

Rank	Funding Source ¹	Points	PWSID	PWS Name	Base City of PWS	Population Served by Entire System	Project Name	Amount Requested	Estimated Construction Start Date	Green Project Reserve Amount ²	Green Project Type	Estimated Subsidization Amount	Adjustment ⁴	Previous Ranking ⁵
Information provided by the applicant public water system for projects ranked 1 through 34 indicated each project has the following: a local resolution authorizing funding for the project, completed design, and a readiness to proceed to construction by June 17, 2009. Ranking order was based on points, estimated construction start date, green components, and population served by the project, in that order.

Footnotes:

- 1: Projects listed as ARRA are proposed to receive ARRA funds, provided that the project moves forward in a timely manner; these projects are also eligible to receive DWSRF funds if they do not get funded under ARRA
Projects listed as DWSRF are eligible to receive DWSRF funds, subject to funding availability, and may also be eligible to receive ARRA funding, should a project listed as ARRA not move forward in a timely manner
- 2: Green Components of projects not identified are to be determined
Green Project Type: E = Energy Efficiency
W = Water Efficient/Conservation
- 3: Interest Rate and repayment terms are determined at time that financial assistance agreement is prepared
- 4: Adjustments made to this list from the 4/7/09 Draft ARRA Project Priority List include the following: (only those projects to which actual adjustments were made are noted)
Testimony - 11 PWS submitted testimony, resulting in adjustments to 5 projects
Further review of file - 3 projects
- 5: Previous Ranking - For those projects to which noted adjustments were made, the Previous Ranking indicates the ranking as it appeared on the 4/7/09 Draft ARRA Project Priority List
- 6: Project is Ineligible for financial assistance

TBD = To Be Determined

ARRA = American Recovery and Reinvestment Act of 2009

DWSRF = Drinking Water State Revolving Fund

PWS = Public Water System
