9:00a Keynote Speaker

*Deep Roots, Broad Branches:
Growing a Connected Community for Citizen Science*

Jennifer Shirk, Citizen Science Association

Jennifer works to research, advance, and serve the field of public participation in scientific research. As the Interim Executive Director of the Citizen Science Association, she builds collaborations to share transferrable knowledge of practice from across different citizen science contexts. Jennifer’s research interests focus on the effective use of citizen science for scientific research and conservation, particularly where complex decisions are at stake.
