowed or unallowed
◊ Eligibility
◊ Matching, level of effort, or earmarking
◊ Reporting
◊ Subrecipient monitoring
◊ Special tests and provisions

**Internal Control**

In general, the auditor must plan the testing of internal control over compliance for major programs to support a low level of control risk for the assertions relevant to the compliance requirements for each major program. Professional standards do not define or quantify a low assessed level of control risk. Therefore, the auditor must use professional judgement to determine the procedures necessary to obtain a low level of control risk. If internal control over compliance for some or all of the compliance requirements for a major program are likely to be ineffective in preventing or detecting noncompliance, the auditor shall follow AICPA guidance.

Because of the diversity of systems employed by recipients of state awards, audit procedures to test internal control are not presented in this manual. The auditor must determine appropriate procedures to test internal control on a case by case basis. Common elements of an internal control system are presented below.

**Compliance**

Information on individual program compliance issues is presented in the Compliance Supplement in order to assist the auditor in developing an understanding of issues, which the grantor agency has identified as critical to ensuring compliance with applicable laws, regulations, contracts and agreements.

Audit procedures are provided below to assist auditors in planning and performing tests of compliance with requirements of State programs. Auditor judgment will be necessary to determine whether the suggested audit procedures are sufficient to achieve the stated audit objective and whether additional or alternative audit procedures are needed.

The suggested procedures are in lieu of specifying audit procedures for each of the programs included in the Compliance Supplement. This approach simplifies and reduces repetition of information, which is common to grant programs.
A. TYPES OF ACTIVITIES AND COSTS ALLOWED OR UNALLOWED

Specific requirements for activities and costs allowed or unallowed are determined for each State program based on laws, regulations, and the provisions of contract or grant agreements pertaining to the program. For programs included in the Compliance Supplement, the specific requirements are contained therein. For programs not included in the supplement, the auditor shall review the provisions governing the operation of the program and develop audit procedures to ensure that the program is administered in accordance with applicable laws, regulation, contract and or grant agreement which could have a direct and material effect on the program being audited.

Audit Objectives

Determine whether funds received under State awards were expended only for allowable activities and costs. Providers of health and human services contracts must follow OPM Cost Standards. OPM Cost Accounting Standards were issued in September 2006. If the Grantee’s contracts were amended to modify funding, or were new contracts that started on or after January 1, 2007, the OPM Cost Accounting Standards must be followed.

Cost allocation plans are required by the OPM Cost Accounting Standards.

(1) The plan must be designed in accordance with the OPM Cost Accounting Standards.
(2) The plan must be approved by the governing board.
(3) Actual costs must be charged in accordance with the plan.

Internal Control

Internal Control Considerations

Internal control over allowable activities and costs must be evaluated and tested by the auditor. A description of the components of internal control and examples of characteristics common to a system over activities and costs allowed or unallowed are presented below. The following does not represent a checklist of required internal control characteristics. An auditee could have adequate internal control even though some or all of the characteristics included below are not present. Auditors must use professional judgement in determining the most appropriate and cost effective internal control in a given environment or circumstance to provide reasonable assurance for compliance with State program requirements.
Control objectives

◊ Provide reasonable assurance that State awards are expended only for allowable activities and costs.
◊ Costs are reported in accordance with the Cost Allocation Plan.

Control environment

◊ Management sets reasonable budgets for State and non-State programs so that no incentive exists to miscode expenditures.
◊ Organization-wide cognizance of need for separate identification of allowable State costs.
◊ Management provides personnel approving expenditures with a list of allowable and unallowable expenditures.
◊ Management is made aware of the CAP.

Risk assessment

◊ Key manager has a sufficient understanding of staff, processes, and controls to identify where unallowable activities or costs could be charged to a State program and not be detected.
◊ Key management has a sufficient understanding of staff, processes and controls to determine that the cost allocation plan has been implemented properly.

Control activities

◊ Accountability provided for charges and costs between State and non-State activities.
◊ Process in place for timely updating of procedures for changes in activities allowed.
◊ Computations checked for accuracy.
◊ Supporting documentation compared to list of allowable and unallowable costs.
◊ Adequate segregation of duties.
◊ Accountability for authorization is fixed in an individual who is knowledgeable of the requirements for determining activities allowed.
◊ Procedures to prepare an annual CAP and to amend the CAP due changing programs.
◊ Supporting documentation of direct and allocated costs in accordance with the CAP.

Information and communication

◊ Reports, such as a comparison of budget to actual provided to appropriate management for review on a timely basis.
◊ Establishment of internal and external communication channels on activities.
Training programs, both formal and informal, provide knowledge and skills necessary to determine activities and costs allowed.

Interaction between management and staff regarding questioned costs.

Grant agreements and other pertinent information available to staff responsible for determining activities and costs allowed under the State program.

CAP is communicated to staff annually and upon modification of the CAP.

Monitoring

Management reviews supporting documentation of allowable activities and costs

Comparisons made with budget and expectations of allowable activities

Analytic reviews and audits performed

Management reviews charges to programs to determine adherence to the CAP.

Audit Requirement

The auditor is responsible for performing tests to document that the auditee’s assertions are being utilized. The extent and content of such tests are to be developed by the auditor based on professional judgement.

Compliance

Suggested Audit Procedures

1. Allowability of specific transactions and activities

- Identify the types of activities and costs which are either specifically allowed or prohibited by the laws, regulations, and the provisions of contract or grant agreements pertaining to the program.
- Select a sample of transactions and perform procedures to verify that the transactions were for an allowable activity or cost, and are reasonable and necessary.
- The auditor should be alert for transfers of funds from program accounts which may have been used to fund unallowable activities or costs.
2. Test the Cost Allocation plan for the following:
   A. The plan has been developed in accordance with the OPM Cost Standards;
   B. The plan has been approved annually by the governing board;
   C. Actual costs are charged to State programs in accordance with the plan.

3. If the program has subrecipients, test a sample of approved subrecipient agreements to verify that the activities and costs covered by the agreement were allowable.

B. ELIGIBILITY

Specific requirements for eligibility are determined for each State program based on laws, regulations, and the provisions of contract or grant agreements pertaining to the program. For programs included in the Compliance Supplement, eligibility requirements are contained therein. This compliance requirement specifies the criteria for determining the individuals, groups of individuals, or subrecipients that can participate in the program and the amounts for which they qualify. For programs not included in the supplement, the auditor shall review the provisions governing the operation of the program and develop audit procedures to ensure that the program is administered in accordance with applicable laws, regulation, and contract and or grant agreement which could have a direct and material effect on the program being audited.

Audit Objectives

Determine whether only eligible individuals or groups of individual participated in the program, subawards (if any) were made only to eligible subrecipients, and that amounts provided to or on behalf of eligible participants were calculated in accordance with program requirements.
Internal Control

Internal Control Considerations

Internal control over eligibility must be evaluated and tested by the auditor if they are relevant to the program being audited. A description of the components of internal control and examples of characteristics common to a system over eligibility are presented below. The following does not represent a checklist of required internal control characteristics. An auditee could have adequate internal control even though some or all of the characteristics included below are not present. Auditors must use professional judgement in determining the most appropriate and cost effective internal control in a given environment or circumstance to provide reasonable assurance for compliance with State program requirements.

◊ Control objectives
  ◇ Provide reasonable assurance that only eligible individuals and organizations receive assistance under State award programs, that sub-awards are made only to eligible subrecipients, and that amounts provided to or on behalf of participants were calculated in accordance with program requirements.

◊ Control environment

**Audit Requirement**

The auditor is responsible for performing tests to document that the auditee’s assertions are being utilized. The extent and content of such tests are to be developed by the auditor based on professional judgement.

**Compliance**

**Suggested Audit Procedures**

1. Eligibility of individuals
   ◊ Perform procedures to ascertain if the entity’s records/database includes all individuals receiving benefits during the audit period (e.g., that the population of individuals receiving benefits is complete).
   ◊ Select a sample of individuals receiving benefits and perform tests to ascertain if the:
     ◊ Specific individuals were eligible in accordance with the compliance requirement of the program.
     ◊ Benefits paid to or on behalf of the individuals were calculated correctly and in compliance with the requirements of the program.
     ◊ Benefits were discontinued when the period of eligibility expired.
2. Eligibility of subrecipients
   ◊ If the determination of eligibility is based upon an approved application or plan, obtain a copy of this document and identify the applicable eligibility requirements.
   ◊ Select a sample of the awards to subrecipients and perform procedures to verify that the subrecipients were eligible and amounts awarded were within funding limits.

C. MATCHING, LEVEL OF EFFORT, OR EARMARKING

Specific requirements for matching, level of effort, and earmarking are determined for each State program based on laws, regulations, and the provisions of contract or grant agreements pertaining to the program. For programs included in the Compliance Supplement, matching, level of effort and earmarking requirements are contained therein. This compliance requirement specifies the criteria for determining the following elements:

   ◊ Matching – requirement to provide cash or in-kind contributions (usually non-State) of a specified amount or percentage to match a State award.
   ◊ Level of effort – requirement for (a) a specified level of service to be provided from period to period, (b) a specified level of expenditures from non-State or State sources for specified activities to be maintained from period to period, and (c) State funds to supplement and not supplant non-State funding of services.
   ◊ Earmarking – requirements that specify the minimum and/or maximum amount or percentage of the program’s funding that must/may be used for specified activities, including funds provided to subrecipients.

For programs not included in the supplement, the auditor shall review the provisions governing the operation of the program and develop audit procedures to ensure that the program is administered in accordance with applicable laws, regulation, contract and or grant agreement which could have a direct and material effect on the program being audited.

Audit Objectives

Determine whether:
   ◊ Matching – minimum amount or percentage of contributions or matching funds was provided.
   ◊ Level of Effort – specified service or expenditure levels were maintained.
   ◊ Earmarking – minimum or maximum limits for specified purposes were met.
Internal Control

Internal Control Considerations

Internal control over matching, level of effort and earmarking must be evaluated and tested by the auditor if relevant to the program being audited. A description of the components of internal control and examples of characteristics common to a system over these elements are presented below. The following does not represent a checklist of required internal control characteristics. An auditee could have adequate internal control even though some or all of the characteristics included below are not present. Auditors must use professional judgement in determining the most appropriate and cost effective internal control in a given environment or circumstance to provide reasonable assurance for compliance with State program requirements.

◊ Control objectives
  ◊ Provide reasonable assurance that matching, level of effort, or earmarking requirements are met using only allowable funds or costs which are properly calculated and valued.

◊ Control environment
  ◊ Commitment from management to meet matching, level of effort, and earmarking requirements
  ◊ Budgeting process addresses/Provides adequate resources to meet goals
  ◊ Written policies exist which outline responsibilities for determining required amounts or limits, methods of valuing non-cash items (in-kind), allowable costs that may be claimed, methods of accounting for and documenting amounts used in calculations.

◊ Risk assessment
  ◊ Identification of areas where estimated values will be used
  ◊ Management has sufficient understanding of the accounting system to identify potential recording problems.

◊ Control activities
  ◊ Evidence obtained such as a certification from the donor, or other procedures performed to identify whether matching contributions are from non-State sources, involve State funding (directly or indirectly), and were used for another State-assisted program.

◊ Information and communication
  ◊ Accounting system capable of:
    ◊ Separately accounting for data used to support matching, level of effort, or earmarking amounts or limits or calculation.
    ◊ Ensuring that expenditures or expenses are properly classified and recorded only once as to their effect on matching, level of effort, or earmarking.
Documenting the value of “in-kind” contributions including, basis for local labor, payroll records or confirmation from other organizations for services provided by their employees, and quotes, published prices, or independent appraisals used as the basis for donated items.

Monitoring

Supervisory review of matching, level of effort, or earmarking activities performed to assess the accuracy and allowability of transactions and determinations, e.g., at the time reports on State awards are prepared.

Audit Requirement

The auditor is responsible for performing tests to document that the auditee’s assertions are being utilized. The extent and content of such tests are to be developed by the auditor based on professional judgment.

Compliance

Suggested Audit Procedures

1. Matching
   ◊ Perform tests to verify that the required matching contributions were met.
   ◊ Ascertain the sources of matching contributions and perform tests to verify that they were from an allowable source.
   ◊ Test records to corroborate that the values placed on in-kind contributions are in accordance with program requirements and the terms of the award.

2. Level of effort – maintenance of effort
   ◊ Identify the required level of effort and perform tests to verify that the level of effort requirement was met
   ◊ Perform tests to verify that only allowable categories of expenditures or other effort indicators were included in the computation and categories are consistent from year to year
   ◊ Perform procedures to verify that the amounts used in the computation were derived from the books and records from which the audited financial statements were prepared.
   ◊ Perform procedures to verify that non-monetary effort indicators were supported by official records.
3. Level of effort – supplement not supplant
   ◊ Ascertain if the entity used State funds to provide services which they were required to make available under Federal, State, or local law and were also made available by funds subject to a supplement not supplant requirement.
   ◊ Ascertain if the entity used State funds to provide services which were provided with non-State funds in the prior year

4. Earmarking
   ◊ Identify the applicable percentage or dollar requirements for earmarking.
   ◊ Perform procedures to verify that the amounts recorded in the financial records met the requirement.
   ◊ When earmarking requirements specify a minimum percentage or amount, select a sample of transactions supporting the specified amount or percentage and perform tests to verify proper classification to meet the minimum percentage or amount.
   ◊ When the earmarking requirements specify a maximum percentage or amount, review the financial records to identify transactions for the specified activity which were improperly classified in another account (e.g., if only 10 percent may be spent for administrative costs, review accounts for other than administrative costs to identify administrative cost which were improperly classified elsewhere and cause the maximum percentage or amount to be exceeded).
D. REPORTING

Recipients should use the standard financial reporting forms or such other forms as may be authorized by the State grantor agency. Forms may include financial, performance, and special reporting. Accrual or modified accrual basis of accounting (recognition of commitments and encumbrances) is generally required for reporting financial results of a State award. Generally, grantees maintain records on a cash basis and when appropriate record encumbrances and other commitments within the accounting system. Program end adjustments are normally required to convert such records to the appropriate reporting standards. For programs included in the Compliance Supplement, the specific requirements are contained therein. For programs not included in the supplement, the auditor shall review the provisions governing the operation of the program and develop audit procedures to ensure that the program is administered in accordance with applicable laws, regulation, contract and or grant agreement which could have a direct and material effect on the program being audited.

Audit Objectives

Determine whether required reports for State awards include all activity of the reporting period, are supported by applicable accounting or performance records, and are fairly presented in accordance with program requirements.

Internal Control

Internal Control Considerations

Internal control over reporting must be evaluated and tested by the auditor if relevant to the program being audited. A description of the components of internal control and examples of characteristics common to a system over reporting are presented below. The following does not represent a checklist of required internal control characteristics. An auditee could have adequate internal control even though some or all of the characteristics included below are not present. Auditors must use professional judgement in determining the most appropriate and cost effective internal control in a given environment or circumstance to provide reasonable assurance for compliance with State program requirements.

◊ Control objectives
  ◊ Provide reasonable assurance that reports of State awards include all activity of the reporting period, are supported by underlying accounting or performance records, and are fairly presented in accordance with program requirements.

◊ Control environment
  ◊ Persons preparing, reviewing, and approving the reports possess the required knowledge, skills, and abilities.
  ◊ Management’s attitude toward reporting promotes accurate and fair presentation.
  ◊ Appropriate assignment of responsibility and delegation of authority for reporting decisions.
Risk management

Mechanisms exist to identify risks of faulty reporting caused by such items as lack of current knowledge of, inconsistent application of, or carelessness or disregard for standards and reporting requirements of State awards.

Control activities

- Written policy exists that establishes responsibility and provides the procedures for periodic monitoring, verification, and reporting of program progress and accomplishments.
- Tracking system which reminds staff when reports are due
- The general ledger or other reliable records are the basis for the reports.
- Supervisory review of reports performed to assure accuracy and completeness of data and information.
- Appropriate accounting method is utilized.

Information and communication

- An accounting or information system that provides for the reliable processing of financial and performance information for State awards.

Monitoring

- Communications from external parties corroborate information included in the reports.
- Periodic comparison of reports to supporting records

Audit Responsibility

The auditor is responsible for performing tests to document that the auditee’s assertions are being utilized. The extent and content of such tests are to be developed by the auditor based on professional judgement.

Compliance

Suggested Audit Procedures

1. Review applicable laws, regulations, and the provisions of contract or grant agreements pertaining to the program for reporting requirements. Determine the types and frequency of required reports. Obtain and review State awarding agency, or pass-through entity, instructions for completing the reports.
   - For financial reports, trace the amounts reported to accounting records that support the audited financial statements and the schedule of expenditures of State awards and verify agreement or perform alternative procedures to verify the accuracy and completeness of the reports and that they agree with the accounting records.
For performance and special reports trace the data to records that accumulate and summarize data and perform test of the underlying data.

Test the selected reports for completeness

- For financial reports, review accounting records and ascertain if all applicable accounts were included in the sampled reports.
- For performance and special reports, review the supporting records and ascertain if all applicable data elements were included in the sampled reports.

For financial reports, ascertain the accounting basis used in reporting the data (cash or accrual)

For performance and special reports, determine the criteria and methodology used in compiling and reporting the data.

Perform appropriate analytical procedures and ascertain the reason for any unexpected differences.

- Compare current period reports to prior year reports.
- Compare anticipated results

Obtain written representation from management that the reports provided to the auditor are true copies of the reports submitted or electronically transmitted to the State awarding agency or pass-through entity in the case of a subrecipient.

E. SUBRECIPIENT MONITORING

In conducting an audit of a major state program for a particular entity, the auditor should determine whether state financial assistance received under the major program was passed through to a subrecipient. If this occurred, Subrecipient Monitoring would be a compliance requirement that should be evaluated by the auditor for compliance requirement testing.

A pass-through entity is responsible for (a) identifying to the subrecipient the State award information such as program identification number, proper title of program, and State source of funding, (b) monitoring the subrecipient’s activities to provide reasonable assurance that the subrecipient administers State awards in compliance with State requirements, (c) ensuring required audits are performed and requiring the subrecipient to take prompt corrective action on any audit findings, and (d) evaluating the impact of subrecipient activities on the pass-through entity’s ability to comply with applicable State regulations.

Audit Objectives

Determine whether the pass-through entity:

- Identified State award information and compliance requirements to the subrecipient.
- Monitored subrecipient activities to provide reasonable assurance that the subrecipient administers State awards in compliance with State requirements.
- Ensured required audits are performed and requires appropriate corrective action on monitoring and audit findings.
- Evaluated the impact of subrecipient activities on the pass-through entity.
Internal Control

Internal Control Considerations

Internal control over subrecipient monitoring must be evaluated and tested by the auditor if relevant to the program being audited. A description of the components of internal control and examples of characteristics common to a system over subrecipient monitoring is presented below. The following does not represent a checklist of required internal control characteristics. An auditee could have adequate internal control even though some or all of the characteristics included below are not present. Auditors must use professional judgement in determining the most appropriate and cost effective internal control in a given environment or circumstance to provide reasonable assurance for compliance with State program requirements.

◊ Control objectives
  ◊ Provide reasonable assurance that State award information and compliance requirements are identified to subrecipients, subrecipient activities are monitored, subrecipient audit findings are resolved, and the impact of any subrecipient noncompliance on the pass-through entity is evaluated.

◊ Control environment
  ◊ Management’s commitment to monitoring subrecipients.
  ◊ Organizational structure and ability to provide the necessary information flow to monitor subrecipients.
  ◊ Knowledge, skills, and abilities needed to accomplish subrecipient monitoring.

◊ Risk assessment
  ◊ Key managers understand the subrecipient’s environment, systems, and controls sufficient to identify the level and methods of monitoring required.
  ◊ Mechanisms exist to identify risks arising from external sources affecting subrecipients, such as risks related to economic conditions, political conditions, regulatory changes, etc.
  ◊ Mechanisms exist to identify and react to changes in subrecipients, such as financial problems, that could lead to diversion of grant funds, loss of essential personnel, organizational restructuring, etc.

◊ Control activities
  ◊ Identify to subrecipients applicable State award information.
  ◊ Include in agreements the requirements to comply with the compliance requirements applicable to the State program including the audit requirements.
◊ Subrecipient’s compliance with audit requirements monitored using techniques such as inquiry and discussions whether thresholds requiring an audit under the State Single Audit Act have been met, assuring that the subrecipient submits any audit reports to appropriate agencies.

◊ Subrecipient’s compliance with State program requirements monitored using techniques such as reviewing subrecipient reports, monitoring budgets, performing site visits, and offering technical assistance where needed.

◊ Written policies and procedures
  ◊ Process and procedures for monitoring
  ◊ Communication of State award requirements
  ◊ Audit report process

◊ Information and communication
  ◊ Standard award documents used by the entity
    ◊ Listing of State requirements that the subrecipient must follow.
    ◊ Description of program and identification of State program identification numbers.
    ◊ A statement signed by an official of the subrecipient, stating that the subrecipient was informed of, understands, and agrees to comply with the applicable compliance requirements.

◊ A recordkeeping system is in place to assure that documentation is retained for the time period required by the recipient.

◊ Procedures are in place to provide channels for subrecipients to communicate concerns to the pass-through entity.

◊ Monitoring
  ◊ Establish a tracking system to assure timely submission of required reporting, such as financial reports, performance reports, audit reports, on-site monitoring reviews of subrecipients, and timely resolution of audit findings.

◊ Supervisory reviews performed to determine the adequacy of subrecipient monitoring.
**Audit Requirement**

I. PROGRAM OBJECTIVES

The Special Contaminated Property Remediation and Insurance Fund (SCPRIF) is a loan program designed to help municipalities and businesses address site contamination problems and to assist in the reuse of “brownfield” sites. The Department of Economic and Community Development (DECD) and the Department of Environmental Protection (DEP) jointly administer the new Special Contaminated Property Remediation and Insurance Fund (SCPRIF). This program was created as a vehicle to redevelop commercial and industrial property that is underutilized due to possible site contamination by providing assistance to quantify remediation costs. The program provides loans to complete environmental site assessments and for the demolition of existing structures necessary to prepare property for reuse.

The objective of the program is to encourage public and private partnerships to jointly study, remediate, and redevelop previously used industrial and commercial properties. The program seeks to “level the playing field” for underutilized properties by clarifying the environmental conditions, preparing a work plan necessary to meet the appropriate environmental standards, and removing existing obstructions to reuse. The completion of these program activities will encourage private sector reuse of such sites by identifying obstacles to redevelopment. This program is being operated in a cooperative manner between DECD and DEP to assure that remediation and development issues are addressed in a coordinated manner. Loans awarded under this program may be forgiven under certain economic conditions.

II. PROGRAM PROCEDURES

Any municipality, corporation, business or individual is eligible to apply for SCPRIF funds except a person or entity that has created or continues to contribute to the contamination of a site. In such cases, the person(s) or entity must arrange sponsorship from the municipality where the site is located. Eligible activities include the preparation of Phase II Environmental Site Assessments, Phase III Environmental Site Investigations and Remedial Action Work Plans, and demolition activities including lead and asbestos abatement removal in “brownfield” areas that are necessary for property redevelopment. Any demolition activities must be subsequent to a Phase III Environmental Site Investigation.
Applications for financial assistance are approved by the SCPRIF Advisory Board, which in turn makes a recommendation for funding to the commissioner of DECD. DECD acts as a liaison with DEP staff during the review process. The recipient of SCPRIF funds will repay the state upon sale or lease of the property or upon approval of a final remedial action report in accordance with the terms of the program. In the event that the assessment determines that the redevelopment of the site is not feasible due to the cost of remediation, loans made under the program may be forgiven.

(Section 22a-133u, CGS)

A charter school is defined as a public, nonsectarian school which is established under a charter granted pursuant to state law; is organized as a nonprofit entity under state law; acts as a public agency; and operates independently of any local or regional board of education in accordance with the terms of its charter and the provisions of the charter school law.

(Sections 10-66aa through 10-66ll CGS)

A state charter school is a new public school approved by the State Board of Education.

Applications for local charters must first be made to the local board of education of the district in which the school will be located. The local board must vote on the application after holding a public hearing and surveying the teachers and parents in the school district to determine if there is sufficient interest. If approved, the local board shall forward the application to the State Board of Education for a vote. Applications for state charters must be submitted to the State Board of Education which must vote on the application after holding a public hearing in the school district in which the school will be located, and soliciting comments from the boards of education in which the school is to be located and those contiguous thereto.

State charter schools receive a fixed per pupil amount from the state for each student enrolled in the school pursuant to Section 10-66ee (c)(1) of the Connecticut General Statutes, as amended. Local charter schools receive a negotiated per pupil amount of funding from the local boards of education in which the students attending the charter school reside. In addition, charter schools would generally be eligible for competitive state grants administered by the State Department of Education and, in accordance with federal law, for any federal funds available for the education of pupils attending public schools.

I. PROGRAM OBJECTIVES

To provide financial assistance in the form of a congregate subsidy grant to assist in the payment of rent and to provide congregate support services which are necessary to enable semi-independent living in a residential setting for the frail elderly. These services include one main meal a day, housekeeping services, and a 24 hour emergency service. Personal care services to assist in delivery and enhancement of daily living activities are available to residents based on an individual evaluation and assessment of need. Provided services may be subsidized in whole or in part through the Department of Social Services (DSS) or the Department of Housing (DOH). Based on their financial circumstances, residents may also contribute towards the cost of personal care services.

II. PROGRAM PROCEDURES

Any Housing Authority, nonprofit organization, or private developer which operates a congregate housing facility may apply and contract for a congregate subsidy grant. The grant will provide a rental assistance payments component, a congregate core services component, an expanded core services component and an assisted living services component. The rental assistance component will assist residents paying in excess of thirty percent of their adjusted gross income toward base rent and utilities. The congregate core services component will offset the costs of congregate services not paid for by the tenants. Tenants will be required to pay an amount toward congregate services costs, based on their net income after allowances, in accordance with a formula approved by the Commissioner of Housing. The expanded core services component will be funded entirely with grant funds for the purpose of hiring a Resident Services Coordinator, and providing wellness/preventive programs along with emergency transportation for residents. The costs attributable to this component cannot exceed the amounts budgeted by each line item. The assisted living component is either funded in whole or in part by either DSS or DOH. An assessment of the tenant is conducted to determine the level of services required. Tenants may be required to pay a portion of their assisted living services based on their income/assets in accordance with a formula approved by DSS and DOH. Once an employer is approved for participation and hires its first STEP UP employee, coordinators collect timesheets and submit documentation to the Central WDB which issues payment as a reimbursement of up to $20 per hour of the employee’s wages. Reimbursements are made over the first six months of hire, on a sliding scale, up to a maximum of $12,500 per hire. I. PROGRAM OBJECTIVES

The objective of bonding funds issued by the Department of Mental Health and Addiction Services is to provide grants-in-aid by means of a contract to private nonprofit mental health and addiction services community providers. Public Act 05-194 allows an Urban Act Town that is not designated as a regional center under the State Plan of Conservation and Development to opt out of the Urban Action program and become a STEAP town for a period of four years. In order to make this change, the Office of Policy and Management must receive a letter requesting the change from Urban Act to STEAP as well as proof that the legislative body has approved such a change. Minutes from the legislative session as well as a resolution are acceptable methods of verification of the approval.

The Office of Policy and Management shall execute a Notice of Grant Award for approved projects. Each grantee shall submit a Grant Award Project Summary Form with the Notice of Grant Award.

I. PROGRAM OBJECTIVES

C.G.S. 10-76d(a) allows towns to bill Medicaid for certain School Based Child Health Services (SBCH) on a voluntary basis. Participating local education agencies (LEAs) submit cost and utilization data to the State which acts as a billing agent for Medicaid reimbursement. The State Department of Social Services (DSS) pays participating LEA based on its share of net Medicaid reimbursements.

II. PROGRAM PROCEDURES

Program procedures can be explained in detail by the School Based Child Health Services Program coordinator in each participating LEA.

III. COMPLIANCE REQUIREMENTS AND SUGGESTED AUDIT PROCEDURES

For state-agency placed pupils, special education pupils residing on state-owned or state leased property, pupils whose education costs exceed five times the district average per pupil cost, and for towns eligible for a Supplemental Special Education grant under Public Act 95-226, all compliance requirements and suggested audit procedures are included under the special procedures utilized for the Education Cost Sharing grant.

For Medicaid billing for certain School Based Child Health Services (per C.G.S. 10-76d(a)) compliance requirements and suggested audit procedures are as follows:
A. Types of Services and Costs Allowed or Disallowed

2. Monitor subrecipient activities to provide reasonable assurance that the subrecipient administers State awards in compliance with State requirements, e.g. review of financial and programmatic reports, on site monitoring visits.
3. Ensure that required subrecipient audits are performed and Corrective Action Plans adequately address any monitoring and audit findings.
4. Ensure that reported expenditures are in agreement with subrecipient financial records and are reconciled to the pass-through entity’s advances.

F. Special Tests and Provisions

Compliance Requirements
In order for services to be eligible for Medicaid reimbursement they must be included in an Individual Education Program (IEP), a triennial reevaluation, or after 7/1/16 a 504 Plan. Payment for initial assessment costs is allowed for assessments resulting in an approved IEP that includes these assessment activities until 6/30/16. After 7/1/16 assessments do not need to result in an IEP service for those assessment activities but the child must have an approved IEP/504 Plan. Social Services Regulations (Sections 17b-262-213 through 17b-262-224).

Suggested Audit Procedures
(1) Request the local education agency (LEA) to provide the most recent HP (Hewlett Packard) eligibility file to test eligibility. Effective April 2017, HP is now DXC.
(2) Verify the parental consent for the claimed children and determine that billed dates of services do not pre-date parental consent date.
(3) From the student census report select a sample of students and verify the presence of the following in each student’s file:
   A. A current Individualized Education Program (IEP), initial evaluation, triennial reevaluation, or 504 Plan (after 7/1/16) recommending a Medicaid eligible service.
   B. A Medicaid Service Information (MSI); Part 1 and Part 2 (For Specific Months).
   C. Session notes to support services billed.
(4) By comparing the MSIs to the IEP, initial evaluation/reevaluation report or 504 Plan (after 7/1/16), determine that the type of Medicaid and IEP eligible services documented on the MSIs were included on the IEP. A comparison of the frequency and intensity of services specified in the IEP (e.g., two 30 minute sessions of speech therapy per week) is not necessary.
(5) Request the LEA provide you with a copy of a current Remittance Advice (provided by DAS to the LEA upon request) which includes the students included in the above sample.
(6) By comparing the MSI forms in each student’s file to the Remittance Advice, determine that no service is listed on the Remittance Advice without the presence of a corresponding MSI form.

**Compliance Requirements**

The RMTS Participant Pool Report and Cost Report Registers/Employee Listing serve to provide DSS personnel with an accurate basis for allocating special education costs which appear in the LEA’s End of Year School Report (ED001) between various categories on the School Based Child Health Cost Report.

**Suggested Audit Procedures**

Request the Auditee to download copies of the RMTS Participant Pool Report from the UMASS time study/cost report system to ensure that individuals who submitted Medicaid claims were participating in the RMTS for the LEA being reviewed. If the auditee is unable to download the report, the report can be provided by DSS.

**Compliance Requirements**

For Medicaid rate setting purposes, all LEA’s must file a “School Based Child Health Cost Report” to the State of Connecticut, Department of Social Services or submit a Direct Medical Services Cost Report and Administrative Claim through the DSS vendor for FY2016 and future years.

Compliance Requirements

See Contract – Part I – FUNDING CONDITIONS FOR STATE BOND FUND PROJECTS: SECTION C. ASSURANCES AS TO USE.

The standard contract requires that property that is purchased and/or improved with State Bond Funds be used as approved by the State Bond Commission for at least ten years. If the facility ceases to be used as intended within ten years of the date of the final payment, the contract specifies that the funds must be repaid to the State minus 10% for each full year that the facility was used for the intended purpose. The contract requires that a lien be placed on the property, in favor of the State, “when required by law”.

Bond Funds for DSS use are authorized by Public Act or Special Act. Traditionally, when funds are authorized for Neighborhood Facilities in fund 12052 (formerly 1873), the Act contains language that requires a lien if the grant is made to a non-profit agency; unless the premises for which the grant was made is owned by the State, a municipality or a housing authority. Grants made to municipalities do not require a lien.

As an example, Public Act 99-242 provided funds for DSS in Sections 13(f) and 32. Sections 19 and 38 contain the requirement for a lien with exceptions as noted above.

Public and Special Acts that authorize funds for DSS for Fund accounts 13019 (formerly 3795), 12055 (formerly 1879) and 12047 (formerly 1843) have not contained a lien requirement.

The contract will contain a copy of the Bond Commission “agenda item” as it was approved. The Public or Special Act from which funds are provided will be noted and the section containing the lien requirement will be noted.

Suggested Audit Procedures
(1) Determine that the proper lien has been filed and forwarded to DSS, when required.
(2) Determine that the property is being used in accordance with the contract requirements.

D. Special Reporting Requirements

There are no special reporting requirements.

E. Subrecipient Monitoring

Compliance Requirements
Contractors that pass through funds to subrecipients are required to perform the following activities:

1) Identify State award information and compliance requirements to the subrecipient.
2) Monitor subrecipient activities to provide reasonable assurance that the subrecipient administers State awards in compliance with State requirements, e.g. review of financial and programmatic reports, on site monitoring visits.
3) Ensure that required subrecipient audits are performed and Corrective Action Plans adequately address any monitoring and audit findings.
4) Ensure that reported expenditures are in agreement with subrecipient financial records and are reconciled to the pass-through entity’s advances.

I. PROGRAM OBJECTIVES

The purpose of the new Local Transportation Capital Improvement Program (LOTCIP) is to provide State monies to urbanized area municipal governments in lieu of Federal funds otherwise available through the Federal transportation legislation. The LOTCIP is provided for in Section 74 of Public Act 13-239. The new LOTCIP program is established with substantially fewer constraints and requirements, than currently exist when using Federal Title 23 USC funds. The Connecticut Department of Transportation envisions two main benefits to this proposal:

1. The ability of municipalities to perform capital improvements with less burdensome requirements, i.e. do it their way; and

2. Better utilization of State resources (staff) in the Federal-aid program on more regionally significant improvements on State owned facilities. The Federal monies typically used for improvements on municipal owned facilities in the Surface Transportation Program (STP) Urban program may be utilized by the Department for eligible activities predominantly on State owned assets.

To become familiar with the LOTCIP program the following link is provided: http://www.ct.gov/dot/lib/dot/documents/dconsultdesign/LOTCIP_guidelines_March_2016.pdf

II. PROGRAM PROCEDURES

The program guidelines have been developed in a joint and cooperative effort by members of the Department of Transportation, Regional Planning Organizations (RPO), and municipalities of the state. The guidelines in their draft form were distributed to the urbanized RPO’s for review and comment prior to the effective date of the LOTCIP program. The Department’s guiding charge was to develop a program whose parameters reasonably satisfy Department, RPO, and Municipality needs. Our goals are to ensure a quality long term capital improvement with minimal Department of Transportation oversight and to maintain flexibility. (Section 74 of Public Act 13-239)

Projects must meet the eligibility requirements of the Federal STP-Urban Program, such as being located on a roadway classified as a collector or higher. The Functional Classification Map is available on the Department’s website at http://www.ct.gov/dot/maps.
Compliance Requirements
The following are modifications to eligibility requirements:

1. The RPOs will be allowed to allocate a maximum of 15% of their annual LOTCIP funds or $500,000 total project cost, whichever is greater, to pavement preservation, pavement rehabilitation, and exclusive (stand-alone) sidewalk projects covered by these guidelines. That is, an RPO may pursue a combination of new sidewalk and pavement rehabilitation projects for up to 15% of its annual funding, but not 15% for each type of project. Note that full depth reconstruction, where warranted, is exempt from this cap.

2. Although transportation enhancement/alternative projects will be eligible for LOTCIP funding without an explicit cap initially, it is expected that the RPOs will limit funding allocation to such projects to a reasonable level.

3. Projects must have a minimum construction cost of $300,000 to qualify for LOTCIP funding.

4. Planning studies may be eligible for LOTCIP as a funding source, subject to the Department's current Planning Study Process, and will not be administered in accordance with the LOTCIP guidelines.

III. COMPLIANCE REQUIREMENTS AND SUGGESTED AUDIT PROCEDURES

A. Types of Services and Costs Allowed or Disallowed

Compliance Requirements
Refer to the Contract for allowable costs and services.

B. Eligibility

The auditor is not expected to test for eligibility.

C. Matching, Level-of-Effort, and/or Earmarking Requirements

Compliance Requirements
The intent of this new State funded program is for it to be a stand-alone program to replace the use of Federal STP Urban funding by the municipalities, resulting in a faster and simpler process for completing capital improvements. Funding received under this program, therefore, is not eligible to be used as local matching funds for receipt of other Federal funds. However, in cooperation with the RPO, LOTCIP funds can be used as a source of construction funds for larger Department of Transportation sponsored federally funded projects.
D. Special Reporting Requirements

Compliance Requirements

1. Expenditures directly related to the LOTCIP must be identified separately by the auditee from other State financial assistance using the *Local Transportation Capital Improvement Program Expenditure Summary Form* and submitted to the Department of Transportation with a copy of the single audit. A copy of this form will be provided to the municipality upon execution of the PAL. Failure to provide an audit is an event of default under the Municipal/State Project Agreement and may result in the Department of Transportation requesting the return of the grant and may impact the municipality’s future eligibility in the LOTCIP.

2. It is expected that projects will commence and be completed in a timely manner. In order for the Department to monitor project progress, quarterly updates are to be provided to the Department in the format provided in Appendix J. The RPO must compile and submit the necessary information from their member municipalities for all approved projects under the LOTCIP, as this information is critical to program monitoring and program transparency. Project progress, quarterly estimated design completion, cost, and advertising schedule updates will be critical to program monitoring. Quarterly Reports must be submitted to the contact listed in these guidelines within two weeks after the end of a quarter.

E. Subrecipient Monitoring

The auditor is not expected to test for Subrecipient Monitoring.

There are no special tests or provisions for the auditor to perform.

(2) Review inventory records of the Transit District to identify the disposal of Transit vehicles and equipment. Determine that the Transit District received prior written approval from the State to dispose of the subject capital equipment. If any capital equipment is sold by the Transit District, the State shall receive a percentage of the net proceeds from the sale in an amount to be determined by the State.

Compliance Requirements
Funds are to be used by 1) transit operators for costs to operate and maintain public transportation services and 2) a nonprofit transportation broker to provide customized transportation services that provide access to employment such as bus tickets, mileage reimbursement, van passes and/or car-based solutions, and for administrative costs.

B. Eligibility

Compliance Requirements
1. The auditor is not expected to test for eligibility in public transportation services provided by transit operators.
2. The nonprofit transportation broker must receive a direct referral from social service agencies that determine eligibility for an individual to receive customized transportation services, based on established criteria and income thresholds.

C. Matching, Level-of-Effort, and/or Earmarking Requirements

F. Special Tests and Provisions

There are no special tests or provisions for the auditor to perform.
PART 3

GUIDANCE FOR AUDITING PROGRAMS
NOT INCLUDED IN THIS COMPLIANCE SUPPLEMENT

Purpose - Section 4-236-6 of the Regulations to the State Single Audit Act states that for those State programs not covered in the compliance supplement, the auditor should use the types of compliance requirements contained in the compliance supplement (see the 6 types of compliance requirements described in Part 1 of this Supplement) as guidance for identifying the types of compliance requirements to test, and determine the requirements governing the State program by reviewing the provisions of contract and grant agreements and the laws and regulations referred to in such contract and grant agreements.

The purpose of this Part is to provide the auditor with guidance on how to identify the applicable compliance requirements for programs not included in this Supplement for state single audits and for program-specific audits when a program-specific audit guide is not available. This Supplement does not include all state programs. Therefore, it is likely that the auditor will encounter programs that the auditor is required to test as major programs that are not included in this Supplement. For this reason, the following guidance is provided for the auditor to identify those compliance requirements that should be tested.

Review of Compliance Requirements - In determining the compliance requirements to test for programs not included in this Supplement, the auditor shall refer to Part 1 of this Supplement. Part 1 identifies and describes the 6 types of compliance requirements where noncompliance may have a direct and material effect on a State program and provides audit objectives and suggested audit procedures. The 6 types of compliance requirements are:

A. Activities and Costs Allowed or Unallowed
B. Eligibility
C. Matching, Level of Effort, Earmarking
D. Reporting
E. Subrecipient Monitoring
F. Special Tests and Provisions

For programs not included in this Supplement, the auditor must determine the applicable compliance requirements. While a State program may have many compliance requirements, normally there are only a few key compliance requirements that could have a direct and material effect on the program. Since the single audit process is not intended to cover every compliance requirement, this Supplement and the auditor's focus should be on the 6 types of compliance requirements listed in Part 1. The following are suggested procedures to assist the auditor in making this determination.
Although the focus of this Supplement is on compliance requirements that could have a direct and material effect on a major program, auditors also have responsibility under *Generally Accepted Government Auditing Standards* (GAGAS) for other requirements when specific information comes to the auditors' attention that provides evidence concerning the existence of possible noncompliance that could have a material indirect effect on a major program.

**Steps for Identifying Compliance Requirements**

Determining what compliance requirements to test involves several steps. The auditor should address the following questions:

1. What are the program objectives, program procedures, and compliance requirements for a specific program?
2. Which of the compliance requirements could have a direct and material effect on the program?
3. Which of the compliance requirements are susceptible to testing by the auditor?
4. Into which of the 6 types of compliance requirements does each compliance requirement fall?
5. For Special Tests and Provisions, what are the applicable audit objectives and audit procedures?

1. **What are the program objectives, program procedures, and compliance requirements for a specific program?**

The first step is to gain an understanding of how the program works (e.g., the program objectives and procedures) and determine what laws, regulations, and provisions of contract or grant agreements (compliance requirements) apply to the program. The auditor should consider the following steps:

a. Discuss the program with the nonstate entity and, if necessary, the State awarding agency or, in the case of a subrecipient, the pass-through entity.

b. Review the contract and grant agreements and referenced laws and regulations applicable to the program, including any amendments or closeout agreements. The documents or agreements may identify the name and telephone number of a State contact person or, if a subaward, the contact person for the pass-through entity whom the auditor may wish to contact for additional information.
Note: The auditor should be aware that a particular nonstate entity or State award may be subject to provisions that are unique to that entity or award. For example, previous noncompliance by a nonstate entity may result in additional requirements to which the nonstate entity must adhere, in order to continue its participation in the State program. Such provisions would generally not be based on laws and regulations applicable to all awards under the State program. Reasonable procedures to identify such compliance requirements would be inquiry of nonstate entity management and review of the contract and grant agreements pertaining to the program. Any such requirements identified, which could have a direct and material effect on a major program, should be included in the audit.

c. If there is a program-specific audit guide or other audit guidance issued by the State awarding agency, the auditor may wish to consider this guidance in identifying the program objectives, program procedures, and compliance requirements. The availability of program audit guides can be determined by contacting State awarding agencies.

d. Consider other audit guidance, including previously issued guidance, pertaining to the program that has continuing relevance.

2. Which of the compliance requirements could have a direct and material effect on the program?

 Generally Accepted Government Auditing Standards require that the auditor plan the audit to provide reasonable assurance that the financial statements are free of material misstatement resulting from violations of laws and regulations that have a direct and material effect on the determination of financial statement amounts. The State Single Audit Act requires the auditor to perform procedures to determine whether the nonstate entity has complied with laws, regulations, and the provisions of contract or grant agreements that could have a direct and material effect on each major program. Therefore, the auditor must determine which compliance requirements could have a direct and material effect on each major program.

In assessing materiality, the auditor should consider that materiality is based on qualitative as well as quantitative aspects. Also, the auditor should consider whether to set materiality at lower levels in audits of State programs than private sector audits of financial statements due to the visibility and sensitivity of such programs. Examples of characteristics indicative of compliance requirements that could have a direct and material effect on a major program include:
• Noncompliance could likely result in questioned costs.
• The requirement affects a large part of the State program (e.g., a material amount of program dollars).
• Noncompliance could cause the State agency, or pass-through entity in the case of a subrecipient, to take action, such as seeking reimbursement of all or a part of the award and suspending the recipient's or subrecipient's participation in the program.

3. Which of the compliance requirements are susceptible to testing by the auditor?

The auditor is only expected to test compliance for those requirements which are susceptible to testing by the auditor (i.e., the requirements can be evaluated against objective criteria, and the auditor can reasonably be expected to have sufficient basis for recognizing noncompliance). Further, the auditor would not be expected to test for compliance with requirements that the State awarding agency should have the ability to verify in the normal course of administering the program (e.g., if the requirement is that the nonstate entity must file a report by a certain date, the State awarding agency should know whether it received the report on time). Characteristics of compliance requirements that auditors are typically expected to test include those:

• Which are practical to test.
• With objective criteria available for the auditor to assess compliance.
• Where an audit objective can be written that supports an opinion on compliance.

• When testing adds value, for example:
  • It is likely that the auditor could document the noncompliance in a manner that: (1) permits the State awarding agency or pass-through entity to take action, or (2) gives the State awarding agency or pass-through entity an early warning to initiate a monitoring visit or other contact with the nonstate entity.
  • The State awarding agency or pass-through entity does not otherwise have information that verifies compliance.
4. Into which of the 6 types of compliance requirements does each compliance requirement fall?

The auditor shall use the 6 types of compliance requirements listed for identifying which requirements applicable to the program are subject to testing. Not all compliance requirements apply to all state programs. Conversely, certain types apply to the majority of state programs.

(a) **Services and Costs Allowed or Disallowed** applies to the majority of State programs. The auditor should look at the program requirements and State award documents for what constitutes allowable or disallowable services and costs.

(b) **Eligibility** applies to most State programs which provide benefits to individuals, groups of individuals, or make subawards. For programs with eligibility requirements, the auditor should review the program laws, regulations, and provisions of contract or grant agreements to determine the specific eligibility requirements. Eligibility involves not only individuals but also possibly groups of individuals, geographical areas, or subrecipients. Additionally, the auditor should consider whether continuing, as well as initial, eligibility requirements apply. Furthermore, eligibility involves both who is eligible and the amount of benefits provided to the eligible.

(c) **Matching, Level of Effort, Earmarking** is not universal, and, if applicable, would be specific to the State program and often the nonstate entity. Therefore, the auditor will have to review the laws, regulations, contract or grant agreements applicable to the program to determine specific requirements for matching, level of effort, and/or earmarking.

(d) **Reporting** applies to the majority of State programs. However, often the nonstate entity or the pass-through entity has developed its own forms for financial reporting in addition to or in lieu of the standard State financial reports. The auditor should determine whether the standard reports are used, and if not, what forms are used to report the same or similar information. The auditor should be aware that reporting may include electronic submissions for which there may be no physical document.

For performance reporting and special reporting, if there is a program in this Supplement funded by the same State agency that requires the same performance or special reporting required by the program for which the auditor is seeking to identify compliance requirements, and this Supplement requires testing of those data, then the auditor should use such guidance in identifying compliance requirements to test. Otherwise, the auditor is only required to test financial reporting.
(e) **Subrecipient Monitoring** applies when State awards are passed through from a pass-through entity to a subrecipient. If the entity does not pass State awards on to a subrecipient, this requirement does not apply.

(f) **Special Tests and Provisions** includes those compliance requirements that do not fit the description of the types of compliance requirements discussed above. These will generally be the most difficult type of compliance requirement to identify because, by definition, they are unique to each program. In addition to reviewing the program's contract and grant agreements and referenced laws and regulations, the auditor should also make inquiries of the nonstate entity to help identify and understand Special Tests and Provisions.

For each of the types of compliance requirements listed above, except for Special Tests and Provisions, the auditor shall consider the compliance requirements and related audit objectives in Part 1. In making a determination not to test a compliance requirement, the auditor must conclude that the requirement either does not apply to the particular nonstate entity or that noncompliance with the requirement could not have a material effect on a major program (e.g., the auditor would not be expected to test Eligibility for a major program if all the individuals that could possibly be ineligible would constitute a small number of the total participants and the related dollar amount involved for the possible ineligible individuals is considered a small amount for the program). The suggested audit procedures in Part 1 are provided to assist auditors in planning and performing tests of nonstate entity compliance with the requirements of State programs. Auditor judgment will be necessary to determine whether the suggested audit procedures are sufficient to achieve the stated audit objective and whether additional or alternative audit procedures are needed.

This Supplement does not provide audit procedures to test internal control due to the diversity of systems employed by nonstate entities. The common elements of an internal control system however, for the 6 compliance requirements, are presented in Part 1 of this Supplement. The auditor must determine appropriate procedures to test internal control on a case by case basis considering factors such as the nonstate entity's internal control, the compliance requirements, the audit objectives for compliance, the auditor's assessment of control risk, and the audit requirement to test internal control as prescribed in the Regulations to the State Single Audit Act.
For each of the types of compliance requirements discussed above, Part 1 of the Supplement includes generic audit objectives and suggested audit procedures, except for Special Tests and Provisions. As noted above, Special Tests and Provisions are sufficiently unique to every program that generic audit objectives and suggested audit procedures are not practicable. Therefore, the auditor will have to develop audit objectives and audit procedures for each identified Special Test and Provision using the guidance described in Part 1 under Special Tests and Provisions.
**EXEMPT PROGRAMS**

*Exempt Programs*

Section 4-230 of the State Single Audit Act provides that exempt state programs are excluded from being major state programs. An exempt program is a state program designated to be exempt by the Secretary of the Office of Policy and Management, after consultation with the Auditors of Public Accounts and the commissioner of the state agency that awarded the state financial assistance. Such programs are required under the State Single Audit Act to be identified in the Compliance Supplement.

The Secretary of OPM has designated the following as Exempt Programs:

MAJOR PROGRAM DETERMINATION

INSTRUCTIONS TO INDEPENDENT AUDITORS
FOR DETERMINING MAJOR STATE PROGRAMS,
RISK ASSESSMENT AND DOCUMENTATION ...............................................1

COMPREHENSIVE EXAMPLE.............................................................................2
SUBPART A - Determining Major State Programs In Accordance with the State Single Audit Act

Statutory Provisions: Section 4-230 of the Connecticut General Statutes states that a “major state program means any program, excluding an exempt program, determined to be a major state program by the independent auditor pursuant to the requirements of the risk-based approach”. Furthermore, section 4-235 of the Connecticut General Statutes states that the Secretary of the Office of Policy and Management “shall periodically issue a state single audit compliance supplement containing information to assist independent auditors in conducting state single audits. Such information shall include, but is not limited to, identification of state financial assistance programs and their significant compliance requirements, suggested audit procedures for determining compliance, exempt programs and information relevant to the risk-based approach for use in determining major state programs”.

Process: In accordance with the above provisions of the Connecticut General Statutes the following process shall be followed by the independent auditor in the determination of major state programs.

Step 1. The independent auditor shall identify exempt programs and determine the amount of state financial assistance expended under each such program for the period under audit. Exempt programs cannot be considered a major state program and therefore shall be excluded from being considered a Type A or Type B program under the risk-based approach.

Step 2. The independent auditor shall identify the larger nonexempt state programs, which shall be labeled as “Type A” programs according to the following criteria:

   a) For auditees with total nonexempt state program expenditures of less than or equal to $1,000,000 for the audit period, a Type A program shall be considered a nonexempt state program for which the amount of state financial assistance expended under the program for the audit period is equal to or in excess of $100,000;
   b) For auditees with total nonexempt state program expenditures exceeding $1,000,000 for the audit period, a Type A program shall be considered a nonexempt state program for which the amount of state financial assistance expended under the program for the audit period equals or exceeds the larger of $200,000 or two percent (2%) of the nonstate entity’s total nonexempt state financial assistance program expenditures;

Step 3. Nonexempt state programs not labeled as Type A programs shall be considered Type B programs.

Step 4. The independent auditor shall identify Type A programs which are low-risk. For a Type A program to be considered low-risk, it shall have been audited as a major state program in at least one of the two most recent audit periods and, in the most recent audit period, it shall have had no reportable audit findings under Section 4-236-24(a) of the Regulations to the State Single Audit Act. In addition, the independent auditor shall use professional judgment in determining whether a Type A program is low-risk. In applying professional judgment, the independent auditor shall consider the criteria provided in Subpart C of this
part (“criteria for state program risk”), the results of audit follow-up; and whether any changes in personnel or systems affecting a Type A program have significantly increased risk.

b) Notwithstanding step 4(a) of this Subpart, the Secretary of the Office of Policy and Management may approve a state awarding agency’s request that a Type A program at a certain recipient(s) may not be considered low-risk. In such unique and rare circumstances, the state agency shall notify the nonstate entity and, if known, the independent auditor at least 180 days prior to the end of the fiscal year to be audited of the Secretary’s approval.

Step 5.

a) The independent auditor shall identify Type B programs which are high risk using professional judgment. In applying professional judgment, the independent auditor shall consider the criteria in Subpart C of this Part (“criteria for state program risk”) in determining whether a Type B program is high-risk. However, should the independent auditor select Option 2 under step 6 of this Subpart, the independent auditor is not required to identify more high-risk Type B programs than the number of low-risk Type A programs.

b) The independent auditor is not expected to perform risk assessments on relatively small state programs. Therefore, the independent auditor is only required to perform risk assessments on Type B programs with state financial assistance expenditures that exceed twenty-five thousand dollars ($25,000).
Step 6. At a minimum the auditor shall audit all of the following as major state programs:
   a) All Type A programs, except the auditor may exclude any low-risk Type A programs identified under step 4 of this Subpart.
   b) High-risk Type B programs as identified under either of the two following options listed below:
      1) **Option 1.** At least one half of the Type B programs identified as high-risk in step 5 of this Subpart, except the auditor is not required to audit more high-risk Type B programs than the number of low-risk Type A programs identified in step 4 of this Subpart. In identifying which high-risk Type B programs to audit as major state programs under this option, the independent auditor is encouraged to use an approach which provides an opportunity for different high-risk Type B programs to be audited as major over a period of time.
      2) **Option 2.** One high-risk Type B program for each low-risk Type A program identified in step 4 of this Subpart. In identifying which high-risk Type B programs to audit as major state programs under this option, the independent auditor is encouraged to use an approach which provides an opportunity for different high-risk Type B programs to be audited as major over a period of time.
   c) Additional programs as may be necessary to provide audit coverage of at least fifty percent (50%) of the auditee’s total nonexempt state program expenditures for the audit period. Such additional programs shall be audited as major state programs. This provision may require the independent auditor to audit more programs as major than the number of Type A programs.
SUBPART B – Independent Auditor’s Judgment and Documentation of Risk, Deviation from Risk Criteria

Auditor Judgment and Documentation: The Regulations to the State Single Audit Act requires the independent auditor to document in the working papers the risk analysis process used in determining major state programs, as such the independent auditor shall provide such documentation in the working papers. When the major state program determination is performed and documented in accordance with this Part, the independent auditor’s judgment in applying the risk-based approach shall be presumed to be correct. Challenges by state agencies and pass-through entities shall be for clearly improper use of the instructions in this part. However, guidance may be provided by state agencies and pass-through entities about the risk regarding a particular state program and the independent auditor shall consider this guidance in determining major programs for audits not yet completed.

Deviation from Using Risk Criteria: In conducting first-year audits, the independent auditor may elect to determine major state programs as all Type A programs plus any Type B programs necessary to meet the 50% of coverage rule provided in step 6c of Subpart A of this Part. Under this option, the independent auditor would not be required to perform the procedures provided in steps 4, 5, and 6 in Subpart A of this Part.

a) A first-year audit is the first year the nonstate entity is audited under this Part or the first year of a change in independent auditor.

b) To ensure that a frequent change of independent auditors would not preclude the auditing of high-risk Type B programs, the election for first-year audits may not be used by an auditee more than once in every three years.
SUBPART C – Criteria for State Program Risk

a) **General.** The auditor's determination should be based on an overall evaluation of the risk of noncompliance occurring which could be material to the State program. The auditor shall use auditor judgment and consider criteria, such as described in paragraphs (b), (c), and (d) of this section, to identify risk in State programs. Also, as part of the risk analysis, the auditor may wish to discuss a particular State program with auditee management and the State agency or pass-through entity.

b) **Current and prior audit experience.**
   1) Weaknesses in internal control over State programs would indicate higher risk. Consideration should be given to the control environment over State programs and such factors as the expectation of management's adherence to applicable laws and regulations and the provisions of contracts and grant agreements and the competence and experience of personnel who administer the State programs.
      i. A State program administered under multiple internal control structures may have higher risk. When assessing risk in a large single audit, the auditor shall consider whether weaknesses are isolated in a single operating unit (e.g., one college campus) or pervasive throughout the entity.
      ii. When significant parts of a State program are passed through to subrecipients, a weak system for monitoring subrecipients would indicate higher risk.
      iii. The extent to which computer processing is used to administer State programs, as well as the complexity of that processing, should be considered by the auditor in assessing risk. New and recently modified computer systems may also indicate risk.
   2) Prior audit findings would indicate higher risk, particularly when the situations identified in the audit findings could have a significant impact on a State program or have not been corrected.
   3) State programs not recently audited as major programs may be of higher risk than State programs recently audited as major programs without audit findings.
c) **Oversight exercised by State agencies and pass-through entities.**
   1) Oversight exercised by State agencies or pass-through entities could indicate risk. For example, recent monitoring or other reviews performed by an oversight entity which disclosed no significant problems would indicate lower risk. However, monitoring which disclosed significant problems would indicate higher risk.
   2) State agencies, with the concurrence of OPM, may identify State programs which are higher risk. OPM plans to provide this identification in the compliance supplement.

d) **Inherent risk of the State program.**
   1) The nature of a State program may indicate risk. Consideration should be given to the complexity of the program and the extent to which the State program contracts for goods and services. For example, State programs that disburse funds through third party contracts or have eligibility criteria may be of higher risk. State programs primarily involving staff payroll costs may have a high-risk for time and effort reporting, but otherwise be at low-risk.
   2) The phase of a State program in its life cycle at the State agency may indicate risk. For example, a new State program with new or interim regulations may have higher risk than an established program with time-tested regulations. Also, significant changes in State programs, laws, regulations, or the provisions of contracts or grant agreements may increase risk.
   3) The phase of a State program in its life cycle at the auditee may indicate risk. For example, during the first and last years that an auditee participates in a State program, the risk may be higher due to start-up or closeout of program activities and staff.
   4) Type B programs with larger State awards expended would be of higher risk than programs with substantially smaller State awards expended.
MAJOR STATE PROGRAM DETERMINATION:

**Steps of Risk-Based Approach — Step 1**

- Identify each nonexempt state program for which expenditures of state financial assistance was made during the year under audit
  - Exempt programs are excluded from the risk-based approach determination of major programs and cannot be considered a Type A or Type B program

**Steps of Risk-Based Approach — Step 2**

- Identify Type A programs based on total nonexempt State Financial Assistance (SFA) expended:
  - Expenditures less than or equal to $1.0 mil - $100k Expenditures
  - Expenditures over $1.0 mil - Greater of $200k or 2.0% of nonexempt SFA Expenditures

**Steps of Risk-Based Approach — Step 3**

- All other nonexempt state programs are labeled Type B

**Steps of Risk-Based Approach — Step 4**

- Identify *low*-risk Type A programs
  - Audited as a major program in 1 of 2 most recent years
  - In most recent year, no audit findings that are:
    - Significant deficiencies in internal control
    - Reportable/Material noncompliance with laws & regulations
    - Known questioned costs > $1,000
    - Known questioned costs when likely questioned costs > $1,000
    - Known fraud
    - Misrepresentations by auditee in summary schedule of prior audit findings
    - Use auditor judgment and criteria for State program risk provided in SSA Compliance Supplement
  - Certain Type A programs may not be considered low-risk

**Steps of Risk-Based Approach — Step 5**

- Identify *high*-risk Type B programs
  - Use auditor judgment and criteria for State program risk provided in SSA Compliance Supplement
  - Risk assessments are not needed for small Type B programs (generally, programs of $25k or less)
Criteria for State Program Risk – See Part 5, Sec. 1.4-1.5 of the SSA Compliance Supplement
(to be used in Steps 4 and 5)

- Current and prior audit experience:
  - Weaknesses in controls over a State financial assistance program
  - Multiple operating units administering a State program
  - Significant subrecipients
  - Complexity of EDP systems (new or recently changed)
  - Prior audit findings
  - No recent audit

- Oversight by State agencies and pass-through entities (agency may identify programs at higher risk in the SSA Compliance Supplement)

- Inherent risk (program complexity, phase in life cycle, materiality)

Steps of Risk-Based Approach — Step 6

- Determine major programs as:
  - All Type A programs, except low-risk Type A programs, plus
  - High-risk Type B programs – using either of 2 options:
    - Option 1: At least 1/2 of high-risk Type B programs but not to exceed the number of low-risk Type A programs (the “cap”) or
    - Option 2: One high-risk Type B program for each low-risk Type A program
  - Any programs required to be audited as major by grantor (grantor must notify 180 days before year-end and agree to pay full incremental cost), plus
  - Any Type A or B programs to meet percentage of coverage rule

Percentage of Coverage Rule

- The sum of major program expenditures must encompass at least 50% of the auditee’s total nonexempt State awards expended
- Percentage of coverage rule must be met even if “the cap” on the number of major programs is exceeded
- Percentage of coverage rule is applied after Steps 1 through 5, and all other parts of Step 6 are performed
- When selecting additional programs to audit as major to comply with percentage of coverage rule, not necessary to consider risk -- only $

Deviation from Use of Risk Criteria

- For 1st year audits, major programs may be determined as:
  - All Type A programs, plus
  - Any Type B programs necessary to meet the percentage of coverage rule
- “1st year audit” defined as the 1st year:
  - Entity is audited under the October 2009 Revisions to the State Single Audit Act
  - Under a change in auditors (can be used only once every 3 years)
Risk-Based Approach -- An Overview

- Objective: Rotate the mix of State award programs covered by audit over time
- Auditors are responsible for determining major programs using risk-based approach
- Exempt State programs are excluded from the risk-based approach and cannot be considered a major state program
- May delay use of risk-based approach in 1st year under revised SSA Act
- Auditors’ judgment required and presumed correct, if properly documented
- Incorporates percentage of coverage rule
- Instructions in the SSA Compliance Supplement prescribes a 6-step process to implement risk-based approach

Factors to Consider in Performing Risk Analysis/Determining Major State Programs

- Audit efficiency
- Responsiveness to client requests
- Severity of high risk assessment - i.e. number of factors considered
- Rotation of programs audited
- Auditor judgment
RISK-BASED APPROACH FOR DETERMINING MAJOR PROGRAMS
EXAMPLE FOR XYZ CASE STUDY

Introduction

The 2009 Revised State Single Audit Act requires that the independent auditor use a risk-based approach in determining major state programs. Instructions in regards to the risk-based approach are provided in Part 5, Section 1 of the State Single Audit Compliance Supplement.

The following example for XYZ Entity, is intended to illustrate the application of the risk-based approach. (Note: This Example is to be used as a training tool only in conducting an audit under the 2009 Revisions to the State Single Audit Act.)

Background on XYZ

XYZ had the following State awards expended for the year ended June 30, 2017:

<table>

XYZ’s fiscal year ends on June 30. For purposes of this example, XYZ had an audit conducted in accordance with the 2009 revisions to the State Single Audit Act since 2010. In addition the auditor reviewed the State Single Audit Compliance Supplement applicable for FYE 2017 and identified Program 6 as an exempt state program.
Program 1  Most of the expenditures from Program 1 are for payroll expenses. Employees paid from this program spend all of their time working on this program. XYZ has historically had an accurate and well controlled payroll system. No significant changes occurred in the payroll system or its personnel in the last several years. This program was audited for each of the last several years as a major program. No significant deficiencies, reportable or material matters of noncompliance, or other audit findings were reported in the last several years.

Program 2  This program has complex eligibility requirements. Audits of the last two years have disclosed matters of noncompliance, numerous significant deficiencies, and questioned costs. In 2014 there was an opinion qualification for a material noncompliance.

Program 3  This program is similar to Program 1 and was audited for the last several years as a major program. No significant deficiencies, reportable or material matters of noncompliance, or other audit findings were reported in the last several years.

Program 4  This is a new program in 2017, and it is similar to Program 1. This program was not audited previously.

Program 5  This program is administered 100% by a district office of XYZ which is located at a remote location away from XYZ’s main office. The district office is staffed by an office manager and a part-time clerical employee with limited training. Program expenditures are approved by the office manager and, to minimize disruption, the original supporting documentation is retained at the district office. Because of the complexity of compliance requirements and the relatively small size of this program compared to others of XYZ, the central office’s involvement is minimal. In prior years expenditures under this program was minimal and it was not audited as a major program or used to comply with the 50% coverage rule.

Program 6  This program was identified in the State Single Audit Compliance Supplement as an exempt program.

Program 7  This program was not previously audited as a major program or used to comply with the 50 percent rule. However, in 2016 a monitoring team from the State awarding agency performed a review and found significant internal control and compliance problems.

Program 8  This program is administered at the same district office as Program 5 and, it was not considered a major program or used to comply with the 50 percent rule in previous audits. Accordingly, controls were not subjected to risk assessment or testing and tests of compliance were not performed.

Program 9  The program is new for 2017.
Analysis for Major Program Determination in 2015

Step 1-3 - Identify Exempt Programs and Type A and Type B Programs

Since XYZ expended over $1.0 million (9,374,000 minus 220,000 = 9,154,000) in total nonexempt state financial assistance, a Type A program is determined to be any State program with State awards expended exceeding the larger of $200,000 or 2% of total nonexempt State expenditures (2% × 9,154,000 = $183,080). In this example, any nonexempt program with State expenditures exceeding $200,000 is a Type A program and any nonexempt program at or below $200,000 is a Type B program.

Programs 1 through 5 are Type A and Programs 7 through 9 are Type B.

Program 6: 220,000 Exempt

Step 4 - Identify Low-risk Type A Programs

Programs 1 and 3 are identified as low-risk because the programs were audited as major programs in 2016 with no audit findings, there were no significant changes in the personnel or systems affecting the programs which increased risk, and, in the auditor’s judgment, the programs are low-risk due to the non-complex nature of the programs.

Program 2 is not low-risk because of audit findings in the prior year; Program 4 is not low-risk because it is a new program and was not audited previously; and Program 5 is not low-risk because of the complexity of the program and the weaknesses in the control environment and the program never being audited before.

Step 5 - Identify High-risk Type B Programs

Before risk assessments are begun, the auditor should consider which option is likely to be used to select high-risk Type B programs as major programs, if any. In this case, Option 1 is assumed to be the most efficient approach for this example. Therefore, risk assessments are performed for programs 7 and 8.

A risk assessment is not performed on Program 9 because the instructions provided in the SSA Compliance Supplement permits the auditor to exclude relatively small State programs from the risk analysis. For XYZ, risk assessments are not required for programs below $25,000.

Programs 7 and 8 are identified as high-risk.
Criteria considered in identifying Program 7 as high-risk include the size of the program, the program was never audited before, and the concerns raised by the 2016 monitoring visit. The auditor was told by the management of XYZ that the internal control concerns raised during the 2016 monitoring visit were not corrected. However, XYZ appointed a committee to start working on the internal control concerns and management assured the auditor that corrective action is imminent.

Program 8 was identified as high-risk because of its size, and similar risk as program 5.

Step 6 – Determine Major Programs

<table>
<thead>
<tr>
<th>Program</th>
<th>$</th>
<th>Type</th>
<th>Risk</th>
</tr>
</thead>
<tbody>
<tr>
<td>Program 1</td>
<td>3,800,000</td>

</tr>
<tr>
<td>Program 2</td>
<td>2,200,000</td>
<td>A</td>
<td>High</td>
</tr>
<tr>
<td>Program 3</td>
<td>1,600,000</td>

<td>Low</td>
</tr>
<tr>

</tr>
<tr>

</tr>
<tr>

</tr>
<tr>

<tr>

<td>24,000</td>
<td>B</td>
<td>—</td>
</tr>
<tr>
<td>Total Nonexempt</td>
<td>$9,154,000</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

(a) **Non Low-risk Type A Programs** - Type A Programs 2, 4 and 5 are not low-risk and, therefore, are major programs.

(b) **High-risk Type B Programs** – The instructions on the risk-based approach provided in the SSA Compliance Supplement requires that at least one-half of the high-risk Type B programs be audited as major programs. However, that Section establishes a cap that the number of high-risk Type B programs audited as major programs need not exceed the number of low-risk Type A programs.

Programs 7 and 8 are identified as high-risk Type B programs under Step 5. Therefore, one-half of the number of high-risk Type B programs is one. Since the number of low-risk Type A programs (i.e. Programs 1 and 3) is two, the cap is not applicable in this case. Therefore, the auditor is required to select one high-risk Type B program as a major program. The auditor may choose either Program 7 or 8 and is not required to justify a decision of which high-risk Type B program is audited as a major program. The auditor selects Program 7 in this example. (Note: If there were no low-risk Type A programs, the auditor would not be required to audit any high-risk Type B programs as major programs. In addition, the auditor would not be required to perform risk assessments of Type B programs if there were no low-risk Type A programs.)
(c) **Percentage of Coverage Rule** - Aggregate State expenditures for major Programs 2, 4, 5, and 7 total $3,610,000. This is only 39.4% of total nonexempt State awards expended.

The State Single Audit Act requires a minimum of 50% audit coverage of total nonexempt state program expenditures. To achieve 50% audit coverage, the auditor chooses to audit program 1, a low-risk Type A program as a major program. This provides coverage of $7,410,000 or 80.9% of State awards expended, which meets the 50% coverage rule. (Note: the auditor could have selected any other State program or combination of State programs which would satisfy the 50% coverage rule.)

Results of 2017 Audit

Audit

Program 1 - No audit findings.

Program 2 - Internal controls improved. However, there was one significant deficiency in internal controls. There were three audit findings related to noncompliance and known questioned costs of $50,000. In evaluating the effect of questioned costs on the opinion on compliance, the auditor’s best estimate was that total questioned costs did not exceed 3% of Program 2 expenditures. In the auditor’s judgment, there was not material noncompliance.

Program 4 - No audit findings.

Program 5 - Significant problems were discovered at the district office. The district office manager had neither retained documentation to support the expenditures nor documentation to support compliance with the program’s complex requirements. All costs of the program were questioned, and there were material weaknesses in internal control and material matters of noncompliance.

Program 7 – No audit findings

Follow-up - Program 2 was the only program with prior audit findings and the follow-up was performed as part of auditing this program as a major program in the current year. For purposes of this example, in any year a program is major, the follow-up will be assumed to be done as part of auditing the major program. For non-major programs, audit follow-up is listed separately in the results of audit section.

2018 State Single Audit:

As a result of the 2017 State Single audit, programs 2 and 5 cannot be considered low-risk in 2018.
PART 6

COST STANDARDS

The Office of Policy and Management has established new statewide cost accounting standards to be used by all State agencies in determining the costs incurred by organizations under State awards. For these purposes, State award is defined as a fully executed Purchase of Service (POS) contract, grant, cooperative agreement, cost reimbursement contract, or other contract for the purchase of health or human services between a State agency and an organization. The cost standards must be used by all State agencies in determining the costs incurred by organizations under these State awards.

The cost standards are effective September 1, 2006 and must be incorporated into the provisions of State awards according to the following time frames:

- All new State awards effective on or after January 1, 2007
- All contract amendments modifying funding effective on or after January 1, 2007
- All State awards effective on or after July 1, 2007

Further information on the Cost Standards can be found at the website below:

INTRODUCTION

Purpose

This document establishes standards for determining the costs of contracts, grants, and other agreements with organizations that receive funding from the State of Connecticut.

Applicability

These cost standards must be used by all State agencies in determining the costs incurred by organizations under State awards. For purposes here, State award is defined as a fully executed POS contract, grant, cooperative agreement, cost reimbursement contract, or other contract for the purchase of health or human services between a State agency and an organization.

These cost standards:

1. apply to both recipients and sub-recipients of State awards;
2. supersede any cost standards, policies, or procedures issued by a State agency;
3. do not supersede federal or State statutes or regulations.

Purchase of Service (POS) Contracts

A POS contract is a contract between a State agency and an organization for the purchase of ongoing direct health and human services to agency clients. The contract generally is not used for the purpose of purchasing administrative or clerical services, material goods, training, or consulting services. POS contracts are to be used to contract with nonprofit and proprietary corporations as well as partnerships, but cannot be used to contract with individuals.

Responsibilities

PART I. GENERAL PRINCIPLES

A. Basic Considerations

(1) Factors Affecting Allowability of Costs

To be allowable under a State award, costs must meet the following general criteria:

a. Be applicable to the State-sponsored program;

b. Be reasonable for the performance of the State award and be allocable thereto under these cost standards;

c. Conform to any limitations or exclusions set forth in these cost standards or in the State award as to types or amount of cost items;

d. Be consistent with policies and procedures that apply uniformly to both State-funded and other activities of the organization;

e. Be accorded consistent treatment; A cost may not be assigned to a State award as a direct cost if any other cost incurred for the same purpose in like circumstances has been allocated to the State award as an indirect cost.

f. Be determined in accordance with Generally Accepted Accounting Principles (GAAP);

g. Not be included as a cost or used to meet cost sharing or matching requirements of any other State award in either the current or a prior period;

h. Be net of all applicable credits [see Part I, Section 4];

i. Be adequately documented.

(2) Documentation of Costs

Allowable costs must be adequately supported by invoices, cancelled checks, wire transfers, or other forms of documentation evidencing a disbursement and substantiating that a cost was incurred by the organization during the period of the State award.

Supporting documentation must demonstrate that the cost was incurred as a direct, allocable as direct, or administrative and general (A&G) cost in support of the State award.

The absence of adequate supporting documentation may render a cost unallowable.

(3) Reasonable Costs

A cost is reasonable if, in its nature or amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost. In determining the reasonableness of a given cost, consideration must be given to:

a. Whether the cost is of a type generally recognized as ordinary and necessary for the operation of the organization or the performance of the State award;
b. The constraints or requirements imposed by such factors as generally accepted sound business practices, arm’s length bargaining, Federal or State laws or regulations or terms and conditions of the State award;

c. Whether the individuals concerned acted with prudence in the circumstances considering their responsibilities to the organization, its members, employees, clients, the public at large, and the State;

d. Significant deviations from the established practices of the organization that may unjustifiably increase costs to the State award

(4) Applicable Credits

*Applicable credits* is defined as receipts or reduction-of-expenditures that operate to offset or reduce expense items that are allocable to awards as direct, allocable as direct, or A&G costs. Examples of such transactions include, but are not limited to, purchase discounts, rebates or allowances, client payments for participation in State-sponsored programs, recoveries or indemnities on losses, insurance refunds, or adjustments of overpayments or erroneous charges. To the extent that such credits accruing or received by the organization relate to an allowable cost, they must be credited to the State either as a cost reduction or cash refund, as appropriate.

In some instances, the amounts received from the State to finance organizational activities or service operations must be treated as applicable credits. For example, the concept of netting such credit items against related expenditures must be applied by the organization in determining the rates or amounts to be charged to the State award for services rendered whenever the facilities or other resources used in providing such services have been financed directly, in whole or in part, by State funds [see Part II, Item 13].

Program income, less adjustments, must be offset against the cost of State-funded expenses, in accordance with the terms and conditions of the State award.

Expenses related to restricted donations must be offset against restricted donation revenues.

**B. Cost Allocation Plan**

(1) Definition

The purpose of the cost allocation plan (CAP) is to summarize, in writing, the methods and procedures the organization will use to allocate costs to benefiting programs and activities. Only costs that are allowable, in accordance with these cost standards, shall be allocated to the State award. The CAP must include provisions for allocating allocable as direct costs [see Part I, Section C(4)], A&G costs [see Part I, Section D], and salaries and wages [see Part II, Item 8a(3), General section]. The plan must be initially approved by the Board of Directors for inclusion in the organization’s official policies and procedures.

Although there are different methodologies available for allocating costs, the methodology used must result in a reasonable and equitable distribution of costs to programs and activities based upon the benefits received. Specific methods for allocating costs are determined by the organization receiving funding from the State. Organizations must have a system in place to equitably allocate costs. All costs and other data used to distribute costs in the CAP must be
supported by accounting and other records that ensure the propriety of costs assigned to the State award. Once an organization establishes an allocation methodology, it must be used consistently over time. The CAP must be retained on file for audit and made available to State agencies, upon request.

(2) Revisions to the Plan

The CAP must be reviewed on an annual basis and updated, as necessary, to reflect any changes in the allocation methodology. Significant changes to the allocation methodology require approval of the Board of Directors. Such changes must result in a more equitable distribution of costs. Justification for changes must be documented and supported by actual cost data.

C. Composition of Total Costs

(1) Definition

The total cost of the State award is the sum of the allowable direct costs, allocable as direct costs, and allocable A&G costs, less any applicable credits.

(2) Classification of Costs

There is no universal rule for classifying certain costs as either direct, allocable as direct, or A&G under every accounting system. Therefore, it is essential that each item of cost be treated consistently in like circumstances as a direct, allocable as direct, or A&G. The guidelines for determining direct, allocable as direct, and A&G costs charged to State awards are provided below.

(3) Direct Costs

Direct costs are those that can be specifically identified with a particular final cost objective (i.e., a particular program or activity) of the organization. Costs identified specifically with State awards are direct costs of the awards and are to be assigned directly thereto. Costs identified specifically with other final cost objectives of the organization are direct costs of those cost objectives and must not be assigned to State awards as direct, allocable as direct, or A&G costs.

The costs of certain activities are unallowable as charges to State awards [see Part II, Item 20]. Even though these costs are unallowable for purposes of computing charges to State awards, they must be treated as direct costs and be allocated their share of the organization’s A&G costs if they represent activities that (1) include the salaries of personnel, (2) occupy space, or (3) benefit from the organization’s A&G costs.

The costs of activities performed primarily as a service to members, clients, or the general public when significant and necessary to the organization’s mission must be treated as direct costs whether or not allowable and be allocated an equitable share of A&G costs. Examples of these types of activities include:

a. Maintenance of membership rolls, subscriptions, publications, or related activities;

b. Providing services or information to members, legislative or administrative bodies, or the public;
c. Promotion, lobbying, or public relations;

d. Meetings or conferences, except those held to conduct the general administration of the organization;

e. Maintenance, protection, or investment of special funds not used in the operation of the organization;

f. Administration of group benefits on behalf of members or clients, including life or health insurance, annuity or retirement plans, financial aid, etc.

(4) Allocable as Direct Costs

Allocable as direct costs are joint costs that are allocated directly to two or more programs or activities. A cost is allocable as direct to a particular cost objective, such as a program or activity, in accordance with the relative benefits received. A cost is allocable as direct to a State award if it:

a. Benefits more than one program or activity and can be distributed in reasonable proportion to the benefits received. For example, the costs of a program manager who oversees both a residential program and a day program are allocable as direct to the two programs;

b. Is allowable under these cost standards;

c. Is not specifically incurred for activities in another state.

Organizations must document their allocation methodologies for allocable as direct costs in the CAP [see Part I, Section B]. The CAP must identify each type of allocable as direct cost that allocates costs to the organization’s programs and activities. The CAP must document the percentage distribution of each allocable as direct cost to the benefiting programs and activities.

Any cost allocable as direct to a particular award or other cost objective under these principles must not be shifted to other State awards to overcome funding deficiencies or to avoid restrictions imposed by law or by the terms of the State award.

(5) Administrative & General Costs

A&G costs are those that have been incurred for common or joint objectives and cannot be readily identified with a particular final cost objective.

Because of the diverse characteristics and accounting practices of organizations, it is not possible to specify the types of cost that may be classified as A&G costs in all situations. In addition, there is no universal definition of A&G costs in federal OMB circulars, GAAP, or other cost accounting standards. Therefore, for the purposes of these cost standards, A&G is defined as those costs that have been incurred for the overall executive and administrative offices of the organization or other expenses of a general nature that do not relate solely to any major cost objective of the organization. They are costs that by their nature are administrative in support of the overall organization. This category must also include its allocable share of fringe benefit costs, operation and maintenance expenses, depreciation, and interest costs.

For the purposes of clarification, examples of A&G costs include, but are not limited to, the following:
Office of Policy and Management

a. Business or office management;

b. Salaries and other expenses (e.g., payroll, taxes, benefits, travel) of executive directors, administrative personnel, or secretaries for portion of time spent administering the general organization’s affairs;

c. Salaries and other expenses (e.g., payroll, taxes, benefits, travel) of employees whose duties consist primarily of general legal services; personnel administration; budget and planning; finance; accounting, auditing or financial reporting; business services; safety or risk management; management information systems; library; record keeping; filing, mail distribution, or other general services;

d. Providing executive direction and organization planning;

e. Attending general board, committee, or staff meetings (unless held in connection with specific programs or fundraising activities);

f. Annual meeting;

g. Preparation, publication, or distribution of an annual report;

h. Proportion of costs of training conferences, workshops, or seminars that deal with administration or general topics;

i. General legal services;

j. Personnel administration;

k. Budget and planning;

l. Finance;

m. Accounting, auditing or financial reporting;

n. Business services (purchasing, accounts payable, etc.);

o. Safety or risk management;

p. Management information systems;

q. Library;

r. Record keeping;

s. Filing, mail distribution, or other general services;

t. In addition to staff expenses, proportional office costs (e.g., building occupancy, telephone, office supplies, equipment).
Any A&G costs to a particular award or other cost objective under these standards must not be shifted to other State awards to overcome funding deficiencies or to avoid restrictions imposed by law or by the terms of the State award. Amounts not recoverable as A&G under one State award must not be shifted to another State award, unless specifically authorized by State legislation or regulation.

(6) Hierarchy of Costs

After (1) direct costs have been determined and assigned directly to the State award or other activities as appropriate and (2) allocable as direct costs have been appropriately allocated to the State award or other activities, A&G costs are those remaining to be allocated to benefiting cost objectives. The following examples are provided for clarification:

a. Example of a direct cost:

Costs of Employee A (salary and other expenses) relate 100% to a State-sponsored residential program. Therefore, allocation of costs for Employee A is 100% to the State-sponsored residential program.

b. Example of an allocable as direct cost:

Costs for Employee B (salary and other expenses) relate 50% to a State-sponsored residential program and 50% to a State-sponsored day program. Therefore, allocation of costs for Employee B is 50% to the residential program and 50% to the day program.

c. Example of both allocable as direct cost and A&G cost:

Costs of Employee C (salary and other expenses) relate 40% to a State-sponsored residential program, 30% to a State-sponsored day program, and 30% to A&G duties. Therefore, allocation of costs for Employee C is 40% to the residential program, 30% to the day program, and 30% to A&G.

d. Example of an A&G cost:

Costs of Employee D (salary and other expenses) relate 100% to A&G duties. Therefore, allocation of costs for Employee D is 100% to A&G.

D. Allocation of Administrative & General Costs

(1) Methodology

Specific methods for allocating A&G costs are determined by the organization receiving funding from the State. The methodology utilized by the organization must result in an allocation that is reasonable and equitable based upon the benefits received by the State-funded program and other activities.

The organization must document its allocation methodology for A&G costs in the CAP [see Part I, Section B]. The CAP must identify each type of A&G cost and each A&G cost pool that allocates costs to the organization’s programs and activities. The CAP must document the specific method used to allocate each type of cost or specific cost pool.
(2) Administrative & General Cost Pools

The use of cost pools to distribute A&G costs is an allowable method to allocate costs to State funded programs. The cost pool methodology must result in an allocation of costs to both State funded programs and other activities and must be equitable and reasonable to the benefits received.

Direct costs that are applicable to an organization’s programs or activities must not be included in any A&G cost pool that result in a charge to a State-funded program.

PART II. ITEMS OF COST

Paragraphs 1 through 54 of this section provide principles to be applied in establishing the allowability of certain items of cost. These principles apply whether a cost is treated as direct or indirect. Failure to mention that a particular item of cost is allowable or unallowable does not imply that it is allowed or disallowed; rather, determination as to allowability in such cases should be based on the treatment or principles provided for similar or related items of cost, and based on the principles described in Basic Considerations.

8. Compensation for Personal Services

General

a. Definitions

(1) Compensation for personal services is defined as all amounts paid currently or accrued by the organization for services of employees rendered during the period of performance of the State award. Such amounts include salaries, wages, and fringe benefits [see Item 8, Fringe Benefits section].

(2) Reasonableness

(a) When the organization is predominantly engaged in activities other than those sponsored by the State, compensation for employees on State-sponsored work shall be considered reasonable to the extent that it is consistent with that paid for similar work in the organization’s other activities.

(b) When the organization is predominantly engaged in State-sponsored programs and in cases where the kind of employees required for the State-sponsored programs are not found in the organization, compensation for employees on State-sponsored work shall be considered reasonable to the extent that it is comparable to that paid for similar work in the labor markets in which the organization competes for the kind of employees involved.

(3) Payroll Distribution and Documentation

(a) The distribution of salaries and wages must be based on documented payrolls approved by a responsible official(s) of the organization.

(b) The organization must develop a cost allocation methodology for salaries and wages based on budgeted, planned, or assigned work activity. The methodology must result in a reasonable and equitable distribution of costs to programs and activities based upon the benefits received. Once established, the methodology must be used consistently over
time. Organizations must document their cost allocation methodology for salaries and wages in the CAP (see Part 1, section B).

(c) The payroll distribution system must be included as part of the official records of the organization and encompass both State-sponsored programs and all other activities on an integrated basis. Salary and wage charges may be made initially on the basis of estimates (i.e., the CAP) before the services are performed, provided that such charges are adjusted periodically. Allocations based solely on such estimates do not qualify as support of salaries and wages.

(d) The payroll distribution system must be kept current. Whenever a change occurs in an employee’s work activity, the change must be reflected in the system.

(e) Distribution of salaries and wages must be supported by personnel activity reports. The reports must document the work of all employees (professional and nonprofessional) whose compensation is charged, in whole or in part, to State awards. The reports must:

(i) account for the total amount of work for which employees are compensated; and

(ii) be prepared at least monthly and coincide with one or more pay periods; and

(iii) be signed by both the employee and a responsible official(s) of the organization.

(f) Organizations may use electronic timekeeping or payroll systems that include "electronic signatures" (in lieu of someone signing a paper document).

(g) Organizations must confirm that costs distributed based on the cost allocation plan represent actual costs to the State award and adjust costs accordingly. Cost reports (e.g., quarterly cost reports, interim cost reports, annual cost reports) submitted to State agencies must include these reconciled and adjusted actual costs.

(4) Fair Labor Standards Act (FLSA):

In addition to the supporting documentation described above [see Item 8a(3), General section], charges for the salaries and wages of nonprofessional employees must also be supported by records indicating the total number of hours worked each day and maintained in conformance with U.S. Department of Labor regulations implementing the FLSA (29 CFR Part 516) of 1938, as amended. For this purpose, the term “nonprofessional employee” shall have the same meaning as “nonexempt employee” under FLSA.

(5) Matching:

Salaries and wages of employees used in meeting cost sharing or matching requirements on awards must be supported in the same manner as salaries and wages claimed for reimbursement from State awards.

b. Allowable Costs

Except as otherwise specifically provided in this item, the costs of such compensation are allowable to the extent that:
(1) Total compensation to individual employees is reasonable for the services rendered and conforms to the established written policies of the organization consistently applied to both State-funded programs and non-State activities.

(2) Charges to State awards are determined and supported as required in this item.

(3) Certain conditions require special consideration and possible limitations in determining the allowability of costs under State awards where amounts or types of compensation appear unreasonable. Among such conditions are the following:

(a) Compensation to members of organizations, trustees, directors, associates, officers, or the immediate families thereof. Determination must be made that such compensation is reasonable for the actual personal services rendered rather than a distribution of surplus funds.

(b) Any change in an organization’s compensation policy resulting in a substantial increase in the organization’s level of compensation.

c. Unallowable Costs

Costs that are unallowable under other items in Part II shall not be allowable under this item solely on the basis that they constitute personal compensation.

Office of Policy and Management

(2) Fringe benefits in the form of employer contributions are allowable in accordance with the provisions of these standards, provided such benefits are granted in accordance with established written organizational policies and are distributed to all organizational programs and activities on an equitable basis.

(3) Costs incurred for a reserve under self-insurance for unemployment, workers’ compensation, or health insurance are allowable to the extent that (a) the provisions represent reasonable estimates of the liabilities for such compensation, and (b) the types of coverage, extent of coverage, and rates and premiums would have been allowable had insurance been purchased to cover the risks. However, provisions for self-insured liabilities that do not become payable for more than one year after the provision is made must not exceed the total projected loss as calculated by an independent third party.

(4) Life insurance costs are allowable only to the extent that the insurance represents additional compensation for personal services.

If in the best interests of the State, the State may make conditional payment to the organization if the organization (1) provides adequate security or other adequate assurance, and (2) agrees to repay all unallowable costs, plus interest, if the costs are subsequently determined to be unallowable.
13. Depreciation and Use Allowance

a. Definitions

There are two methods for allocating the cost of a capital asset over its estimated useful life:

(a) Depreciation is the method for allocating the cost of fixed assets to periods benefitting from asset use. The organization may be compensated for the use of its buildings, capital improvements, equipment, and software projects capitalized in accordance with GAAP, provided that they are used, needed in the organization’s activities, and properly allocated to State awards. Such compensation must be made by computing depreciation.

(b) Use allowance is a federally defined means for recovering the cost of a capital asset. It sets the amortization rate for buildings at two percent (2%) of acquisition cost and for equipment at six and two-thirds percent (6 ⅔%) of acquisition cost. When the use allowance method is used for buildings, the entire building must be treated as a single asset without separating its “shell” from other building components.

b. Allowable Costs

An organization may be compensated for the use of its buildings, capital improvements, equipment, and software projects capitalized in accordance with GAAP, provided that they are used, needed in the organization's activities, and properly allocated to State awards. Such compensation must be made by computing depreciation.

Depreciation on buildings, other capital improvements, or equipment on hand is allowable under the following conditions:

(1) It must be based on the acquisition cost of the assets involved. In order to depreciate an asset, the organization must have incurred a cost when acquiring the asset.

(2) The period of useful life for each capital asset must take into consideration such factors as type of construction, nature of the equipment used, technological developments, or the renewal and replacement policies followed for the individual items or classes of assets involved. The method of depreciation used to assign the cost of an asset (or group of assets) to accounting periods must reflect the pattern of consumption of the asset during its useful life. In the absence of clear evidence indicating that the expected consumption of the asset will be significantly greater or lesser in the early portions of its useful life than in the later portions, the straight-line method shall be presumed to be the appropriate method.

(3) Depreciation methods (e.g., straight line, declining balance) once used must not be changed without the prior approval of the awarding agency.

(4) When the depreciation method is applied to assets previously subject to a use allowance, the combination of use allowance and depreciation applicable to such assets must not exceed the total acquisition cost of the assets.

(5) Charges for depreciation must be supported by adequate property records and physical inventories must be taken periodically to ensure that assets exist and are usable and needed. When the depreciation method is followed, adequate depreciation records indicating the
amount of depreciation taken each period must also be maintained.

c. Unallowable Costs

(1) The computation of depreciation must exclude:

(a) The cost of land;

(b) Any portion of the cost of buildings or equipment borne by or donated by the State, irrespective of where title was originally vested or where it presently resides;

(c) Any portion of the cost of buildings or equipment contributed by or for the organization in satisfaction of a statutory matching requirement;

(d) Donated assets;

(e) Donated cash restricted for the purpose of purchasing an asset.

(2) When the depreciation method is used for a particular class of assets, no depreciation shall be allowed on any such assets that under Item 13b would be viewed as fully depreciated.

(3) Use allowance is unallowable.

(2) Acquisition cost means the cost of the asset including the cost to ready the asset for its intended use. Acquisition cost of equipment, for example, means the net invoice price of the equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. (2) Land is defined as non-expendable, real property whose title is held by the organization. The recorded asset cost may include, in addition to the acquisition price, such ancillary costs as legal and title fees, unpaid taxes assumed, surveying and recording fees, appraisal and negotiation fees, damage payments, site preparation costs (clearing, filling, or leveling), or demolition of unwanted structures. Land is considered a non-exhaustible asset owing to its significantly long expected useful life. Non-exhaustible assets are not to be depreciated [see Item 13].

Note: The cost of land does not include expenditures in connection with land improvements such as paving, fencing, or lighting. These costs are included in a separate asset category “Improvements to Land and Buildings.” Unlike land, these items have finite lives.

(3) Buildings is defined as all real estate, excluding land, that is used for shelter, dwelling, or other similar organizational purposes. The State definition of a building is “a relatively permanent structure to house persons or property.” The recorded asset cost may include the purchase or construction cost, professional fees for architects, attorneys, appraisers, or financial advisors, or any other expenditures necessary to put a building or structure into its intended state of operation.

(4) Improvements to real property is defined as all improvements to land or buildings, except non-depreciable improvements to land parcels (such as grading or filling). Included within this category are organization-maintained infrastructures (such as roads, bridges, curbs, surface gutters, streets, sidewalks, drainage systems, parking lots, lighting systems, or similar assets) that, while not identifiable to any particular structure, have a quantifiable value to the organization.

The main criteria for capitalization of building improvements are that the expenditures significantly extend the useful life or enhance the value of the individual building. Expenditures not meeting these criteria must be expensed.

(3) If the total amount of state financial assistance expended in any such fiscal year is for more than one program, such entity shall have a single audit made for such fiscal year.

(b) Notwithstanding any provision of the general statutes or any regulation adopted under any provision of the general statutes, each nonstate entity that expends total state financial assistance of less than three hundred thousand dollars in any fiscal year of such nonstate entity beginning on or after July 1, 2009, shall be exempt with respect to such year from complying with any statutory or regulatory requirements concerning financial or financial and compliance audits that would otherwise be applicable.

(c) No provision of this section shall be deemed to exempt a nonstate entity from complying with any statutory or regulatory provision requiring the entity to (1) maintain records concerning state financial assistance or (2) provide access to such records to a state agency.
Sec. 4-232. Designation of independent auditor to conduct audit. Audit report filing.

(a) Each nonstate entity which is required to be audited pursuant to sections 4-230 to 4-236, inclusive, shall designate an independent auditor to conduct such audit. Not later than thirty days before the end of the fiscal period for which the audit is required, the nonstate entity shall file the name of such auditor with the cognizant agency. If a nonstate entity fails to make such filing, the cognizant agency may designate an independent auditor to conduct the audit. A nonstate entity shall be responsible for paying the costs of any audit conducted by an independent auditor designated by a cognizant agency.

(b) (1) Upon the completion of the audit, pursuant to sections 4-230 to 4-236, inclusive, the nonstate entity shall file a copy of the audit report with the cognizant agency and, if applicable, state grantor agencies and pass-through entities. Once filed, such report shall be made available by the nonstate entity for public inspection. Copies of the report shall be filed not later than thirty days after completion of such report, if possible, but not later than six months after the end of the audit period. The cognizant agency may grant an extension of not more than thirty days, if the auditor conducting the audit and the chief executive officer of the nonstate entity jointly submit a request in writing to the cognizant agency that includes the reasons for such extension and an estimate of the time needed for completion of such audit, at least thirty days prior to the end of such six-month period. If the reason for the extension relates to deficiencies in the accounting system of the nonstate entity, the request shall be accompanied by a corrective action plan. The auditor or chief executive officer shall promptly provide any additional information the cognizant agency may require. Before determining whether to grant an extension request, the cognizant agency may require the auditor and officials of the nonstate entity to meet with representatives of the cognizant agency.

(2) Any nonstate entity, or auditor of such nonstate entity, which fails to have the audit report filed on its behalf within six months after the end of the fiscal year or within the time granted by the cognizant agency may be assessed, by the Secretary of the Office of Policy and Management, a civil penalty of not less than one thousand dollars but not more than ten thousand dollars. In addition to, or in lieu of such penalty, the cognizant agency may assign an auditor to perform the audit of such nonstate entity. In such case, the nonstate entity shall be responsible for the costs related to the audit. The secretary may, upon receipt of a written request from an official of the nonstate entity or its auditor, waive all such penalties if the secretary determines that there appears to be reasonable cause for the entity not having completed or provided the required audit report.

Sec. 4-233. Conduct and scope of audits. When corrective action required.

(a) Each audit required by sections 4-230 to 4-236, inclusive, shall:

(1) Be conducted in accordance with generally accepted government auditing standards, except that, for the purposes of said sections such standards shall not be construed to require economy and efficiency audits, program results audits, or program evaluations; and

(2) Except in the case of program-specific audits, cover the entire operations, including financial operations, of the nonstate entity, except that such audit may exclude public hospitals.

(b) Each such audit shall determine and report whether: (1) The financial statements of the nonstate entity are presented fairly in all material respects in conformity with generally accepted accounting principles; (2) the schedule of expenditures of state financial assistance of the nonstate entity is presented fairly in all material respects in relation to the financial statements taken as a whole; (3) in addition to the
requirements of generally accepted government auditing standards, the auditor has performed procedures
to obtain an understanding of internal control over state programs sufficient to (A) plan the audit to
support a low assessed level of control risk for major state programs, (B) plan the testing of internal
control over major state programs to support a low assessed level of control risk for the assertions
relevant to the compliance requirement for each major state program, and (C) perform testing of internal
controls; and (4) the nonstate entity has complied with laws, regulations and grant or contract provisions
that may have a material effect upon individual compliance requirements for each major state program. In
complying with the requirements of subdivision (4) of this subsection, the independent auditor shall select
and test a representative number of transactions from each major state program to provide the auditor
sufficient evidence to support an opinion of compliance. Each audit report shall identify which programs
were tested for compliance.

(c) When the total expenditures of a nonstate entity's major state programs are less than fifty per cent of
such nonstate entity's total expenditures of state financial assistance, excluding exempt program
expenditures, the independent auditor shall select and test additional programs as major state programs as
may be necessary to achieve audit coverage of at least fifty per cent of the nonstate entity's total
expenditures of state financial assistance, excluding exempt program expenditures.

(d) If an audit conducted pursuant to this section finds any material or reportable noncompliance by a
nonstate entity with applicable laws, regulations and grant or contract provisions, or finds any significant
deficiency or material weakness with respect to the internal controls of the nonstate entity concerning the
matters described in subsection (b) of this section, the nonstate entity shall submit to appropriate state
officials a plan for corrective action to eliminate such material or reportable noncompliance, significant
deficiency or material weakness.

Sec. 4-234. Audits in lieu of financial or financial and compliance audits. Additional audits.

(a) An audit conducted in accordance with sections 4-230 to 4-236, inclusive, shall be in lieu of any
financial or financial and compliance audit of state financial assistance programs which a nonstate entity
is required to conduct under any other state law or regulation. To the extent that such audit provides a
state agency with the information it requires to carry out its responsibilities under state law or regulations,
a state agency shall rely upon and use such information and plan and conduct its own audits accordingly
in order to avoid a duplication of effort.

(b) Notwithstanding the provisions of subsection (a) of this section, a state agency shall conduct any
additional audits which it deems necessary to carry out its responsibilities, upon a written determination
by the executive authority of the agency, based on evidence of fiscal irregularities or noncompliance with
applicable laws and regulations, and after consulting with the cognizant agency. The provisions of
sections 4-230 to 4-236, inclusive, do not authorize a cognizant agency or any nonstate entity, or any
subrecipient thereof, to constrain, in any manner, such state agency from carrying out such additional
audits. As used in this subsection and subsection (d) of this section, "executive authority" shall be
construed as defined in section 4-37e.

(c) The provisions of sections 4-230 to 4-236, inclusive, do not (1) limit the authority of state agencies to
conduct, or enter into contracts for the conduct of, audits and evaluations of state financial assistance
programs or (2) limit the authority of any state agency auditor or other state audit official.

(d) A state agency that performs or contracts for audits in addition to the audits conducted for recipients
of state financial assistance pursuant to sections 4-230 to 4-236, inclusive, shall, consistent with other
applicable law, pay for the cost of such additional audits. Such additional audits may include, but shall
not be limited to, economy and efficiency audits, program results audits and program evaluations. The
state agency shall use the results of the single audit as a basis for any additional requirements, and shall
not duplicate the single audit unless the executive authority of such agency determines in writing that
such duplication is necessary.

Sec. 4-235. Designation of cognizant agencies. Issuance of compliance supplement. Pass-through
entities and subrecipients.

(a) The secretary shall designate cognizant agencies for audits conducted pursuant to sections 4-230 to 4-
236, inclusive, and shall periodically issue a state single audit compliance supplement containing
information to assist independent auditors in conducting state single audits. Such information shall
include, but is not limited to, identification of state financial assistance programs and their significant
compliance requirements, suggested audit procedures for determining compliance, exempt programs and
information relevant to the risk-based approach for use in determining major state programs.

(b) A cognizant agency shall: (1) Ensure through coordination with state agencies, that audits are made in
a timely manner and in accordance with the requirements of sections 4-230 to 4-236, inclusive; (2) ensure
that corrective action plans made pursuant to section 4-233 are transmitted to the appropriate state
officials; and (3)(A) coordinate, to the extent practicable, audits done by or under contract with state
agencies that are in addition to the audits conducted pursuant to sections 4-230 to 4-236, inclusive; and
(B) ensure that such additional audits build upon the audits conducted pursuant to said sections.

(c) (1) Each pass-through entity which is subject to the audit requirements of sections 4-230 to 4-236,
inclusive, shall:

(A) Advise subrecipients of requirements imposed on them by state laws, regulations, and the provisions
of contracts or grant agreements, and any supplemental requirements imposed by the pass-through entity;

(B) If the subrecipient is subject to an audit in accordance with the requirements of said sections 4-230 to
4-236, inclusive, review such audit and ensure that prompt and appropriate corrective action is taken with
respect to material or reportable findings of noncompliance with individual compliance requirements or
significant deficiencies or material weaknesses in internal controls pertaining to state financial assistance
provided to the subrecipient by the pass-through entity; or

(C) If the subrecipient is not subject to an audit in accordance with the requirements of said sections 4-
230 to 4-236, inclusive, monitor the activities of subrecipients as necessary to ensure that state financial
assistance is used for authorized purposes in compliance with laws, regulations, and the provisions of
contracts or grant agreements.

(2) Each pass-through entity, as a condition of receiving state financial assistance, shall require each of its
subrecipients to permit the independent auditor of the pass-through entity to have such access to the
subrecipient's records and financial statements as may be necessary for the pass-through entity to comply
with sections 4-230 to 4-236, inclusive.
Sec. 4-236. Regulations.

(a) The secretary shall, in consultation with the Auditors of Public Accounts, appropriate state officials and representatives of nonstate entities, adopt regulations pursuant to the provisions of chapter 54 to implement the provisions of sections 4-230 to 4-235, inclusive.

(b) The secretary shall also adopt regulations, in accordance with the provisions of chapter 54, (1) concerning the recovery of grant funds based on audit findings, as the secretary deems appropriate for any grantee which is found as a result of an audit to not be in compliance with the standards established pursuant to section 4-233, and (2) establishing uniform standards which prescribe the cost accounting principles to be used in the administration of state financial assistance by the recipients of such assistance.

(b) Each independent auditor selected to provide audit services, pursuant to section 4-232 of the Connecticut General Statutes, shall issue an audit report in accordance with sections 4-236-23 through 4-236-30, inclusive of the Regulations of Connecticut State Agencies.

Section 4-236-20. Responsibilities of the Secretary of the Office of Policy and Management

The secretary shall, after consulting with applicable state agencies and representatives of nonstate entities, publish a Compliance Supplement disclosing statutory and regulatory requirements applicable to state financial assistance programs. The Compliance Supplement shall contain requirements for compliance with laws and regulations and suggested audit procedures for state financial assistance programs, and shall be updated periodically for program changes.
Section 4-236-21. Responsibilities of cognizant agencies, state agencies and nonstate entities

(a) A cognizant agency shall:

(1) Provide technical advice and liaison to nonstate entities and independent auditors;

(2) Promptly inform other affected state agencies and appropriate state and local law enforcement officials of any direct reporting by the auditee or its auditor of irregularities or illegal acts, as required by GAGAS or laws and regulations;

(3) Advise the independent auditor and, where appropriate, the auditee of any deficiencies found in an audit report when the deficiencies require corrective action by the independent auditor. When advised of deficiencies, the auditee shall work with the independent auditor to take corrective action. If corrective action is not taken, the cognizant agency shall notify the independent auditor, the auditee, each agency having provided state financial assistance and each pass-through entity of the facts and make recommendations for follow-up action. In cases involving repetitive substandard performance or major inadequacies, the independent auditor may be referred to appropriate state and professional bodies for disciplinary action;

(4) Obtain or conduct quality control reviews of selected audits made by independent auditors of nonstate entities, at its discretion;

(5) Ensure the resolution of audit findings that affect the programs of more than one state agency;

(6) Coordinate, to the extent practical, audits or reviews made by or for state agencies that are in addition to the audits made pursuant to sections 4-236-23 and 4-236-26 of the Regulations of Connecticut State Agencies, so that the additional audits or reviews build upon audits performed in accordance with this part; and

(7) Inform a state awarding agency of an extension granted to an auditee for report submission.

(b) A state agency that provides state financial assistance shall:

(1) At the time of awarding state financial assistance to a nonstate entity, identify each state award made by informing the nonstate entity of the State Program Identification Number, award name, contract number, and award year. When some of this information is not available at the time the award is made, the State agency shall provide information necessary to clearly describe the State award;

(2) Advise nonstate entities of requirements imposed on them by state laws, regulations, and the provisions of contracts or grant agreements;

(3) Work with the cognizant agency to ensure that audits are completed and reports are received in a timely manner;

(4) Promptly notify the cognizant agency if audit reports are not submitted by the due date;
(5) Provide program related technical advice and counsel to nonstate entities and independent auditors as requested;

(6) Follow up on audit findings affecting a state agency's programs and ensure that the auditee takes appropriate and timely corrective action; and

(7) Assign a person the responsibility of providing annual updates of the Compliance Supplement to the secretary.

(c) A nonstate entity that is subject to the audit requirements of sections 4-230 through 4-236, inclusive, of the Connecticut General Statutes shall:

(1) Identify, in its records, any state financial assistance received, the program under which it is authorized, and the amounts expended. State program identification shall include, as applicable, the State Program Identification Number and program name, the contract number and year, the name of the state agency having awarded the assistance, and the name of the pass-through entity;

(2) Maintain internal control over state programs that provides reasonable assurance that the nonstate entity is managing state financial assistance in compliance with laws, regulations and the provisions of contracts or grant agreements that could have a material effect on each of its state programs;

(3) Comply with laws, regulations, and the provisions of contracts or grant agreements related to each state program;

(4) Prepare appropriate financial statements, including a schedule of expenditures of state financial assistance, in accordance with section 4-236-23(a)(4) of the Regulations of Connecticut State Agencies;

(5) Ensure that each audit required by section 4-231 of the Connecticut General Statutes is properly performed and that each audit report is submitted when due;

(6) When notified of an extension to an audit report submission due date, promptly notify each applicable pass-through entity of the extension;

(7) Follow up on audit findings, prepare a corrective action plan and a schedule of prior audit findings in accordance with section 4-236-24 of the Regulations of Connecticut State Agencies and take corrective action as necessary; and

(8) Promptly notify the cognizant agency and law enforcement officials of any violation of law including illegal acts and irregularities.
Section 4-236-22. Basis for determining state financial assistance expended

Except in the case of an exempt program, the determination of when state financial assistance is expended shall be based on when the related program activity occurs. Generally, such an activity is one that a nonstate entity is required to take in order to comply with applicable laws, regulations and the provisions of contracts or grant agreements. Examples of such activities include expenditure/expense transactions associated with grants, cost-reimbursement contracts, direct appropriations or the use of loan proceeds, the disbursement of funds passed through to a subrecipient or the receipt or use of program income. State financial assistance which does not specify a required use and which cannot be described by any of the examples provided in this section shall be considered fully expended in the fiscal year in which the state financial assistance is paid by the State agency. Loans payable, the proceeds of which were received and expended in a year prior to that which an audit covers are not considered state financial assistance expended for purposes of this section.

Section 4-236-23. Audit scope and reporting.

(a) Audits will be conducted based on the year-end of the nonstate entity. The independent auditor's report may be in the form of either combined or separate reports and may be organized differently from the manner presented in this section. The independent auditor's report shall state that the audit was conducted in accordance with this section and shall include the following:

(1) An opinion or disclaimer of opinion as to whether the financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles and an opinion or disclaimer of opinion as to whether the schedule of expenditures of state financial assistance is presented fairly in all material respects in relation to the financial statements taken as a whole;

(2) A report on internal control related to the financial statements and on compliance with applicable laws, regulations, and the provisions of contracts or grant agreements, noncompliance with which could have a material effect on the financial statements. This report shall describe the scope of the testing of internal control and the results of the tests. Where applicable, the report shall refer to the separate schedule of findings and questioned costs described in subdivision (5) of this subsection;

(3) A report on compliance with requirements applicable to each major program and internal control over compliance requirements in accordance with section 4-233 of the Connecticut General Statutes. This report shall include an opinion or disclaimer of opinion as to whether the auditee complied with applicable laws, regulations, and the provisions of contracts or grant agreements which could have a direct and material effect on each major program. When appropriate, the report shall refer to the separate schedule of findings and questioned costs described in subdivision (5) of this subsection;

(4) A schedule of expenditures of state financial assistance. Such schedule, which shall be based on the fiscal year used for the nonstate entity's financial statements, shall include the following minimum information:

   (A) A list of individual programs grouped by state agency;
(B) The total state financial assistance expended for each state program identified by State Program Identification Number. If the State Program Identification Number is not available, the contract number shall be used to identify the program;

(i) The auditee may include additional information. For example, when a state program has multiple award years, the auditee may list the amount of state financial assistance expended for each award year separately.

(C) A listing of exempt programs and the amounts expended for each exempt program;

(D) To the extent practical, pass-through entities should identify in the schedule the total amount provided to subrecipients from each state program;

(E) The name of the pass-through entity and identifying number assigned by the pass-through-entity shall be included; and

(F) Notes that describe the significant accounting policies used in preparing the schedule. Such notes shall include the amount of loans and loan guarantees and shall disclose any changes in loan activity during the period being audited.

(5) A schedule of findings and questioned costs which shall include the following three components:

(A) A summary of the auditor's results which shall include:

(i) The type of report the auditor issued on the financial statements of the auditee (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion);

(ii) Where applicable, a statement that significant deficiencies in internal control were disclosed by the audit of the financial statements and whether any such deficiencies were material weaknesses;

(iii) A statement as to whether the audit disclosed any noncompliance which is material to the financial statements of the auditee;

(iv) Where applicable, a statement that significant deficiencies in internal control over major programs were disclosed by the audit and whether any such deficiencies were material weaknesses;

(v) The type of report the auditor issued on compliance for major programs (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion);

(vi) A statement as to whether the audit disclosed any audit findings, which the auditor is required to report under section 4-236-24 of the Regulations of Connecticut State Agencies;

(vii) An identification of major programs, including programs tested in accordance with section 4-233 of the Connecticut General Statutes; and
(viii) the dollar threshold used to distinguish between type A and type B programs as provided under the risk-based approach used in determining major state programs.

(B) Findings relating to the financial statements which are required to be reported in accordance with GAGAS; and

(C) Findings and questioned costs related to state financial assistance, including those set forth in subsection (a) of section 4-236-24 of the Regulations of Connecticut State Agencies.

(i) Audit findings that relate to the same issue (e.g., internal control findings, compliance findings, questioned costs, or fraud) should be presented as a single audit finding.

(ii) Audit findings that relate to both the financial statements and state financial assistance, as reported in subparagraphs (B) and (C) of this subdivision, should be reported in each appropriate section of the schedule. However, a report in one section of the schedule may be in summary form with a reference to the more detailed report in another section of the schedule.

(b) When internal control over some or all of the compliance requirements for a major program are likely to be ineffective in preventing or detecting noncompliance, the planning and performing of testing described in section 4-233 of the Connecticut General Statutes is not required for those compliance requirements. However, the independent auditor shall report a significant deficiency (including whether any such deficiency is a material weakness) in accordance with section 4-236-24 of the Regulations of Connecticut State Agencies, assess the related control risk at the maximum, and consider whether additional compliance tests are required because of ineffective internal control.

(1) The compliance requirements of various state programs may be ascertained by referring to the Compliance Supplement for state financial assistance programs.

(2) For those state programs not covered in the Compliance Supplement, the independent auditor shall use the types of compliance requirements contained in the Compliance Supplement as guidance for identifying the types of compliance requirements to test, and determine the requirements governing the state program by reviewing the provisions of contracts and grant agreements and the laws and regulations referred to in such contracts and grant agreements.

(3) The independent auditor may consider the Compliance Supplement a "safe harbor" for identification of compliance requirements to be tested for the programs included therein if, the independent auditor: (A) Performs reasonable procedures to ensure that the requirements in the Compliance Supplement are current and to determine whether there are any additional provisions of contract and grant agreements that should be covered by an audit in accordance with sections 4-236-18 through 4-236-30 of the Regulations of Connecticut State Agencies, inclusive, and (B) updates or augments the requirements contained in the Compliance Supplement, as appropriate.

(4) The compliance testing shall include tests of transactions and such other auditing procedures necessary to provide the independent auditor sufficient evidence to support an opinion on compliance.
(c) The independent auditor shall follow up on audit findings, perform procedures to assess the reasonableness of the summary schedule of prior audit findings prepared by the auditee, and report as a current year finding, when the auditor concludes that the summary schedule materially misrepresents the status of any prior year audit finding. The independent auditor shall perform follow-up procedures regardless of whether a prior year audit finding relates to a major state program in the current year.

Section 4-236-24. Audit findings.

(a) The independent auditor shall report the following as audit findings in a schedule of findings and questioned costs:

1. Significant deficiencies in internal control over major programs. The independent auditor's determination of whether a deficiency in internal control is a significant deficiency for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the Compliance Supplement. The independent auditor shall identify significant deficiencies, which are individually or cumulatively material weaknesses;

2. Material noncompliance with the provisions of laws, regulations, contracts, or grant agreements related to a major program. The independent auditor's determination of whether a noncompliance with the provisions of laws, regulations, contracts, or grant agreements is material for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the Compliance Supplement;

3. Known questioned costs which are greater than $1,000 for a type of compliance requirement for a major program. Known questioned costs are those specifically identified by the auditor. In evaluating the effect of questioned costs on the determination of compliance, the auditor shall consider the best estimate of total costs questioned (likely questioned costs), not just the questioned costs specifically identified (known questioned costs). The auditor shall also report known questioned costs when likely questioned costs are greater than $1,000 for a type of compliance requirement for a major program. In reporting questioned costs, the auditor shall include information to provide proper perspective for judging the prevalence and consequences of the questioned costs;

4. Known questioned costs which are greater than $1,000 for a state program which is not audited as a major program. Except for audit follow-up, the auditor is not required under this section to perform audit procedures for such a state program; therefore, the auditor will normally not find questioned costs for a program which is not audited as a major program. However, if the auditor does become aware of questioned costs for a state program which is not audited as a major program (e.g., as part of audit follow-up or other audit procedures) and the known questioned costs are greater than $1,000, then the auditor shall report this as an audit finding;
(5) The circumstances concerning why the independent auditor's report on compliance for major programs is other than an unqualified opinion, unless such circumstances are otherwise reported as audit findings in the schedule of findings and questioned costs for state financial assistance;

(6) Known fraud affecting state financial assistance, unless such fraud is otherwise reported as an audit finding in the schedule of findings and questioned costs for state financial assistance. This subdivision does not require the independent auditor to make an additional reporting when the independent auditor confirms that the fraud was reported outside of the independent auditor's report under the direct reporting requirements of GAGAS; and

(7) Instances where the results of audit follow-up procedures reveals that the summary of prior audit findings prepared by the auditee materially misrepresents the status of any prior audit finding.

(b) Audit findings shall be presented in sufficient detail for the auditee to prepare a corrective action plan and take corrective action and for state agencies and pass-through entities to arrive at a management decision in response to such findings. The following specific information, as applicable, shall be included in audit findings, which shall be numbered or otherwise separately identified in order to allow for ease of reference during follow-up:

(1) State Program Name and specific State Program Identification Number, name of state agency, and name of the applicable pass-through entity. When such information is not available, the independent auditor shall use the best information available to describe the state award;

(2) The criteria or specific requirements upon which the audit findings are based, including statutory, regulatory, or other citations;

(3) The condition found, including facts that support the deficiency identified in the audit findings;

(4) Identification of questioned costs and how they were computed;

(5) Information to provide proper perspective for judging the prevalence and consequences of the audit findings, such as whether they represent an isolated instance or a systemic problem. Instances identified shall be related to the universe and the number of cases examined, and shall be quantified in terms of dollar value;

(6) The possible asserted effect to provide sufficient information to the auditee and state agency, or pass-through entity in the case of a subrecipient, to permit them to determine the cause and effect to facilitate prompt and proper corrective action;
(7) Recommendations to prevent future occurrences of the deficiency identified in the audit findings; and

(8) Views of responsible officials of the auditee when there is disagreement with the audit findings, to the extent practical.

(c) The auditee is responsible for follow-up and corrective action on all audit findings. As part of this responsibility, the auditee, upon completion of the audit, shall prepare a corrective action plan to address each audit finding included in the current year independent auditor’s report. The corrective action plan shall provide the name(s) of the contact person(s) responsible for corrective action, the corrective action planned, and the anticipated completion date. If the auditee does not agree with the audit findings or believes corrective action is not required, then the corrective action plan shall include a statement to that effect and specific reasons in support of such opinion. Said plan shall be included in the State Single Audit Reporting package. In addition, the auditee is responsible for preparing a schedule of prior audit findings which shall report the status of audit findings reported in the prior year’s audit report.

Section 4-236-25. Submission of reports

(a) The reporting package shall include audited financial statements, state single audit reports, including the applicable schedule(s) required under these regulations, reports prepared in accordance with GAGAS, a corrective action plan and a separately issued management letter, if applicable.

(b) Reports, including program audit reports, prepared in accordance with sections 4-236-23 and 4-236-26 of the Regulations of Connecticut State Agencies shall be submitted by the auditee to the cognizant agency and, if applicable, state grantor agencies and pass-through entities. Reports shall be submitted no later than six months after the end of the period under audit, pursuant to section 4-232 of the Connecticut General Statutes.

(c) The cognizant agency may authorize extensions in the filing due date in accordance with section 4-232 of the Connecticut General Statutes. At no time may the extension exceed six months. The cognizant agency shall notify those state agencies providing state financial assistance to the nonstate entity of the extension.

Section 4-236-26. Program Specific Audits

(a) In some cases, a program-specific audit guide will be available to provide specific guidance to the independent auditor with respect to internal control, compliance requirements, suggested audit procedures, and audit reporting requirements. The independent auditor shall contact the state agency awarding the funds to determine whether such a guide is available. When a current program-specific audit guide is available, the independent auditor shall follow GAGAS and the guide when performing a program-specific audit. Report submissions shall follow the requirements identified in the program-specific audit guide.
(b) When a program-specific audit guide is not available, the auditee and independent auditor shall have basically the same responsibilities for the state program as they would have for an audit of a major program in a single audit of state financial assistance. In such cases the following is required:

(1) The auditee shall prepare the financial statement(s) for the state program that includes, at a minimum, a schedule of expenditures of state financial assistance for the program and notes that describe the significant accounting policies used in preparing the schedule, a summary schedule of prior audit findings and a corrective action plan consistent with the requirements of section 4-236-24(c) of the Regulations of Connecticut State Agencies.

(2) The independent auditor shall:

(A) Perform an audit of the financial statement(s) for the state program in accordance with GAGAS;

(B) Obtain an understanding of internal control and perform tests of internal control over the state program consistent with the requirements of section 4-233 of the Connecticut General Statutes, for a major program;

(C) Perform procedures to determine whether the nonstate entity has complied with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on the state program consistent with the requirements of section 4-233 of the Connecticut General Statutes; and

(D) Prepare report(s) in the form of either combined or separate reports, which may be organized differently from the manner presented in this section. The independent auditor’s report(s) shall state that the audit was conducted in accordance with this section and shall include the following:

(i) An opinion (or disclaimer of opinion) as to whether the financial statement(s) of the state program is presented fairly in all material respects in conformity with the stated accounting policies;

(ii) A report on internal control related to the state program, which shall describe the scope of testing of internal control and the results of the tests;

(iii) A report on compliance which includes an opinion (or disclaimer of opinion) as to whether the nonstate entity complied with laws, regulations, and the provisions of contracts or grant agreements which could have a direct and material effect on the state program; and

(iv) A schedule of findings and questioned costs for the state program that includes a summary of the independent auditor’s results relative to the state program consistent with the requirements of section 4-236-23 of the Regulations of Connecticut State Agencies.
(c) The reports identified in this section shall be submitted in accordance with the provisions of section 4-236-25 of the Regulations of Connecticut State Agencies.

Section 4-236-27. Illegal acts

If, during or in connection with an audit of a nonstate entity, the independent auditor becomes aware of illegal acts or irregularities, such acts shall be reported in accordance with the provisions of GAGAS.

Section 4-236-28. Penalty for noncompliance

No audit costs shall be charged to state programs when audits required by the State Single Audit Act have not been made or have been made but not in accordance with sections 4-236-23 and 4-236-26 of the Regulations of Connecticut State Agencies. In cases of continued inability or unwillingness to have a proper audit conducted in accordance with sections 4-236-23 and 4-236-26 of the Regulations of Connecticut State Agencies, state agencies shall consider appropriate sanctions including, but not limited to: (1) Withholding a percentage of financial assistance until the audit is completed satisfactorily; (2) Withholding or disallowing overhead costs; or (3) suspending state financial assistance until the audit is completed.

Section 4-236-29. Audit resolution and recovery of state program funds based on audit findings

(a) As provided in section 4-236-21 of the Regulations of Connecticut State Agencies, the cognizant agency shall be responsible for ensuring the resolution of audit findings that affect the programs of more than one state agency. Resolution of findings that relate to the programs of a single state agency shall be the responsibility of the recipient and the agency. Alternate arrangements may be made on a case-by-case basis by agreement among the agencies concerned.

(b) After the audit report is accepted by the cognizant agency, the grantor state agencies shall review the audit report including the audit findings relating to the agencies' programs and the auditee's corrective action plans. Pass-through entities are also responsible for reviewing the audit reports of their subrecipients.

(c) State grantor agencies shall follow up on audit findings to ensure proper resolution. Follow up procedures regarding a current year or prior year audit finding may include, but are not limited to, communication with the nonstate entity and review of the nonstate entity's records. Pass-through entities shall work with state grantor agencies and develop a course of action to resolve audit findings relating to state financial assistance provided to subrecipients.

(d) Agencies shall determine whether to "allow" or "disallow" the reported expenditures in findings involving questioned costs.

(1) If the state grantor agency decides the expenditures were proper (i.e., the independent auditor’s questioned costs are not sustained), they are “allowed costs” and no further action is required.
(2) If the state grantor agency decides the expenditures were improper (i.e., the independent auditor’s findings are sustained), the nonstate entity shall consider the questioned costs to be ineligible; they are “disallowed costs”.

(3) The state grantor agency shall notify the nonstate entity of any disallowed costs, and, unless successfully appealed to the executive authority of the agency, the state financial assistance received with respect to such disallowed costs shall be returned to the applicable state government agency. The state agencies shall also establish an accounting record of the debt, require other necessary corrective actions, and follow-up on corrective actions to ensure compliance.

Section 4-236-30. Retention of working papers and reports

The independent auditor shall document in the working papers the risk analysis process used in determining major state programs. Following completion of an audit, the independent auditor shall make available working papers, upon request, to the cognizant agency, its designee, the Auditors of Public Accounts and awarding agencies. Awarding agencies shall notify the cognizant agency of their intent to review working papers. The independent auditor shall retain working papers and reports for a minimum of five years from the date of filing a certified copy of the audit report with the cognizant agency, unless the independent auditor is notified in writing by the cognizant agency to extend the retention period.

INTRODUCTION

Examples of auditor’s reports and schedules included in this part are presented as guidance for independent auditors performing state single audits. Auditors should modify the reports as necessary for scope limitations, uncertainties and noncompliance.

The State Single Audit Act was last revised in October 2009 and the example reports provided in this part of the Supplement reflects reporting under the revised Act.

The following reporting package is required to comply with the provisions of the State Single Audit Act:

Example 1 provides guidance for the preparation of a typical report when there are no opinion modifications on compliance, no material weaknesses or significant deficiencies. In order to minimize the presentation of numerous combinations of other report examples, Examples 2 to 3c provides individual alternatives for compliance and/or internal control situations. These examples were developed based on guidance contained in AICPA Audit Guide - Government Auditing Standards and Single Audits and represent the most common situations which may be encountered. The AICPA Audit Guide - Government Auditing Standards and Single Audits should be used for reference when conditions exist which have not been presented in this compliance supplement. Examples of program specific reports can also be found in the AICPA Audit Guide.
Examples 7 and 7a, Report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with *Government Auditing Standards*, are provided for guidance and to emphasize the requirement that such reporting must be submitted within the state single audit reporting package. The report examples in this manual represent the latest guidance available at the time the supplement was updated. Please refer to the AICPA website (AICPA.org) for periodic updates.

The *schedule of findings and questioned costs* is a mandatory element of the reporting package. It has been developed to provide certain information in a manner which will assist users in understanding and evaluating the audit report.

The Schedule of the Status of Prior Year Findings is a mandatory element as indicated in the Regulations to the State Single Audit Act. It should report on the current status of findings reported from prior years related to both the entity under audit financial statement and State programs. (See Part 10 of the Supplement.)

Additional questions on reporting issues should be addressed to the cognizant agency (Part 13).
Independent Auditor’s Report

[Addressee]
[Address]

Report on Compliance for Each Major State Program

We have audited [name of entity]’s compliance with the types of compliance requirements described in the Office of Policy and Management’s Compliance Supplement that could have a direct and material effect on each of [name of entity]’s major state programs for the year ended June 30, 20XX. [Name of entity]’s major state programs are identified in the summary of auditors’ results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its state programs.

Auditors’ Responsibility

Our responsibility is to express an opinion on compliance for each of [name of entity]’s major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the State Single Audit Act (C.G.S. Sections 4-230 to 4-236). Those standards and the State Single Audit Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about [name of entity]’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of [name of entity]’s compliance.
Opinion on Each Major State Program

In our opinion, [name of entity], complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 20XX.

Report on Internal Control over Compliance

Management of [name of entity], is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered [name of entity]'s internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with the State Single Audit Act, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of [name of entity]'s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the State Single Audit Act. Accordingly, this report is not suitable for any other purpose.
We have audited the financial statements of [name of entity], as of and for the year ended June 30, 20XX and have issued our report thereon dated [report date], which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of state financial assistance is presented for purposes of additional analysis as required by the State Single Audit Act and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of state financial assistance is fairly stated in all material respects in relation to the financial statements as a whole.

1 Examples 2 to 3c provide guidance for alternative situations for reporting on compliance and internal control.

2 The opinion relating to the schedule of expenditures of state financial assistance may be presented along with the report on the entity’s financial statements. Refer to AICPA Audit Guide - Government Auditing Standards and Single Audits for guidance.

3 The example shown is for a Non-Profit entity, if a governmental entity, use the example paragraph below.

We have audited the financial statements of the governmental activities, the business type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of [name of entity] as of and for the year ended June 30, 20XX, and the related notes to the financial statements, which collectively comprise the [name of entity]’s basic financial statements. We have issued our report thereon dated [report date], which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the [name of entity]’s basic financial statements. The accompanying schedule of expenditures of state financial assistance is presented for purposes of additional analysis as required by the State Single Audit Act, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of state financial assistance is fairly stated in all material respects in relation to the basic financial statements as a whole.

4 This paragraph should indicate the type of opinion(s) expressed on the financial statements; if the opinion(s) is other than unmodified, describe the opinion modifications. In addition, if the auditor issues a qualified opinion on the financial statements and the qualification has an effect on the schedule of expenditures of state financial assistance, the last sentence of this paragraph would be replaced with the following:

In our opinion, except for the effect on the accompanying schedule of expenditures of state financial assistance of the qualified opinion on the financial statements as described above, the schedule of expenditures of state financial assistance is fairly stated in all material respects in relation to the financial statements as a whole.

If the auditor disclaims an opinion on the financial statements or issues an adverse opinion, the auditor is precluded by SAS No.119 from issuing an opinion on the supplementary information.

An audit includes examining, on a test basis, evidence about the [name of entity]’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the [name of entity]’s compliance.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE
STATE SINGLE AUDIT ACT (Significant Deficiencies Identified)

Management of the [name of entity], is responsible for establishing and maintaining effective internal
control over compliance with the types of compliance requirements referred to above. In planning
and performing our audit of compliance, we considered the [name of entity]'s internal control over
compliance with the types of requirements that could have a direct and material effect on each major
state program to determine the auditing procedures that are appropriate in the circumstances for the
purpose of expressing our opinion on compliance for each major state program and to test and report
on internal control over compliance in accordance with the State Single Audit Act, but not for the
purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly,
we do not express an opinion on the effectiveness of the [name of entity]'s internal control over
compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over
compliance does not allow management or employees, in the normal course of performing their
assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance

compliance is a deficiency, or combination of deficiencies, in internal control over compliance such
that there is a reasonable possibility that material noncompliance with a type of compliance

significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies,
in internal control over compliance with a type of compliance requirement of a state program that is
less severe than a material weakness in internal control over compliance, yet important enough to
merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the
first paragraph of this section and was not designed to identify all deficiencies in internal control over
compliance that might be material weaknesses or significant deficiencies and, therefore, material
weaknesses or significant deficiencies may exist that were not identified. We did not identify any
deficiencies in internal control over compliance that we consider to be material weaknesses. However,
we identified certain deficiencies in internal control over compliance, as described in the
accompanying schedule of findings and questioned costs as items [list the reference numbers of the
related findings, for example 20XX-1, 20XX-2], that we consider to be significant deficiencies.

The [name of entity]'s response to the internal control over compliance finding(s) identified in our
audit is described in the accompanying schedule of findings and questioned costs. The [name of
deficiency]’s response was not subjected to the auditing procedures applied in the audit of compliance and,
accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our
testing of internal control over compliance and the results of that testing based on the requirements
of the State Single Audit Act. Accordingly, this report is not suitable for any other purpose.

Questioned Cost

Identification of questioned costs and how they were computed.

Context

Information to provide proper perspective for judging the prevalence and consequences of the audit findings, such as whether the audit findings represent an isolated instance or a systemic problem. Where appropriate, instances identified shall be related to the universe and the number of cases examined and is quantified in terms of dollar value.

Effect

The possible asserted effect to provide sufficient information to the auditee and State agency, or pass-through entity in the case of a subrecipient, to permit them to determine that cause and effect to facilitate prompt and proper corrective action.

Cause

The reason or apparent reason that the condition or situation occurred.

Recommendation

Recommendations to prevent future occurrences of the deficiency identified in the audit finding.
Management's Response / Views of Responsible Officials

Although a reference to the corrective action plan or a summary of the plan may be presented here, it does not satisfy the requirement that the corrective action plan be presented in a document separate from the Schedule of Findings and Questioned Costs. If the organization believes a corrective action is not required, a statement describing the reasons should be included.

1  If the audit opinion on compliance for one or more major programs is other than unmodified, indicate the type of opinion issued for each program. For example, if the audit report on major program compliance for an auditee having five major programs includes an unmodified opinion for three of the programs, a qualified opinion for one program, and a disclaimer of opinion for one program, the response to this question could be as follows: “Unmodified for all major programs except for [name of program], which was qualified and [name of program], which was a disclaimer.”

2  Major programs should generally be identified in the same order as reported on the schedule of expenditures of state financial assistance. See Section 4-230(12) and 4-233(c) of the State Single Audit Act and Part 5 of this supplement for determining major programs. Programs tested as major programs are treated as such and should be listed here.

3  See Chapter 4 of the AICPA Audit Guide Government Auditing Standards and Single Audits for a discussion of the Government Auditing Standards requirements for presenting findings.

4  Audit findings that relate to both the financial statements and state financial assistance should be reported in both section II and section III. However, the reporting in one section may be in summary form with a reference to a detailed reporting in the other section of the schedule.

5  The auditor should report management views including a summary of planned corrective actions for the findings identified in the Schedule of Findings and Questioned Costs. Alternatively, depending on the status of the development of the corrective action plan at the time the auditor’s reports are released, the auditor may be able to refer to the corrective action plan as the required presentation of Management’s Response / Views of Responsible Officials. However, the corrective action plan must be in a separate document from the auditor’s findings. See part 11 of the State Single Audit Compliance Supplement for a sample separate presentation of a corrective action plan.
EXAMPLE 7

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards (No Material Weaknesses, No Significant Deficiencies, No Reportable Instances of Noncompliance or Other Matters) ¹

Independent Auditor's Report

[Addressee]
[Address]

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States the financial statements of [name of entity], which comprise the statement of financial position as of June 30, 20XX and the related statements of activities, and cash flows for the year ended, and the related notes to the financial statements, and have issued our report thereon dated [report date]. ², ³

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered [name of entity]'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the [name of entity]'s internal control. Accordingly, we do not express an opinion on the effectiveness of the [name of entity]'s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.⁴a, ⁴b
Compliance and Other Matters

As part of obtaining reasonable assurance about whether the [name of entity]’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of [name of entity]’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the [name of entity]’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

1 Refer to the audit guide, Government Auditing Standards and Single Audits and the AICPA website (aicpa.org) for further explanation and variations of reporting.

2 This illustration assumes the entity audited is a nonprofit entity. If the entity audited is a governmental entity, substitute the following for the first paragraph.

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the [name of entity], as of and for the year ended June 30, 20XX, and the related notes to the financial statements, which collectively comprise the [name of entity]’s basic financial statements, and have issued our report thereon dated [report date].

3 Disclose the type of independent auditors’ report issued if other than unmodified (qualified, adverse, disclaimer).
If significant deficiencies are identified but material weaknesses are not identified, substitute the following paragraph:

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiency in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. [List the reference numbers of the related findings for example 20XX-1 and 20XX-2].

If material weaknesses are identified but significant deficiencies are not identified, substitute the following paragraph:

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards (Material Weaknesses and Significant Deficiencies Identified and Reportable Instances of Noncompliance and Other Matters Identified) 1

Independent Auditor’s Report

[Addressee]
[Address]

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States the financial statements of the [name of entity], which comprise the statement of financial position as of June 30, 20XX and the related statements of activities, and cash flows for the year ended, and the related notes to the financial statements, and have issued our report thereon dated [report date]. 2, 3

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the [name of entity]'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the [name of entity]'s internal control. Accordingly, we do not express an opinion on the effectiveness of the [name of entity]'s internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items (List the reference numbers of the related findings, for example 20XX-1 and 20XX-2) to be material weaknesses.
A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items (*List the reference numbers of the related findings, for example 20XX-3 and 20XX-4*) to be significant deficiencies.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the [name of entity]'s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items (*List the reference numbers of the related findings, for example 20XX-5 and 20XX-6*).

**The [Name of Entity]'s Response to Findings**

The [name of entity]'s response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The [name of entity]'s response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the [name of entity]'s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the [name of entity]'s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

1 Refer to the audit guide, *Government Auditing Standards and Single Audits* and the AICPA website (aicpa.org) for further explanation and variations of reporting. In addition, see footnotes 4a and 4b of Example 7 in Part 9 of this Supplement for reporting when either significant deficiencies or material weaknesses are identified but not both.

2 This illustration assumes the entity audited is a nonprofit entity. If the entity audited is a governmental entity, substitute the following for the first paragraph.

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the [name of entity], as of and for the year ended June 30, 20XX, and the related notes to the financial statements, which collectively comprise the [name of entity]’s basic financial statements, and have issued our report thereon dated [report date].

3 Disclose the type of independent auditors’ report issued if other than unmodified (qualified, adverse, disclaimer).
Financial Statement Findings:

Finding No. 2017-1

Condition: Inadequate segregation of duties in the Finance Office

Current Status: The finding has been corrected

State Program Findings:

Finding No. 2017-2

Condition: XYZ did not comply with the reporting requirement specified for the Adult Education Program.

Current Status: The finding has been corrected.

Finding No. 2016-1

Condition: Certain eligibility procedures for the Disabled Homeowners Program were not complied with by XYZ.

Current Status: Finding was first reported for fiscal year ended June 30, 2016 and is being repeated as 2016-1. There was a lack of understanding by staff administering the grant of the new procedures to be implemented as part of the previously developed corrective action plan.

Planned Corrective Action: See response included in the current year Corrective Action Plan.

1 The auditee is responsible for developing and implementing corrective action on all audit findings. As part of this responsibility, the auditee is responsible for the Summary Schedule of Prior Audit Findings which shall include the reference numbers the auditor assigns to audit findings. Since the summary schedule may include audit findings from multiple years, it shall indicate the fiscal year in which the findings initially occurred. If this Schedule is required, it should be included in the reporting package submitted.

The Summary Schedule should report the status of all audit findings included in the prior year’s State Single Audit Schedule of Findings and Questioned Costs. Where appropriate, the auditee may include comments on the Schedule describing why it believes a finding is no longer valid or not warranting further corrective action.

Auditees are reminded that the independent auditor is required to follow-up on prior audit findings and perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings. The auditor is responsible for reporting a current year finding if the Summary Schedule materially misrepresents the status of any prior audit finding.

* Grant recipients are responsible for preparing a corrective action in regard to the following audit findings:

- Findings related to the financial statements required to reported in accordance with Government Auditing Standards (including significant deficiencies, material weaknesses, reportable/material instances of noncompliance and material abuse);
- Findings related to major state financial assistance programs required to be reported in accordance with the State Single Audit Act (including significant deficiencies, material weaknesses, and reportable/material instances of noncompliance);
- Known questioned costs exceeding one-thousand dollars regarding a type of compliance requirement of a major state program or known questioned costs exceeding one-thousand dollars for a state program not audited as a major program;
- Significant instances of abuse material to a major state program or abuse that is less than material to a major state program, but for which, in the auditor’s judgment, is of sufficient importance to communicate to management and those charged with governance;
- The circumstances why the independent auditor’s report on compliance over major state programs is other than an unmodified opinion (unless already reported as an audit finding); and
- Instances where the results of audit follow-up procedures reveals that the summary of prior audit findings prepared by the auditee materially misrepresents the status of any prior audit finding.

The Office of Policy and Management (OPM) as the cognizant agency for municipalities, tourism districts, other local governments and nonprofit entities, require that the corrective action plan be included in the paper copy of the reporting package submitted to OPM and that it be included in the electronic version of the reporting package filed on OPM’s Electronic Audit Reporting System (EARS) website. Grantor agencies have agreed to use the electronic version of the State Single Audit reporting packages filed on EARS instead of receiving individual paper audit reporting packages. Therefore, audit reporting packages filed electronically on OPM's website are not considered complete without the corrective action plan being included for state grantor agencies to review.

SUBRECIPIENT AND CONTRACTOR (VENDOR) DETERMINATION

Guidance for determining whether an entity is a subrecipient or contractor (vendor) for purposes of the State Single Audit can be found in OMB Uniform Guidance. An excerpt follows:

Subrecipient and Contractor Determinations. An entity may concurrently receive Federal funds as a recipient, a subrecipient, and a contractor, depending on the substance of its agreements with Federal agencies and pass-through entities. Therefore, a pass-through entity must make case-by-case determinations whether each agreement it makes for the disbursement of Federal program funds casts the party receiving the funds in the role of a subrecipient or a contractor. Federal agencies may supply and require recipients to comply with additional guidance to support these determinations provided such guidance does not conflict with this section.

(1) Subrecipients. A Federal subaward of Federal financial assistance creates a Federal assistance relationship between the pass-through entity and the subrecipient. Characteristics whose presence supports the classification of an entity as a subrecipient are when the entity receiving funds under the award:

(A) Determines who is eligible to receive what Federal assistance;

(B) Has its performance measured in relation to whether objectives of a Federal program were met;

(C) Has responsibility for programmatic decision making;

(D) Is responsible for adherence to applicable Federal program requirements specified in the Federal award;

(E) In accordance with its agreement, uses the Federal funds to carry out a program for a public purpose specified in authorizing statute, as opposed to providing goods or services for the benefit of the pass-through entity.

(2) Contractors. Contracts awarded by non-Federal entities under Federal financial assistance awards for the purpose of obtaining goods and services for the entity’s own use are not considered subawards for purposes of this guidance. Such a contract creates a procurement relationship between the parties. Characteristics indicative of a procurement relationship between a nonfederal entity and a contractor are when the entity receiving the Federal funds:

(A) Provides the goods and services within normal business operations;

(B) Provides similar goods or services to many different purchasers;

(C) Normally operates in a competitive environment;

(D) Provides goods or services that are ancillary to the operation of the Federal program; and
(E) Is not subject to compliance requirements of the Federal program as a result of the subaward, though similar requirements may apply for other reasons.

(3) Use of judgment in making determination. In determining whether an agreement between a pass-through entity and another entity casts the latter as a subrecipient or a contractor, the substance of the relationship is more important than the form of the agreement. All of the characteristics listed above may not be present in all cases, and the pass-through entity must use judgment in classifying each agreement as a subaward or a procurement contract.
