Re: Application 201205444
Town/City of Fairfield
Mill River Watershed

Exide Group, Inc. is hereby authorized to install a sediment de-watering and wastewater treatment facility for the treatment of a maximum flow of 435,000 gallons per day of wastewater generated from the dredging of contaminated sediment and dewatering of said sediment to the Mill River in accordance with plans and specifications prepared by TRC Environmental Corporation and filed with this Department on September 2, 2014. This action is further found to be consistent with the applicable policies of the Connecticut Coastal Management Act (section 22a-92 of the Connecticut General Statutes).

This proposal complies with the requirements of paragraph 3:(A) of the Department of Energy and Environmental Protection's Bureau of Materials Management and Compliance Assurance NPDES Permit No. CT0030651.

This approval is issued in accordance with section 22a-430 of the Connecticut General Statutes as amended.

This approval does not relieve you of the obligation to obtain any other authorizations as may be required by Federal, State or Local laws or regulations.

If you have any questions regarding this matter, please contact Donald Gonyea at 424-3827.

Sincerely,

Oswald Inglese, Jr.
Director
Bureau of Materials Management and
Compliance Assurance
Water Permitting and Enforcement Division
