Stormwater General Permits and Incorporation of Low Impact Development Evaluation

The CT Department of Environmental Protection (CT DEP) is soliciting proposals for development of a study to evaluate Connecticut’s stormwater general permits to promote better site design and incorporation of low impact development practices to minimize stormwater runoff volume and pollutant loads for new land use development projects. All qualified environmental consultant, non profit or university institutions are eligible.

**PROPOSAL DEADLINE: January 8, 2010**

A COMPLETE ORIGINAL PROPOSAL MUST BE RECEIVED AT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION, BUREAU OF WATER PROTECTION AND LAND REUSE, 79 ELM STREET, HARTFORD, CONNECTICUT BY THE PROPOSAL DEADLINE. POSTMARKS WILL NOT COUNT.

FAXED OR E-MAILED PROPOSALS WILL NOT BE ACCEPTED.

Proposers will be notified of the funding decision by January 15, 2010.

**PROJECT PURPOSE**

Introduction

The goal of this project is to evaluate improved and innovative approaches for more effectively controlling stormwater quantity and quality through the Connecticut Stormwater General Permits (SGP). Objectives of the project are to:

1) Establish performance goals and criteria for management practices common to SGP implementation;
2) Identify how the performance goals and criteria can be most effectively incorporated into the SGP to meet permit limits and conditions; and
3) Identify mechanisms for incorporating Low Impact Development (LID) best management practices (BMP) and pollution prevention practices into the SGP for priority attention.
Project Background

The best opportunities for preventing potentially negative impacts of stormwater runoff lie with new development when planning and site design can accommodate necessary BMPs, including LID and pollution prevention techniques, often much more cost effectively than by retrofitting existing development. This is of special concern in states like Connecticut that are urbanized and growing. Proper attention to watershed planning and preventive management during the site design phase will help assure water quality targets are met that both prevent degradation and, in cases where impairments exist in the watershed, meet water quantity and quality management goals. For these reasons, this project will focus on Connecticut’s Stormwater Construction General Permit, although the application of the lessons and tools developed to other stormwater permits (industrial, commercial and municipal separate sanitary sewer system (MS4) general stormwater permits) should be considered and reported.

The project will explore several aspects of stormwater permitting, including the following:

1. the use of runoff volume as the indicator of environmental effect and management success;
2. the relationship between volume and pollutant control;
3. establishing appropriate permit limits relative to storm size and runoff volume;
4. necessary guidance, including performance criteria for both LID/pollutant prevention techniques, as well as traditional “end-of-pipe” practices;
5. role and benefits of a stormwater utility;
6. incorporation of these approaches into the SGP and state guidance manual; and
7. relevance and expansion of the approach to industrial, commercial and MS4 general permits.

Many of these practices and potential approaches are being tried or piloted in studies in other states, including Connecticut, which will provide real world evaluations as a foundation for the study. The consultant will have the opportunity to propose which, if any, other strategies are appropriate to include for consideration by the CT DEP.

A contract will be awarded by CT DEP to a qualified consultant that will work with CT DEP and external stakeholders to coordinate the project and revise applicable DEP guidance documents. The successful contractor will address the above considerations, as well as evaluate the alternative options to stormwater management incorporating low impact development strategies.

Proposals shall include the following Tasks:

1. Identify partners relevant to the project. DEP will work with the chosen contractor to establish an in-house work team of both Stormwater Permitting and Planning (LID) staff to coordinate with the additional partners;

2. Identify approaches and make recommendations for meeting the above goal and objectives of the study;
3. Develop at least two alternative scenarios or methodologies for implementing recommended changes into the SGP and include the rationale for the selection of those alternatives;

4. Evaluate the inclusion of LID/pollution prevention practices into SGP, and consider the potential role of a stormwater utility or similar approaches;

5. Incorporate necessary revisions into Connecticut’s guidance manuals for stormwater and erosion and sediment control to support the SGP; and

6. Produce a (final) technical report summarizing the results and programmatic recommendations with respect to Tasks 3, 4 and 5, and others that may arise in the development of the project.

The institution awarded will provide the following reports as deliverables during this study:

1. Quarterly Progress reports
4. Final revisions incorporated into the guidance manuals for stormwater and erosion and sediment control – due approximately no later than August 17, 2011.

It is anticipated that a successful project will provide the support and tools for more innovative and progressive SGP implementation process in the State of Connecticut, with a stronger focus on watershed planning and LID/pollution prevention as more natural and cost effective means to meet water quality goals instead of reliance on end of pipe treatment. Ancillary benefits for other stormwater permits and nonpoint source management both in Connecticut and other states is anticipated.

**AWARD PROCESS**

Proposals received will be reviewed by CTDEP staff and will be ranked in accordance with the attached Eligibility Requirements and Funding Criteria (Attachment A). CTDEP will be sole arbiter of awards. Proposers will receive written notification of the decision. In some cases, CTDEP may recommend modification to a project proposal or will offer to fund a dollar amount that differs from the proposal. Following approval of the project proposal including any requested changes, a contract will be drafted and mailed out for signature by the Contractor and returned for subsequent state contract approval. **Project work to be funded by the contract cannot begin until the contract has been fully executed.**

Attached are eligibility requirements, funding criteria, and proposal submittal instructions (Attachment A), and a budget summary page (Attachment B). Submission of complete and accurate information will enhance the possibility of a proposal being selected for funding.

For those proposers who have previously received funding through the Department of Environmental Protection, past performance will be a factor considered in the approval process.

NOTICE TO EXECUTIVE BRANCH STATE CONTRACTORS AND PROSPECTIVE STATE CONTRACTORS OF CAMPAIGN CONTRIBUTION AND SOLICITATION BAN

This notice is provided under the authority of Connecticut General Statutes 9-612(g)(2), as amended by P.A. 07-1, and is for the purpose of informing state contractors and prospective state contractors of the following law (italicized words are defined on page 2):

Campaign Contribution and Solicitation Ban.
No state contractor, prospective state contractor, principal of a state contractor or principal of a prospective state contractor, with regard to a state contract or state contract solicitation with or from a state agency in the executive branch or a quasi-public agency or a holder, or principal of a holder of a valid prequalification certificate, shall make a contribution to, or solicit contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of Governor, Lieutenant Governor, Attorney General, State Comptroller, Secretary of the State or State Treasurer, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee:

In addition, no holder or principal of a holder of a valid prequalification certificate, shall make a contribution to, or solicit contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of State senator or State representative, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee.

Duty to inform
State contractors and prospective state contractors are required to inform their principals of the above prohibitions, as applicable, and the possible penalties and other consequences of any violation thereof.

Penalties for Violations
Contributions or solicitations of contributions made in violation of the above prohibitions may result in the following civil and criminal penalties:
Civil penalties—$2000 or twice the amount of the prohibited contribution, whichever is greater, against a principal or a contractor. Any state contractor or prospective state contractor which fails to make reasonable efforts to comply with the provisions requiring notice to its principals of these prohibitions and the possible consequences of their violations may also be subject to civil penalties of $2000 or twice the amount of the prohibited contributions made by their principals.
Criminal penalties—Any knowing and willful violation of the prohibition is a Class D felony, which may subject the violator to imprisonment of not more than 5 years, or $5000 in fines, or both.

Contract Consequences
Contributions made or solicited in violation of the above prohibitions may result in the case of a state contractor, in the contract being voided.

Contributions made or solicited in violation of the above prohibitions, in the case of a prospective state contractor, shall result in the contract described in the state contract solicitation not being awarded to the prospective state contractor, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.

The state will not award any other state contract to anyone found in violation of the above prohibitions for a period of one year after the election for which such contribution is made or solicited, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.

NOTICE TO EXECUTIVE BRANCH STATE CONTRACTORS AND PROSPECTIVE STATE CONTRACTORS OF CAMPAIGN CONTRIBUTION AND SOLICITATION BAN

This notice is provided under the authority of Connecticut General Statutes 9-612(g)(2), as amended by P.A. 07-1, and is for the purpose of informing state contractors and prospective state contractors of the following law (italicized words are defined below):

CAMPAIGN CONTRIBUTION AND SOLICITATION BAN

No state contractor, prospective state contractor, principal of a state contractor or principal of a prospective state contractor, with regard to a state contract or state contract solicitation with or from a state agency in the executive branch or a quasi-public agency or a holder, or principal of a holder of a valid prequalification certificate, shall make a contribution to, or solicit contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of Governor, Lieutenant Governor, Attorney General, State Comptroller, Secretary of the State or State Treasurer, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee; In addition, no holder or principal of a holder of a valid prequalification certificate, shall make a contribution to, or solicit contributions on behalf of (i) an exploratory committee or candidate committee established by a candidate for nomination or election to the office of State senator or State representative, (ii) a political committee authorized to make contributions or expenditures to or for the benefit of such candidates, or (iii) a party committee.

DUTY TO INFORM

State contractors and prospective state contractors are required to inform their principals of the above prohibitions, as applicable, and the possible penalties and other consequences of any violation thereof.

PENALTIES FOR VIOLATIONS

Contributions or solicitations of contributions made in violation of the above prohibitions may result in the following civil and criminal penalties:

Civil penalties--$2000 or twice the amount of the prohibited contribution, whichever is greater, against a principal or a contractor. Any state contractor or prospective state contractor which fails to make reasonable efforts to comply with the provisions requiring notice to its principals of these prohibitions and the possible consequences of their violations may also be subject to civil penalties of $2000 or twice the amount of the prohibited contributions made by their principals.

Criminal penalties—Any knowing and willful violation of the prohibition is a Class D felony, which may subject the violator to imprisonment of not more than 5 years, or $5000 in fines, or both.

CONTRACT CONSEQUENCES

Contributions made or solicited in violation of the above prohibitions may result, in the case of a state contractor, in the contract being voided.

Contributions made or solicited in violation of the above prohibitions, in the case of a prospective state contractor, shall result in the contract described in the state contract solicitation not being awarded to the prospective state contractor, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.

The State will not award any other state contract to anyone found in violation of the above prohibitions for a period of one year after the election for which such contribution is made or solicited, unless the State Elections Enforcement Commission determines that mitigating circumstances exist concerning such violation.
