

Electric Vehicle Incentives Available in Connecticut

Connecticut Hydrogen and Electric Automobile Purchase Rebate (CHEAPR)

CHEAPR is an incentive, of up to \$5,000, available to Connecticut residents, businesses and municipalities for the purchase or lease of a new eligible battery electric vehicle (BEV), fuel cell electric vehicle (FCEV) or plug-in hybrid electric vehicle (PHEV). The base MSRP for all eligible vehicles must not exceed \$50,000 for PHEV/BEV models or \$60,000 for FCEV models.

REBATE AMOUNTS AS OF OCTOBER 15, 2018

Vehicle Type	Rebate Amount	EPA Rated Electric Range
FCEV	\$5,000	Any Fuel Cell Electric Vehicle
BEV	\$2,000	200 miles or greater
	\$1,500	120-199 miles
	\$500	Less than 120 miles
PHEV	\$1,000	45 miles or greater
	\$500	Less than 45 miles

To get this incentive: Please visit www.evconnecticut.com/CHEAPR for all the CHEAPR program details and a complete list of eligible vehicles and their associated incentives. Funds are limited and important restrictions apply.

Federal Plug-In Electric Drive Vehicle Credit

A [federal income tax credit](#) is available to buyers of new plug-in electric vehicles. The credit ranges from **\$2,500 to \$7,500** based on vehicle battery capacity.

Note that this credit, which became available in 2009, will begin to phase out once auto manufacturers meet their sales quota.

To get this credit: Complete [IRS Form 8936](#), Qualified Plug-in Electric Drive Motor Vehicle Credit and submit with your income tax return.
