STATEMENT OF PURPOSE: The Department of Mental Health and Addiction Services (DMHAS) provides patients, clients, visitors and guests with disabilities effective communication and equal access to programs, services and activities.

      - Reason for the request
      - Specific modification requested by the person
      - When and where will the modification be needed
   c. Requests for disability related modifications should be made at least 10-days before the requested modification is needed to allow time for the request to be reviewed and necessary arrangements made. However, the DMHAS facility may waive the 10-day period if there is an urgent need to respond to the request.
   d. The preferences of the person requesting the disability related modification will be considered when the DMHAS facility responds to the request.
   e. While the request is being reviewed, the individual making the request may be asked questions necessary for addressing the request.
Questions and responses regarding a request for disability related modifications will be kept confidential.

A denial will not be based on whether the person refuses to answer questions regarding his/her request.

DMHAS is not required to provide aids for a person’s use at home or in the community including but not limited to: hearing aids, ramps and wheelchairs.

4. The DMHAS Commissioner designates an ADA Title II Coordinator to promote DMHAS compliance with the ADA and address ADA related concerns and complaints.
