Re: Solar Electric Generating Facilities with a generating capacity of 2 or more megawatts

Please be advised that effective July 1, 2017, pursuant to Public Act 17-218, Connecticut General Statutes §16-50k(a) requires:

“...for a solar photovoltaic facility with a capacity of 2 or more megawatts, to be located on prime farmland or forestland, excluding any such facility that was selected by the Department of Energy and Environmental Protection in any solicitation issued prior to July 1, 2017, pursuant to section 16a-3f, 16a-3g or 16a-3j, the Department of Agriculture represents, in writing, to the [Connecticut Siting Council] that such project will not materially affect the status of such land as prime farmland or the Department of Energy and Environmental Protection represents, in writing, to the Council that such project will not materially affect the status of such land as core forest...”

Prior to the submission of any petition for a declaratory ruling for a proposed solar project to the Connecticut Siting Council (Council) that is not exempt as described above, petitioners shall consult with the Department of Agriculture and the Department of Energy and Environmental Protection. Thereafter, the petitioner shall submit to the Council with the petition for a declaratory ruling written correspondence from the Department of Agriculture that such project will not materially affect the status of such land as prime farmland and written correspondence from the Department of Energy and Environmental Protection that such project will not materially affect the status of such land as core forest.

Any petition for a declaratory ruling for a solar facility with a capacity of 2 or more megawatts that is submitted to the Council without the above-referenced written correspondence will be rejected as incomplete. In lieu of submitting a petition for a declaratory ruling, project developers may opt to submit an Application for a Certificate of Environmental Compatibility and Public Need in accordance with the provisions of Connecticut General Statutes §§16-50k and 16-50l, which does not require the submission of written correspondence from the Department of Agriculture or the Department of Energy and Environmental Protection.

Thank you for your anticipated cooperation.
