Part IV: Site Information

1. **DAM and WATERBODY NAME, LOCATION, USE, and PROPOSED DATES OF ACTIVITIES.** Please provide the following general information regarding the subject dam and impoundment.

- a. Name of Dam: _____ CT DamID: _____
- b. Name(s) of Waterbody: _____
- c. Nearest Street Address to the dam: # & Street: _____ City/Town: _____
- d. Instructions for access to the dam: _____
- e. Location of dam: Latitude _____ Longitude (-) _____
Note: Available from online maps. A labeled location map should be included as Attachment 2.
- f. Describe the uses of the dam and impounded water: _____
- g. Proposed date of initiation of the activities to be authorized: _____
Note: Section 5(b) of the subject general permit requires a notice to DEEP if the activity is not initiated within 60 days of the date of filing.
- h. Estimated date of completion of the activities to be authorized: _____
Note: The permit allows up to 3 years to complete the work. Section 5(b) of the subject general permit requires completion notices and reports.

2. **DAM TYPE, SIZE, and IMPOUNDMENT CAPACITY.** These parameters are used in Parts V-1 and V-2 below. If unsure of any of these parameters, please contact the DEEP Dam Safety program permitting staff at 860-424-3706 or by email at DEEP.DamSafety@ct.gov

- a. Enter the official Dam Height: _____ ft.
- b. Enter the official Dam Length: _____ ft.
- c. Enter the official Impoundment Storage volume: _____ acre feet.
- d. This dam is an (check one): Earth Embankment Dam Concrete Gravity Dam

Note: earthen dams including concrete or masonry walls are considered Earth Embankment Dams. The dam must be 15 feet in height or less and impound 50 acre feet or less of water at the normal water level.

3. **FISHERIES REVIEW- DRAWDOWN OF IMPOUNDMENT.** Is an impoundment drawdown of more than 3” inches below the principal spillway necessary for the completion of any of the activities for which authorization is sought? Yes No

If **yes**, before you file this application, you must contact the DEEP Inland Fisheries division for a consultation regarding your proposal. Identified fisheries interests at the subject dam typically must be incorporated into the project.

The consultation is usually initiated by submitting the form entitled “Request for Determination of Need for Fishway for Dam Safety Permit,” which is available on the Dam Safety Website www.ct.gov/deep/dams or on the DEEP Inland Fisheries Division [Fisheries Management Programs](#) webpage. Once you have heard back from the Inland Fisheries staff, include a copy of your request, the response you received, and include how you have incorporated the requirements of the staff with this filing as Attachment 3.

4. **ENDANGERED OR THREATENED SPECIES:** According to the most current "State and Federal Listed Species and Natural Communities Map", is the project site located within an area identified as a habitat for endangered, threatened or special concern species? Yes No Date of Map: _____

If **yes**, before you file this application, you must complete and submit a [Request for NDDDB State Listed Species Review Form](#) (DEEP-APP-007) to the address specified on the form. Please note NDDDB review generally takes 4 to 6 weeks and may require additional documentation. Once you have heard back from the NDDDB staff, include a copy of your request, the response you received, and include how you have incorporated the requirements of the NDDDB staff with this filing as Attachment 4. For more information visit the DEEP website at www.ct.gov/deep/nddbrequest or call the NDDDB at 860-424-3011.

Part IV: Site Information (continued)

- 5. FILL IN WETLANDS.** Does the proposed work include any filling of federally regulated wetlands?
 Yes No If **yes**, before you file this application, you must contact the US Army Corps of Engineers and file Appendix 1a: Category 1 Certification Form and obtain coverage under the Department of the Army General Permit for the State of Connecticut. Category 1 is generally applicable to authorize fill areas less than 5000 square feet. A copy of the Category 1 Certification form and return confirmation from the US Army Corps of Engineers that the activity is covered within Category 1 of that general permit must be included with this filing as Attachment 5. Projects with greater than 5000 square feet of wetlands filling are not eligible under this general permit.
- 6. BEST MANAGEMENT PRACTICES.** Will the proposed activities occur in or will equipment traverse wetlands or floodplains or watercourses to reach work areas with the potential to cause erosion and sedimentation or release pollution? Yes No If **yes**, a detailed description of the pollution prevention and best management practices that will be implemented to minimize construction in and disturbance of floodplains, wetlands, and watercourses, and prevent pollution is required and must be included as Attachment 6. If no, include an explanation as to why and include as Attachment 6.
- 7. AQUIFER PROTECTION AREAS:** Is the site located within a mapped Level A or Level B [Aquifer Protection Area](#), as defined in CGS section 22a-354a through 22a-354bb?
 Yes No If **yes**, check one: Level A or Level B
- If **Level A**, are any of the [regulated activities](#), as defined in RCSA section 22a-354i-1(34), conducted on this site? Yes No If **yes**, and your business is **not** already registered with the Aquifer Protection Program, contact the [local aquifer protection agent](#) or DEEP to take appropriate actions. For more information on the Aquifer Protection Area Program visit the DEEP website at www.ct.gov/deep/aquiferprotection or contact the program at 860-424-3020.
- 8. NOTICE TO MUNICIPALITY:** Have you submitted the required [Notice to Municipality](#) and obtained a copy of the submitted notice showing the municipal received stamp?
 Yes No If **yes**, Include the copy of the submitted notice as Attachment 7. If **no**, be advised that the work cannot start until minimally 2 weeks after submitting the notice to the municipality and the copy of the submitted notice must be received by DEEP before beginning work.
- 9. CONSERVATION OR PRESERVATION RESTRICTION:** Is the property subject to a conservation or preservation restriction? Yes No
- If **Yes**, proof of written notice of this filing to the holder of such restriction or a letter from the holder of such restriction verifying that this filing is in compliance with the terms of the restriction, must be submitted as Attachment 8.
- 10. INDIAN LANDS:** Is the dam located on federally recognized Indian lands? Yes No
- 11. COASTAL BOUNDARY:** Is the activity which is the subject of this filing located within the coastal boundary as delineated on DEEP approved coastal boundary maps? Yes No
- If **yes**, and this filing is for a new authorization or a modification of an existing authorization where the physical footprint of the subject activity is modified, you must submit a [Coastal Consistency Review Form](#) (DEEP-APP-004) with your application as Attachment 9.
- Information on the coastal boundary is available at www.cteco.uconn.edu/map_catalog.asp. Select the town and then select coastal boundary. If the town is not within the coastal boundary you will not be able to select the coastal boundary map. The Coastal Boundary Map is also available at the municipal town hall or can be obtained from DEEP Maps and Publications (860-424-3555).

Part V: DAM REPAIR AND ALTERATION SPECIFIC INFORMATION

To complete the sections below, you refer to the **General Permit to Conduct Repairs and Alterations to Dams - Filing Only Categories (DEEP-IWRD-GP-015) Eligible Activities begin on Page 7.**

Place a check in the box for each activity you propose to conduct at the dam under this filing and complete the questions to describe the extent of the activity as within the limits of the subject general permit.

The dam must be 15 feet in height or less and impound 50 acre feet or less of water at the normal water level.

The maximum amounts of work allowed under this filing are indicated in each section. Refer to the permit for additional details and limitations. If the amount of work proposed exceeds these limits, please refer to Section 3(a)2 of the subject general permit or refer to permit DEEP-IWRD-GP-016.

You must prepare and include a report labeled Attachment 1 which will provide a more detailed description of the proposed work as required. See Part VI below for descriptions of these required attachments.

Part V. Activities which may be conducted with Connecticut licensed professional engineer oversight.

Refer to Section 3(a)1 of the subject general permit for the following activities: (check all that apply)

- a) **Replacing missing and storm scoured riprap on dams along embankments, spillways.**
You may restore up to 25 square yards of missing or storm scoured riprap per filing.
Proposed total area of riprap restoration under this filing: square yards.
- b) **Restoring minor eroded areas such as tire ruts, pedestrian erosion, and bare spots.**
You may restore all minor erosion areas by hand only no machinery allowed using proper fill, topsoil seed, hay mulch to reestablish grass cover.
- c) **Filling Animal Burrows in downstream slopes only.**
You may fill up to 15 burrows with a maximum depth of 3 feet per filing.
Proposed number of animal burrows to be filled under this filing: burrows
- d) **Patching of spalling and sealing of concrete surfaces done by hand.**
You may patch and seal up to 500 square feet and 1" depth of patch material per filing.
Proposed total area of patching under this filing: square feet.
- e) **Repair of Cracks in Concrete using appropriate repair material.**
You may repair up to 200 linear feet per filing.
Proposed total length of crack repair under this filing: linear feet.
- f) **Repair of Concrete Structures on the dam done by hand.**
You may use up to 1 cubic yard (54 ½-cubic foot ready mix bags) per filing.
Proposed volume of concrete structure repair under this filing: cubic yard.
- g) **Repointing masonry on upstream face, crest, and appurtenant structures.**
You may use up to ¼ cubic yard (14 ½-cubic foot ready mix mortar bags) per filing.
Proposed volume of mortar for repointing under this filing: cubic yard.

Part VI: Supporting Documents

Check the applicable box below for each attachment being submitted with this filing form. When submitting any supporting documents, please label the documents minimally with the Dam name and DamID#, date of filing and be sure to include the Filing Party's name.

- Attachment 1: For proposed activities checked in Part V, include a report using photographs, sketches, diagrams, and narrative descriptions prepared by the filing party or associated party as necessary to depict the existing conditions and the proposed areas and quantities of repairs to be conducted. All such documents shall minimally be labeled with the CT Dam ID#, the dam name, the town, the dam owner's name, and the date of the filing.
- Attachment 2: Location Map. Include an 8.5" x 11" map with a minimum scale of 1:24,000 which includes labels indicating the location of the dam, street names, municipality name, the name of the dam, the CT DamID#, north arrow, and includes an arrow indicating the nearest location (street) address for access to the dam.
- Attachment 3: The response from the DEEP Inland Fisheries Division (IFD) to the filing of the consultation form regarding the fishway determination and any concerns regarding the proposed drawdown and fisheries interests, if applicable.
- Attachment 4: The response from the DEEP Wildlife Division to the filing of a *Request for NDDB State Listed Species Review Form* (DEEP-APP-007) if applicable.
- Attachment 5: Confirmation from the US Army Corps of Engineers (USACE) in response to the Category 1 self certification filing stating that the activity is covered within Category 1 of the USACE Connecticut general permit, or that no permit is required, if applicable.
- Attachment 6: Include a description of the pollution prevention and best management practices that will be implemented to minimize construction in and disturbance of floodplains, wetlands, and watercourses, and prevent pollution. This may be omitted if there will be no activities or vehicular passage across these areas.
- Attachment 7: A copy of the filed Notice to Municipality (using form: DEEP-IWRD-GP-014-015-016 Notice) which shows the stamp of the municipality indicating the date the notice was delivered to the municipality.
- Attachment 8: Include proof of written notice of this filing to the holder of such restriction or a letter from the holder of such restriction verifying that this filing is in compliance with the terms of the restriction Conservation or Preservation Restriction Information, if applicable.
- Attachment 9: [Coastal Consistency Review Form](#) (DEEP-APP-004), if applicable.

Part VII: Filer Certification

The Filer *and* the individual(s) responsible for actually preparing the filing must sign this part. A filing will be considered incomplete unless all required signatures are provided. [If the filer is the preparer, please mark N/A in the spaces provided for the preparer.]

“I have personally examined and am familiar with the information submitted in this document and all attachments thereto, and I certify that based on reasonable investigation, including my inquiry of the individuals responsible for obtaining the information, the submitted information is true, accurate and complete to the best of my knowledge and belief.
