Policy Statement No. 2

Subject: Supplemental Construction Bids

Effective: 29 April, 2005

David O'Hearn, Deputy Commissioner

The following procedure provides the policy governing the acceptance of supplemental bids. When submitting the bid request form, the "Maximum Available Construction Funding" will be listed in the box provided. The supplemental bids will be awarded in order. Based upon the "Maximum Available Construction Funding", the supplemental bids shall be awarded to the lowest qualified and responsible bidder, based upon supplemental bids adding to the maximum amount without going over the total available award funds. No funds shall be added or subtracted from the total available award funds after bids are opened.

Exception:

Funds may be added if all base bids exceed the total available award funds in an amount to award the base bid only.
